JUSTICE FIELD DEAD.

Justice Stephen J. Field of the United States Supreme Court (retired), died at his home in Washington, D. C., last Sunday evening at about 6:30. He had been unconscious since Saturday morning, and death came painlessly.

Ever since Justice Field's retirement from the Supreme Court bench on December 1, 1897, he had enjoyed comparatively good health, and being relieved of the labor and responsibilities which he had borne for so many years, he became more cheerful than formerly, and seemed to enjoy the society of his friends more than ever before. During the past winter it was his custom to take daily drives through the park or the grounds of the Soldiers' Home. About two weeks ago he took a longer ride than usual, in an open carriage, and took a severe cold, which rapidly developed the kidney troubles which had been troubling him for years. He had somewhat recovered, however, his medical attendants thinking the disease under their control, but last Saturday morning a change for the worse took place, and about noon lost consciousness. From that time he sank rapidly until the end came.

Stephen Johnson Field, who was born in Haddam, Conn., on November 4, 1816, was a son of David Dudley Field, a Congregational minister, and Submit Dickinson Field. His grandfather on his father's side was Timothy Field, who was a captain in the Revolution. His grandfather on his mother's side was Noah Dickinson, who served in the French and Indian War under Israel Putman, and also through the Revolution. So it will be seen that Stephen J. Field came of fighting stock. Among his brothers were Cyrus W. Field, the father of the submarine cable; David Dudley Field, an eminent lawyer; Matthew W. Field, a noted engineer; Henry Martyn Field, a distinguished clergyman and author; Jonathan Field, who was president of the Massachusetts State Senate, and Timothy Field, a lieutenant in the United States Navy.

Aguinaldo's headquarters are now wherever that slippery individual happens to be.

Governor Roosevelt has signed the bill providing that defective and blank ballots cast at town meetings shall not be destroyed.

The opinion seems to be rapidly strengthening, especially among those who know most about the subject, that the United States will have to annex Cuba to keep peace on the island.

Annexation, expansion and other topics which have occupied much of the attention of the public will soon be neglected by a large portion of our population; the baseball season is about to open.

Gen. Gomez explained the odd fact that there are as many officers as there are privates in the Cuba army, by saying that the only reward they could give to brave privates was to make them officers; from which it may be inferred that those who remain privates were not brave. But another [illegible] may be that privates are

Senator Hoar was wise in advising that no public meetings, to protest against American control of the Philippines, be held at present; he knows that a half dozen men do not constitute much of a public meeting.

Those who expected to buy $20,000,000 Cuban bonds, authorized by President McKinley, at about half face value, may condemn the President for refusing to countenance the scheme, but others will commend his action.

There is a screw loose somewhere in the Cuban machine, or Spanish merchants who have been in business there for years would not be leaving the island because of their fear that neither their lives nor their property will be safe there.

If the St. Louis doctors are right in saying that a young woman in that town took cerebro spinal meningitis from reading a sensational story about it, we don't see why that and other diseases are not epidemic among the readers of the yellow journals.

If the Joint High Commission puts an end to the partnership between Germany, Great Britain, and the United States, for the control of the Samoan Islands, it will do a good thing; the arrangement has never been satisfactory to anybody concerned.

AUGUST FLOWER.

"It is a surprising fact," says Prof. Houton, "that in my travels in all parts of the world, for the last ten years, I have met more people having used Green's August Flower than any other remedy, for dyspepsia, deranged liver and stomach, and for constipation. I find for tourists and salesmen, or for persons filling office positions, where headaches and general bad feelings from irregular habits exist, that Green's August Flower is a grand remedy. It does not injure the system by frequent use, and is excellent for sour stomach and indigestion." Sample bottles free at Benedict & Van Noy's. Sold by dealers in all civilized countries.

Remarkable Cure of Rheumatism.

KENNA, Jackson Co., W. Va.

About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions, and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. Stop lugging coal to dirty the house, over heat the kitchen, and waste fuel while you are not cooking. If you want to see how 2,000,000 housekeepers keep cool, avoid work and worry, and save cash, go buy a modern

VAPOR STOVE

and do your cooking with *Stove Gasoline.*

You can do anything on a Vapor Stove that you can do on any other stove, and do it better, with less expense and trouble. It's safe as a coal stove, and the cost of operation is so small it is hardly worth considering. It will not heat the room. You light it in an instant, turn it out the moment you are done cooking.

If your dealer does not sell Vapor Stoves and Stove Gasoline, write to the Standard Oil Company, New York City.

A Clever Trick.

It certainly looks like it, but there is really no trick about it. Anybody can try it who has lame back and weak kidneys, malaria or nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to liver and kidneys, is a blood purifier and nerve tonic. It cures constipation, headache, fainting spells, sleeplessness and melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that they are a miracle worker. Every bottle guaranteed. Only 50c. a bottle at L. A. Burrows' drug store.

The Best in the World.

We believe Chamberlain's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own and other papers we purchased a bottle to see how it would affect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs. —The Herald, Andersonville, Ind. For sale by Benedict & Van Noy.
