THE ANDOVER NEWS.

HAMILTON C. NORRIS, - EDITOR

ANDOVER, N. Y., DEC. 31, 1890.

If the man who threw lime on Mr. Parnell is caught, he might set up as a defense that the lime was intended for disinfecting purposes.

M. A. Dauphin, known all over the United States, and who for the past twenty years has been president of the Louisana State Lottery Company, is dead. The lottery died first.

South Dakota must be anxious to rival Chicago in the divorce business. It only requires ninety days residence in the new state to procure a divorce. Fewer divorces, and not more, is what the country needs.

Statistics dispel many illusions. We had always supposed that New York was one of the most enlightened and progressive states in the Union, but we must change our mind, if the statistical fiend, who says there are 800,000 children of school age, that is between 5 and 21 years old, that do not attend any school in this state, be correct.

Senator Stanford made a speech in the Senate in favor of his bill for loaning Government money on farm mortgages at 2 per cent. per annum, in which he certainly made some strong points in favor of the measure, which has been referred to the Finance committee. This committee should act upon this bill and the Senate should vote upon it. It is not fair to kill it by pigeon-holding, just because it happens to be an innovation on present financial methods. Everything has to have a beginning, and this would be a mighty slow old world if something new wasn't started occasionally.

"It is hard to realize," says the Buffalo *Express* in reference to the recently admitted western states, 'the relative smallness of some of these states. Idaho, for instance, has but one-third the population of Buffalo and her U. S. Senators represent a constituency but little larger than that represented by Mr. Gallagher in in the Third Assembly district of Erie county.' But it is easy to realize the unfair advantage in the national legislation such bodies have, when we reflect that Idaho with "one-third the population of Buffalo" has the same voting power in the United States Senate as the whole state of New York.—*Elmira Gazette.*

Nearly 90,000 acres in this state are set apart for those Indians who continue their tribal associations. On the Onondaga reservation, near Syracuse, there are 45 Indians who receive compensation in cash, both from the national and state governments, and in addition to this they get an annuity paid in salt. There are 500 Indians on the Tonawanda reservation in Erie county, and as many more on the Tuscarora reservation, near Niagara Falls. The Oneida settlement in Oneida county used to be a large one, but the Indians are few in number and scattered, some having died and others gone west to grow up with the country. On the Shinnecock reservation, on Long Island there were, at last accounts, 150 Indians. On the St. Regis reservation on the Canadian border there are 1,000, while on the Pennsylvania border along the southern tier are two reservations of the Senecas, including a population of 2,000. Altogether there are less than 5,000 Indians in New York state, maintaining a separate existence from the other inhabitants.

Dyspepsia in all its forms is not only relieved but cured by Simmon's Liver Regulator.

Pills often leave a person constipated. Simmon's Liver Regulator never does.

COUNTY AND VICINITY.

An organization under the name of the "Coudersport Gas Company" with a capital of sixty thousand dollars, has been chartered for the purpose of supplying Oswego, Roulette, and Coudersport with gas fuel and light. A line is to be laid to the gas field of Sharon township in the northwestern part of Potter Co., Pa. The stock is nearly all subscribed and the gas territory is now being leased.

The Erie depot at Port Jervis was burned about 9 o'clock last Thursday night. The building was a new and fine one and had only been completed a week or two.

Henry Hennick was struck and killed by the Erie switch engine at Wellsville last Wednesday. The engine, in charge of engineer Haines, does the switching in the yard. They were backing westward down the main track upon which Hennick was walking, and it is presumed that he did not hear them approaching. He lived about ten minutes after being struck. Deceased was 57 years old and leaves a wife and five children.

Lumber is on the lot for a Farmer's Alliance store at Machias. A store of the same nature is also contemplated at Yorkshire Centre.

It is rumored that another bank will soon be established at Wellsville. The town has three banks now.

Prof. Stephen Pollard, who was elected School Commissioner of the Southern District, has resigned the principalship of the Brooklyn School, Wellsville, preparatory to beginning the duties of his office on January 1. Mr. W. U. Rixford succeeds Mr. Pollard as teacher in the Wellsville School.

Superstitions of the Armenians.

Armenians believe that the apple stuck in Adam's throat and made the Adam's apple which every man has there. They say that when God was making Adam of clay he had a little piece left over, and he threw this on the ground, and it became gold and formed all the gold of the world. They believe that if Adam had not fallen he would have never died, and they say that when Adam was in the garden of Eden his body was covered with nails which overlapped each other like the scales of a fish, and thus gave him an invulnerable armor. After the fall these nails fell off, except on the ends of his fingers and toes, where they remained to remind him of his lost immortality.—Frank C. Carpenter in National Tribune.

Suttee in India.

Suttee does not quite die out in India despite all efforts, and a case occurred recently at Gya, near Patna. The widow's relatives declared that though the woman was locked in a room to prevent her following the custom her clothes took fire miraculously, yet there was no fire or light of any kind near. She then insisted on going to the cremation ground, ascended the funeral pyre, and was burned to death, asking only once for water. Eye witnesses further assert that when both bodies were burned to ashes fountains sprang up each side of the pyre and extinguished the flames.—Exchange.

Misunderstood.

Congressman Allen turned up in the house with a fresh story, says Amos J. Cummings. He had heard it in New York. It was concerning a friend of Gen. Spinola. Years ago the general met Mark Maguire and John Morrissey. Wishing to compliment Morrissey the general said to Mark:

"Ah, I see you have the Cromwell of America with you."

Morrissey was highly indignant. He doubled his fist, and turning to Mark Maguire said: "What does this splinter mean? I've a notion to lamm him."

"Hold on," Mark shouted. "He means that you're the greatest man in America."

"I suppose so, when he is out of it," Morrissey growled.

The general never forgot the remark. Whenever he met Morrissey afterward he saluted him with all the honors, but not as the Cromwell of America.

In one year 6,000,000 dozens of eggs were sold in the egg markets, 72,000,000 eggs all told. But that is nothing. Hundreds of grocers get their eggs direct from the country, so that it would probably be safe to say that New York and its vicinity consume 100,000,000 eggs every year.

The most of ailments come from disordered liver which Simmon's Liver Regulator cures.

Good farm to rent or work on shares, 4½ miles east of Andover. Good buildings, and under a good state of cultivation. Inquire at this office.

Married, at the residence of Charles Freeborn in Andover, Thursday, Dec. 11, 1890, by Edward Kinney, Esq., Allen E. Rogers of Cleveland, Ohio, and Miss Maggie Donovan, of East Arcade, N. Y.

L. A. Burrows has ordered 4 large lamps, like those used in his store, for the Prest Opera House. Mr. Prest intends to have his opera house one of the best lit and attractive play houses in the county.

Invitations have been issued by the Andover Social Club for a hop to be given at Prest's opera house in Andover on Wednesday evening, Dec. 31, 1890. From the committee having the matter in charge it is safe to predict an enjoyable time for all who attend. The music will be furnished by Shattuck's orchestra of Portville, N. Y.—*Wellsville Reporter.*

Miss Mabel Beatrice Dayton, an elocutionist who comes highly recommended, will give an entertainment in the Baptist church, Friday evening of this week, Jan. 2, for the benefit of the Y. P. S. C. E. library fund. Miss Dayton gave two entertainments in Wellsville, two in Whitesville, and has read in several towns near us, and all who have heard her speak very highly of her. Come and hear her. Admission 15 cents.

Many years practice have given L. A. Burrow & Co., Patent Solicitors, Washington, D. C., unsurpassed success in obtaining patents. They have secured many patents on inventions that have been rejected in other hands. See their card in another column.

MINNIE FREEBORN.

The marriage of Mr. John C. Cartwright and Miss Angelina Boyd, which occurred last week Tuesday evening at the residence of W. B. Hall in this village, was quite a surprise to many. But all the same, congratulations were profuse and plenty. After the ceremony, which was performed by Rev. G. M. Janes, the wedding party went to the home of Henry Snyder, to witness another affair of the same kind, which occurred the same evening. Under ordinary circumstances no one would have enjoyed the ride to Mr. Snyder's. The weather was the worst that could have been selected to accompany such an event. But when persons want to get married they do so in spite of the weather, and although the wind blew a gale and the snow blinded all eyes, and some of the loads were tipped over, we doubt if any of those interested realized that the weather was anything worse than usually comes in the balmy June. Mr. and Mrs. Cartwright have hosts of friends in Andover and elsewhere, who take pleasure in wishing them all the good fortune possible in their future life.

I. O. G. T. Note.

Forest Home Lodge of Andover has 41 members in good standing, and there are only three members back on their dues out of the 41. Where is the Lodge that can beat that record?

Boyd—Snyder.

On Tuesday evening, Dec. 23, 1890, Rev. G. M. Janes united in marriage Mr. Hiram W. Boyd and Miss Georgia A. Snyder. The ceremony was performed at the residence of the bride's brother, Henry Snyder. A large company was present to witness and take part in the festivities. The bride received many beautiful and valuable presents, and the newly married couple start out in life together with the best wishes of their friends and the public generally.

They Want the News for Official Organ.

At a meeting of Forest Home Lodge, I. O. G. T., of Andover, the following resolutions were introduced by Chief Templar Floyd Richardson and were unanimously adopted.

Resolved, That we, the members of Forest Home Lodge, I. O. G. T., do hereby request the Executive Committee of the County Lodge, I. O. G. T., to make the ANDOVER NEWS the official organ for the said County Lodge; our reason for this request being that after looking through the several county papers we can find no notice of the recent County Lodge session (save resolutions which were published in the Friendship *Register*), except in the NEWS.

Resolved, That we send a copy of the resolutions to each member of the Executive Committee, also one to the Editor of the ANDOVER NEWS.

Charged With Adulterating Milk.

R. A. Pease and John Porter, of Greenwood, are charged by an assistant State Dairy Commissioner with sending adulterated milk to the cheese factory operated by Bernard Murray, in the town of Greenwood. We understand that Mr. Porter is at present in Pennsylvania. Mr. Pease firmly denies the charge, and his word will go a great way with people of his acquaintance, notwithstanding the alleged fact that his milk showed adulteration in a chemical test. He is a substantial citizen and has the reputation of being an honest man, and there never was an apparent reason for his resorting to dishonest methods for gaining money. He proposes to stand trial, and has retained L. C. VanFleet as counsel. Mr. VanFleet went to Hornellsville Monday evening. The case was to be tried in Hornellsville yesterday before a justice of the Peace, but Mr. Van Fleet proposed to try and get it removed to the County Court.

Every farmer and every good citizen is in favor of punishing violators of the law, whoever they may be, and violations of this kind are much too frequent, but it is also an undisputed fact that the standard of pure milk, as now fixed by law, is so high that very few messes of milk can stand the test, and there is to be an effort made this winter to have the law amended.

LATER.—Mr. VanFleet returned last evening. He succeeded in getting the case transferred to the Steuben County Court, where it is hoped it will be disposed of with justice to all concerned.

Fatal Fire at Bolivar.

A dispatch from Bolivar to Wednesday's Wellsville *Reporter* says: About six o'clock this morning two dwelling houses on Liberty street were destroyed by fire, and in one of them a child named Edith Allen was burned to death. This house was occupied by two families, Burdick and Beckwith, who have recently become residents of our village. The fire broke out from an over pressure of gas, and so rapid was its progress that it seems almost a miracle that all the inmates of the building were not cremated together. The Beckwith family consists of Mr. W. Beckwith, Mrs. Allen and three children, who were in the house and made their escape down the front stairs and out doors, except the unfortunate little four-year-old girl who undertook to go down the back stairs and after reaching the bottom could not get out the door and was roasted to a cinder there. In undertaking to rescue the child, Geo. Lyman, 1st assistant of the Citizen Hose Company, was badly burned on both arms. The adjoining house, which was also destroyed with most of its contents, was owned by Mrs. Binn and occupied by Ephraim Attleburg. There was no insurance on any of the property destroyed. The tragic death of little Edith Allen has cast a gloom over the whole community.

A Much Needed Invention.

In machine shops it is a frequent occurrence that particles of metal penetrate in the skin and eyes. Messrs. Frister & Roesman have, according to Revue Industrielle, constructed a magnet for the special purpose of extracting such particles. It is a horseshoe shaped, polished and nickel plated; the two branches are rounded off and end in a point only a few millimeters thick. Its attraction for iron extends for several millimeters.—New Orleans Picayune.

REMARKABLE RESCUE.

Mrs. Michael Curtain, Plainfield, Il, makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption, and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle, and to her delight found herself benefitted by the first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she ever was. Free trial bottles of this great discovery at Brainard's drug store, large bottles 50c and $1.00. 2
