Details show that the snow storms of the last few weeks in the far northwest were the heaviest known since there was any considerable settlement there by the whites. The inhabitants of Oregon, Washington and Montana were not prepared for such weather and so heavy fall of snow and have consequently suffered greatly. The loss of cattle and horses has been very serious and loss by floods when the snow melts is now feared.

The non-partisan ladies who met in Cleveland for the purpose of organizing a new national Women's Christian Union Thursday, decided to call their new organization the "National Crusaders." A constitution was adopted. It provides that the organization shall be non-sectarian and non-partisan. The pledge adopted is the same as that of the W. C. T. U., except that the words "as a beverage" are inserted after "cider." The original crusaders present numbered sixty-five. Twenty-five of these were present at the meeting in Cleveland when the national W. C. T. U. was organized fifteen years ago. Mrs. T. J. Phinney of Ohio, was elected president of the new organization and Mrs. T. B. Walker of Minnesota, vice-president. A letter was received from Whittier, the poet, commending the new movement.

Removing $14,000,000 Under a Guard.

The removal of the 14,700,000 silver dollars from the postoffice building to the vaults in the United States Mint was begun yesterday. Ten employes of the United States Sub-Treasury and two large express wagons were used for the purpose. The money is stored in the second story of the Chestnut street end of the postoffice building. The silver is put up in strong canvas bags, each containing $1,000. The bags were loaded on trucks and conveyed by the elevator to the first floor and then through the postoffice to the rear door on Chant street, where they were loaded on the wagons.

The public was not permitted to use the elevator during this proceeding. Two watchmen from the Mint guarded the treasure until it was placed in the wagons, and then two other watchmen accompanied it to the Mint. The watchmen were all well armed. Nearly $2,000,000 was removed yesterday, and it will take at least seven days to transfer it all.—Philadelphia Record.

N. B. Howden an old and honored citizen of Fillmore, fell from a building upon which he was at work and was instantly killed on Saturday, Jan. 18. Mr. Howden was for several years commissioner of highways in the town of Ennis, and by an upright and honorable life has won many friends who will mourn his premature death. He was about sixty years of age. He leaves a widow and one son behind him.—Belmont Observer.

Home Rule for Cities.

As certain as death itself is home rule for cities. If the legislative inquest proposed to be undertaken by Senator Fassett in his resolution passed in the senate at Albany, hastens the happy day so much the better. Under the operation of the resolution a great deal of valuable time will be spent in accumulating after official fashion, the facts which stare everybody in the face who has given municipal government even cursory attention. It ought to be fairly well known by this time that the existing methods for legislating for the cities of the state are unprogressive and insufficient to the last degree, whether considered as to their local application, or from their relations to the general good.

The time of every successive session of the legislature is frittered away discussing and passing laws which are purely local in character and about which the members at large have no concern or desire to inform themselves. Out of the abundance of these measures springs that insidious inquiry called log-rolling, which is the besetting sin of law-making, especially at Albany, where the acts relating to the government of New York city are invested with national importance. Politics is therefore inseparable from municipal legislation, and is allowed to weigh more in the estimation of the effects, than considerations of vital interest to the cities concerned. The sole remedy is to take local affairs out of the hands of the legislature and delegate the incidental responsibilities to the mayor and common councils.

Sooner or later this must be done to render the legislature of any practical value to the commonwealth, for which the rapid growth of the cities, and the incorporation yearly of new municipalities, legislative machinery is becoming so clogged with local laws that those of general application have to take their chances. If the movement inaugurated by Senator Fassett will speed the reform, as we believe it will, all hail.—Syracuse Standard.

The Erie Declares a Dividend.

The New York, Lake Erie & Western directors last week declared the first dividend in the history of the road, explaining it with this statement:

"The board of directors have heretofore felt that the necessity of the property was such that it required the application of the net earnings to its improvement and the procuring additional equipments, but the time has now arrived when such extraordinary expenditures are no longer required. They now feel justified in declaring a dividend of 1 per cent on the preferred stock for the quarter ending Dec. 31, 1889, payable February 14, 1890, with the belief that such a rate of dividend can be maintained and gradually increased hereafter, the property at the same time being kept up in a good condition."

The figures for the year 1889 are: Gross earnings, $2,515,000; net earnings, $1,020,000; interest, rentals and taxes, $420,000, construction and betterment, $440,000; the surplus for the year is $500,000 as against $412,061.51 in 1888. The surplus earnings for the two years and 11 months since the road was reorganized are $1,487,731. Of this there were expended for betterments $1,144,087; there was appropriated Tuesday for the same purpose the sum of $200,000. This leaves a balance of $143,847, and after the payment of the dividend the net balance is $25,247.

W. H. King of Bolivar, has recently invented an automatic postage-stamp "licker" and sticker. He has been in Hornellsville superintending a construction of a model of the same. A patent has been applied for. It is an ingenious little machine, and Mr. King expects to make a snug little sum out of it.

The Albert Suit Ended.

In the court of appeals a decision was handed down a few days ago which ends the stubbornly fought case of William L. Albertí of Alfred Centre, against the Erie, by affirming a verdict which gives to the plaintiff in the suit the largest damages for personal injuries ever recovered from a railroad company in the courts of this state. Mr. Albertí was so seriously injured while on his wedding trip, July 24, 1885, through the alleged carelessness of employes of the railroad company, that he was crippled for life. The trial in the Orange county circuit court resulted in a verdict for the plaintiff of $25,000 and costs. The court of appeals sustained the verdict, and now the court refuses an application by the railroad company's attorney for a reopening of the case for further argument. The company has now no alternative other than to pay the entire sum of damages, interest, and cost, amounting to about $32,000.

Albertí was on his way to Alfred when a car door from a passing train fell off and crashed through the window of the coach in which he was a passenger, inflicting serious injuries.

MERIT WINS.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Buck len's Arnica Salve and Electric Bitters, and never handled remedies that sell so well, or that have given such universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. For sale by N. P. Brainard, Druggist. 1

Dissolution of Partnership.

Notice is hereby given that the partnership heretofore existing between the undersigned under the firm name of Burrows & Miller, dealers in general merchandise, is this day dissolved by mutual consent. All parties having accounts with said firm are requested to settle the same at D. S. Bradley & Co's. Bank in the village of Andover, N. Y.

To Our Subscribers.

The special announcement which appeared in our columns some time since announcing a special arrangement with Dr. B. J. Kendall Co., of Enosburg Falls, Vt., publishers of "A Treatise on the Horse and his Diseases," whereby our subscribers were enabled to obtain a copy of that valuable work freeby sending their address to B. J. Kendall Co. (and enclosing a two-cent stamp for mailing same) has renewed for a limited period. We trust all will avail themselves of the opportunity of obtaining this valuable work. To every lover of the horse it is indispensable, as it treats in a simple manner all the diseases which afflict this noble animal. Its phenomenal sale throughout the United States and Canada, make it standard authority. Mention this paper when sending for "Treatise."

Sand Drifts.

Dry, loose sand, wherever it occurs, is constantly being shifted by the wind and often buries cultivated lands, buildings and forests. On the shores of Lake Michigan, are drifts 100 feet deep, and those of Cornwall reach 300 feet in depth, while the drifts of the Gobi desert are 40 miles long and 900 feet high in places. On the shores of the Bay of Biscay the drifting sand travels inland 16 feet a year, in parts of Denmark 24 feet and in southern India 17 yards. In some places walls and barriers of vegetation have been created to stop the destroying drifts. Fine sand is taken up to a great height in the air and deposited many miles away. In 1882 Iceland was visited by a remarkable sand storm, lasting two weeks, which hid the sun and objects a few yards off like a dense fog, and caused the death of thousands of sheep and horses.—Portland Transcript.

After the Festivities.

Marian—What do you think of Mr. Derby, Gladys?

Gladys—He seems to be a very agreeable young man.

Marian—Well, I didn't like him a bit.

Gladys—Why not?

Marian—Why, we stood under the mistleloe together for full five minutes this evening, and he didn't—well, he didn't, that's all.—Harper's Bazar.

wastes or gives away during the year more less kitchen grease, each pound of which c in a few minutes be converted into two pounds of the PUREST SOAP, far better than can be found on sale. The only expense for making ten pounds of this soap, with 8 and one-half pounds of grease or oil, is a trifling cost of one can of BANNER LYE to be found at nearly every grocery store.

Dissolve the contents of one can of Banner Lye in three and one-half pints of cold water and pour slowly into five and one-half pounds of lukewarm grease, stirring from the start until it thickens into a mushy condition; then pour into any kind of mould to harden; a child can make it, and full directions are to be found back of each label.

A can of Banner Lye will do the work of twenty-one pounds of washing soda, and besides its value for scrubbing purposes, for cleansing and disinfecting of Sinks, Closets and Waste Pipes, destroying the Filth and Disease emanating therefrom, makes the great static use one of the greatest boons the housekeeper has fallen heir to.

Fell into the Pond.

A party of young men were over from Alfred Centre on Sunday to skate on the ice at the pond. One of the number, a boy named Place, about eighteen years old, ventured where the ice was too thin and took a cold bath. He went in up to his shoulders. John Swain happened to be coming along just as the boy went in and helped to pull him out. He was brought to the village and exchanged his wet suit for a dry one belonging to Miles Harman, which, though they didn't fit like the [illegible] on the wall, were decidedly more comfortable, and the young man went on his way rejoicing.

Country Club House!

A dispatch from Belmont to the Elmira Advertiser, dated Jan. 25, says: "The telephone line between this place and Angelica will be completed to night and all connections made to-morrow. General Superintendent Stearns of Jamestown, is in town to-day, paying off the local men who have been at work on the line. The line runs into the jail at Angelica and to the Country club house two miles above Angelica. There is also a public station at the St. Charles hotel. The line will be a great convenience to the county officers."

We have read much in the papers about the new telephone line to Angelica, but have never before heard it intimated that Superintendent Weaver had turned the County Alms House into a Country Club House! Either that correspondent or Superintendent Weaver ought to set up the cigars.

Killed at Wellsville.

John Ganey, a lad of 18 years, fell from a freight train Sunday afternoon and was instantly killed. Ganey, in company with seven other young fellows, boarded the second section of train 89, west bound freight, which pulled out from this station about 3 o'clock Sunday afternoon. The boys had caught on at different parts of the train and were going to ride down the road and return on the east bound freight. Ganey was on a "gandola" and was dancing and backing up toward the rear of the train when he tumbled backwards over the end of the car and fell beneath the wheels. Half of the train passed over him mutilating the body fearfully, and he could only be recognized by his face which was not disfigured.—Reporter.

Suit Against a Priest.

A Canisteo dispatch to the Elmira Advertiser says: "The Rev. Father O'Shay, who was two years ago assigned to the Parish at Roxville, has made himself extremely unpopular with his parishioners, some of them talk of petitioning Bishop Ryan to remove him. At a church fair given not long ago a picture among other things, was to have been raffled off. Father O'Shay wanted a chance, but did not get one, the reason alleged being that he did not offer to pay for it. On the closing night of the fair, it is said, he seized this picture and destroyed it out of spite. Miss McNeal, in whose care it was, told her friends what he had done, and there was talk of sueing the priest for the value of the picture. The matter was finally hushed up.

It is now alleged that, not content with ruling his own flock with an arbitrary hand, Father O'Shay went out of his way to ruin the reputation and character of Dr. Van Fleet, a physician of the village. The latter was denounced from the pulpit by the Priest, who warned his flock against employing him in their families. As the doctor is popular among many of the leading catholics this inteference by the priest was openly resented. He was given to understand that they would not obey his edict. Dr. Van Fleet has now brought suit against Father O'Shay for defamation of character and injury to his business. Public opinion is against Father O'Shay.

Remember also, we always take BUTTER, in tub or rolls, EGGS, DRESSED POULTRY, DRIED FRUITS, AND ALL KINDS OF PRODUCE in exchange for goods.

Please call early and examine this stock.

A. M. BURROWS.

N. B.—We have instituted a Bargain Counter, upon which will be found a great variety of goods. They will be closed out VERY CHEAP, and we invite all to call and inspect the same.

INDEPENDENCE NEWS.

Communion service at the church here last Saturday.

E. D. Potter has had a tussle with "la grippe," but it looks as though he would come off victorious in the encounter.

Supervisor F. M. Bassett is very low with pneumonia, and it reported that his chance of recovery is rather doubtful.

Your correspondent has been confined to the house by rheumatism, heart trouble and the "grip" since the 8th inst.

Elder Jared Kenyon has been somewhat indisposed for several days back by an attack of the grip. Dr. W. W. Crandall of Wellsville was in to see him to-day.

Last week Ed. Wheeler moved his family and household goods from the C. E. Brown cottage, opposite the cheese factory, to an unoccupied house on one of the J. C. Bassett farms.

Mrs. M. B. Titus of Whitesville, who has been very ill and threatened with pneumonia, is able to be about the house again.

Mr. and Mrs. Ira Murphy of Coudersport, Pa., are stopping at the home of Mr. Ruel Hamilton for a few days.

Last Friday evening, the 24th inst., our Post Mistress, Mrs. Salina L. Green, was metamorphosed into Mrs. Jerome P. Remington, Elder H. D. Clark being called upon to tie the knot. J. P. hails from Portville, and as he comes down handsomely with the "cheroots," I hereby give him (and her) my congratulations and this "send off" to console them.

On account of the long illness of his wife, the farmers of this vicinity turned out and had a wood bee for Mr. Ruel Hamilton, last week Monday afternoon.

Mrs. Laura Crandall, relict of the late Nelson R. Crandall, died of heart trouble about 4 o'clock p. m., Saturday, the 25th inst. The funeral services will be conducted by her pastor, Rev. H. D. Clark, tomorrow (Monday) at 1 o'clock p. m., at the S. D. B. church.

Last week Tuesday, Mr. Andrew O'Dell, while cutting wood about one mile from home, had the misfortune to strike a limb of a tree over his head, which caused the ax to deflect from its course and fall upon his left foot between the small toe and the next one, cutting a terrible gash clear through to the under side and nearly half the length to the ankle. He walked home, bleeding at every step, and for several days was subject to spasms as fierce that three men could scarcely hold him. Dr. O'Donnell of your place, treated him, and he is reported as better with fair prospects of saving his foot.

SOME GUMPTION.

ELM VALLEY NEWS.

Mr. Eldyn Chase of Andover, has erected a fine monument for his parents in our cemetery.

There are several cases of grip in our place but none as yet have proved fatal.

Our school closes next Friday with an exhibition.

Dr. Brainard of Andover, makes frequent visits of late to this place.

Mr. Philip Wetzel of Dunkirk, has been visiting friends in this place.

Mr. Sam. Parker of Wellsville, was visiting friends here last week.

Our enterprising merchant and produce dealer, F. S. Osborne, says the markets are in the worst condition this winter that he has ever seen them, especially the hay market.

Mr. Will Osborne of Wellsville, was in this place last week.

Mr. John Dunigan has been in Pittsburg in search of his lost brother Thomas. They have not heard from him since the Johnstown Flood.

A LADY'S PERFECT COMPANION

Painless Childbirth, a new book by Dr. John H. Dye, one of New York's most skillful physicians, shows that pain is not necessary in childbirth, but results from causes easily understood and overcome. It clearly proves that any woman may become a mother without suffering any pain whatever. It also tells how to overcome and prevent morning sickness, swollen limbs, and all other evils attending pregnancy. It is reliable and highly endorsed by physicians everywhere as the wife's true private companion. Cut this out: it will save you great pain, and possibly your life. Send two cent stamp for descriptive circulars, testimonials, and confidential letter sent in sealed envelope. Address Frank Thomas & Co., Publishers, Baltimore, Maryland.

Dr. Comstock, who has had an extensive experience in the Eye Department of the London Hospital, and the London Opthalmic Hospital, is prepared to fit glasses by the latest and most approved method.
