THE ADVERTISER—Our subscription books will be open for subscription on and after this day, for all who are willing to take hold and assist us in building up a good local journal in this place.

Thomas A. Mackin died recently in Mendon, of small pox. IMPROVEMENT—H. P. Benton is painting the front of his store. New arrivals of goods at J. J. Harmon's. Don't forget to call. Peter Swink has added seven new animals to his farmagerie. Geo. Howe's broken ground for his new hotel, on the Van Buren site at Wellsville. A trout was caught in the mill-pond one day last week, weighing one pound and one ounce. Geo. Green left for New York on Monday night last, for the purpose of replenishing his stock of goods. The ladies of Cherry Creek, Chautauque county have taken up arms against the Willard saloons of that place. SOCIAL HOP.—There will be a grand opening dance at the Railroad House, in this village, on the 8th of July. A Temperance society has just been formed in Iowa, the members of which agree neither to "treat" nor be treated.

BUILDING.—The side walk on the new street, from Church to Graded School is being built. So far, it looks well.

NEW ORGAN.—The Seventh Day Church Society of Independence have purchased a new organ for their church.

Grand II & Brinnard will please accept our thanks for a package of crackers. They were the best that we ever ate.

A full assortment of Andover Woolen Mill Cassimeres and other cloths, to exchange for wool, at J. J. Harmon's.

Shant & Porter have just received a large stock of Kellogg's improved horse rakes, and other implements for haying.

We would call the attention of our readers to the advertisement of Mrs. Wheeler's Sooling Syrup on the seventh page.

We are under obligations to Billings Hall for a cake of as nice maple sugar as we have seen this Spring. Thanks, Billings.

We would call the attention of our City Fathers to the cross-walk in front of Brady's store. It needs repairing, badly.

VELOCIPEDS.—For several days our streets have been somewhat filled with boys chasing up one of these two-wheeled humbugs.

CHANGED HANDS.—Mr. H. P. Benton and D. B. Spaulding have purchased A. O. Verry's interest in the Very Hand-Loom.

NO LICENSE.—The Excise Board at its last session, on Thursday last, decided not to grant any licenses in Andover this year.

A Bohemian wrote an article entitled "How Miss Homer got her Start" and a careless printer set it up. "How Miss Homer got her Start."

WANTED.—Those boxing-gloves that were "lifted" at the Independence School House last fall, by some of the older citizens of that neighborhood.

Walker will sell a full Set of Crockery, 99 pieces, for \$15 00.

A new route, to run tri weekly, from Randolph to Cattaraugus, via Rutledge, Lebanon and New Albion, has been established by the Post Office Department.

We yesterday saw a hanging basket at the depot, belonging to Mr. Magee, that was perfectly splendid. He had several varieties of house plants in it, tastefully arranged.

You can find good Tea, for a low price, at Walker's.

A Rocky Mountain editor, alluding to the demand for female suffrage, female doctors, and female clergymen, remarks that another want presents itself—that of female women.

Rain water, caught during May or the first week in June will keep a long time perfectly pure and sweet. Some caught in 1825 was pronounced as sweet as spring water in 1850.

NEW SIDEWALK.—Mr. J. J. Harmon has built a new sidewalk from his store to Dr. W. W. Grandall's drug store. We are glad to note all such improvements. Give us a chance.

A gray squirrel entered a house near Peach Bottom, Penn., one day last week, and attacked a child about six years old. Before he was secured he had bitten two other persons severely.

If you want Glassware, cheap and good, call at Walker's.

A new invention has been applied to boring for oil in Pennsylvania, in which the only motive power is a horse attached to a sweep. It is much cheaper and quite as expeditious as the old method.

Our "devil" gave us the following original conundrum to-day. We present it to our readers. Why is the "Grecian Bend" like Scott's Waverley Novels? Because they are both founded on "stern" reality.

PRODIGES.—He who has a high forehead will have his eyes under it, and will live all the days of his life. He who has a long nose will have more to blow, and the better to handle. He that is bald will be likely to have no hair; if he happens to have any, it won't be on the bald place.

Tanners' bark is becoming dear, and better means of utilizing it are being discovered. The first great improvement is to reduce it to powder, instead of they course grinding that is usual. Twenty per cent more of tannin is thus obtained by leaching it in cold water, driven into the mass by powerful hydraulic machinery, than by the old methods. Hot water gives still greater yield, and it also extracts some new elements injurious to leather.

"Conscience Money." Our foreman handed us five cents last Monday, which he had taken in the Thursday before. Behold in our financial affairs experienced at once.—Danville Advertiser.

We came within five cents of doing as well last week, and that is easy enough, now a days.

A Philadelphia paper publishes the following advertisement. A respectable Protestant young woman wants a permanent situation as seamstress; is a good dressmaker, can cut and fit and operate, and would make herself useful; no objections to the country. None but first class ladies need apply.

HI-HILLEY-HO.—They are coming! Who? Van Apburch & Co! They have come! What? Why, these new styles of Dress Goods, called French Chintz, Cambrics, one yard wide, only 28 cents per yard. Also a new receipt of Cheese Cheese Poplins, Mohair Organzies, Pique &c. Just call and see them at Van Sickle & Burrows, cheaper than ever.

STRIKE.—The brakemen on this division of the Erie Railroad struck for higher wages this week, as follows: passenger brakemen, fifteen shillings per day; freight brakemen, \$2 per day. Yesterday, orders from headquarters set them all at work again, paying the increase demanded by the strikers.

Andover still "grogs," don't it Willie "B." Papa, O dear!

She smiles and sleeps! Sleep on! And smile, thou little young inebriator! Of a world scarce less young; sleep on and smile!

Things are the hours and days when both are And innocent—Little "Benton."

KILLED.—Last Monday, a man named John Hurley, residing on South Hill, while going home from Elm Valley with a load of lumber, and a few bunches of shingles on top of the load, after crossing the railroad track, being down grade a little, the team started on a trot, and a bunch of shingles, on which he was sitting, slid off, throwing him down behind the horses in such a way that the forward wheels passed over his neck, instantly killing him. He was fifty years of age, and leaves a wife and three children to mourn his untimely death.

The following is a specimen of printer's technical terms—it don't mean, however, as much as it would seem to the uninitiated: "William, put General Washington on the galley, and then finish the margin of the young girl you commenced yesterday. Set up the rubric of Herculesum, and disintegrate the smallpox; run not need not finish that runaway match, but have the high water in the paper this week. Put a new head to Gen. Grant and lock up Jeff. Davis; slide that old dead matter into hell, and let that pie alone till after dinner. You can put the Ladies' Fair to press, and then go to the devil and put him to work on Deacon Foggy's article on "Eternal Punishment."

The Corning Journal of last week says: The Corning Flint Glass works are now filling an order from the Central Pacific Railroad Co. of California, for a quantity of Red Lanterns. The globe is what is called Copper Ruby, which though not as handsome as a "Gold Ruby," is yet much better for a signal lantern, as the color is more intense, and it can be seen much farther. These globes are made by plunging the blowing rod into a pot of fused metal containing the Copper Ruby which contains the end. Then it is dipped into the first glass, taking up about a pound and a half of the same. As it is blown while placed in the mould the ruby portion expands so as to form a thin film, so thin that it is merely a coating of the interior, yet it imparts an intense color to the glass, leading one to believe that the whole is deeply tinged with red.

ALFRED ITEMS.—The Atheneum's Fair and Festival on the 2d inst. was a complete success. The net receipts were about \$140.

"Anniversary elections" in both the Alleganlian and Oropation Lycenuses comes off this week. This causes much excitement in the interested circles.

Anniversary exercises will commence June 23. The following is the order for this year: Anniversary session of Alfredians, June 23, P. M. Anniversary session of Alleganlians, June 23, evening. Anniversary session of Atheneums, June 23, A. M. On the afternoon of the 25th, the Oropationians will hold a "Reunion" on the eighteenth anniversary of their Society.

On the Evening of the 29th, Hon. B. F. Taylor, of Chicago, will deliver the Anniversary Lecture. Subject: "Failures, the Alphabet of Success." Commencement day, June 30th, exercises to commence at 9:30 A. M.

Call at Walker's and see the Poplins at 25 cents per yard.

VAN AMBERG & Co's GREAT GOLDEN MENAGERIE will be here on Monday, June 14. Everybody is waiting for it, expecting to see the best show of the kind that ever visited Andover. They will not be disappointed. It is the only exclusive Menagerie in the United States, and the largest and most comprehensive collection ever organized on this continent. It contains over five hundred specimens of different rare beasts, birds and reptiles, gathered from all parts of the world. Among this number are several that have never before been exhibited in the United States, such as the Rhinoceros—the "Unicorn" of Holy Writ—exhibited now for the first time in thirty years. And we shall also have an opportunity of seeing for the first time the great African Bland, the Bliss Book, the In-pon, the Barbary Aoudou, the only White Zebra ever captured, the White Tartary Yak, the Hindostan Sacred Cattle, and the Hippopotamus, besides many others, a list of which will be found in the advertisement. The grand street parade, which will take place on Monday morning, the 14th instant, at 10 A. M., will be a rare and beautiful sight, worth coming many miles to see. Among its features will be the "Great Golden Chariot of Ptolemae," carrying Zelm's Golden Opera Band, and the Great Golden Car of Cleopatra, on the summit of which a large living Numidian lion will be carried loose and free in the open streets. Then will come herds of elephants, camels, horses, &c., and the long train of mules, carts, cages, dens and aviaries, containing the enormous collection of birds, beasts, &c. These vehicles are magnificently gotten up, and glitter in gold, pearl work, carving, painting, &c., and are ornamented with banners, mirrors, and pictures illustrating scenes from Bible history, painted by first-class artists, from designs by the great Gustave Dore, of Paris. These pictures are over three hundred in number. There are to be no circus performances, nor will anything be done to which the most exacting taste can take exception. Parents may take their children to this exhibition with perfect safety, feeling assured that their young minds will be entertained by anything they may see or hear. The performances in the ring with the trained elephants, camels, buffaloes, three-horned bull, comic mules, horses, ponies, acting dogs and monkeys, &c., will be highly amusing and laughable, as well as instructive. Do not forget the time. Be in town in time to see the great street parade. The exhibitions will be given at 1 and 7 P. M.

S. J. ANDERSON'S PATENT STOVE SHELF.

THIS is a simple and most attachment to a stove. It is placed at any desirable distance from the stove, to secure the required degree of heat, and is adapted for broiling, roasting, baking, and cooking, raising bread, drying fruit, &c., and can be moved so as to hang down by the side of the pipe out of the way. It is so constructed that any number of children may move up or down the pipe, or entirely remove it in a moment. It is strong enough to bear one hundred pounds, and, unless broken carelessly, it will last a life time. Being cheap, they come within the means of every man, and answer a want everywhere felt and never overlooked. They meet a very ready and rapidly increasing sale. The proprietors, S. J. Anderson, and energetic business men are eagerly forwarding their time, energy, and capital in this new and important business. Persons desiring to purchase will please address: J. VAN BUSKIRK, Agent for Allegany, Wyoming and Calaveras Counties, Andover, Allegany Co., N. Y.
