An important message to every man and woman who is thinking about buying an automatic refrigerator

Take the time to find *the* RIGHT *one*

THERE'S a lot of real pleasure in owning a good automatic refrigerator . . . enough pleasure to make it well worth your while to find the best.

We believe that the finest of all automatic refrigerators is the New Air-Cooled Electrolux. And we believe we can prove that statement to your satisfaction.

Simplest freezing method

Electrolux employs a different principle of operation than any other refrigerator. A tiny gas flame circulates a simple refrigerant. Ordinary air cools it.

Simple, isn't it? And this very simplicity is the thing that gives Electrolux its definite superiority.

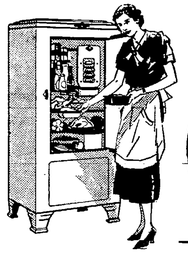
It costs less to run . . . a saving that goes on day after day —year after year!

No moving parts

Electrolux has no moving parts to wear and need costly repairing. And because it has no moving parts, it is permanently silent.

Please come in and see it. We will be glad to demonstrate Electrolux at any time, with no obligation at all on your part.

We want you to see for yourself what a fine refrigerator the new Air-Cooled Electrolux is . . . how far in advance of the others.



Operates for only 2c A DAY

PLENTY OF ICE CUBES PERMANENTLY SILENT

Knew His Business

Old Lady (during war): "Why are you not at the front?"

Farmer Boy (milking): "Cause thar ain't no milk at that end."

Not Just Luck

Gardens and gardening are the chief topic of conversation where people congregate these days and you often hear it said "I have no luck" with this, that and the other.

Now the growing or production of a vegetable garden is not a matter of luck; of the practical wisdom that has evolved from the experience of mankind there has come to us no truer declaration than is expressed in the saying, "Whatsoever a man soweth that shall he also reap," and also the added philosophy about the man who sows sparingly.

Permit us to add this observation: also the fruit of long experience—no man shall gather an abundant harvest from a hit and miss selection of commercially grown seeds.

The growing and marketing of superior quality garden seeds has developed into a highly specialized vocation that requires scientific training of the most perfect order.

For more than 50 years the Leonard Seed Co. have been applying just this sort of wisdom to the propagation and development of quality seeds particularly adapted to the need of family and home gardens. Their success is outstanding, as is obvious in their large and growing distribution.

We carry in stock and offer you a large selection of Leonard's top grade Garden Seeds at prices on the average as low or lower than you will be asked to pay for the odds and ends gathered at random from the commercial surplus.

Buy Leonard's Bulk Seeds, plant on good soil, cultviate as good gardening dictates and the results will not be a matter of "Luck" but the deserved reward of a sound and seasoned judgment.

Correct Style

No person can criticize your good taste when you use Thistle Linen Paper and Envelopes for your personal correspondence. It is correct in style and superior in quality; the price also will appeal to your sense of practical economy.

Twenty-four double sheets of paper with envelopes to match for 19c. Sold separately 10c each bundle.

Moore About Paint

We sometimes wonder if you good people who read our Store News do not sometimes feel "fed up" with our everlasting chatter about paint? If so, we crave pardon and shall continue to present the subject which we believe to be the most interesting and the most fascinating in all industry.

Old traditions and practices are being rapidly discounted in the paint business and the Benj. Moore Co. are outstanding in their contribution to the most constructive of these improvements.

There is no better paint on the market than that made by the Moore Co., tests made by various government and other agencies have proven this fact and also that their prices are lower than other makes of equal quality.

So when you paint with Moore's you have absolute assurance of the best job at the lowest cost.
