New Spring Goods

Spring Suits and Overcoats with character. We are showing new Spring models for the really young. Dressy and more conservative styles for Older Heads. These Suits and Overcoats being made by the Best of "Clothes-Makers" establishes a standard of tailoring that is beyond competition.

Suits and Top Coats $12 to $32.

Raincoats of the "Cravennetted" sort and made from the reliable and non-fading materials only. The best of tailoring is embodied in these garments thereby making them shape-retaining to the very last. A number of new ideas can be seen here, ranging in price from $12 to $35.

Showing of Spring Shirts

A variety unsurpassed. Patterns that you won't find duplicated elsewhere as they are confined to us for this section. The shirt-making is the best in all details that you can find. Plaited and plain bosom with cuffs attached and detached, ranging in price from $1 to $3.50.

New Spring Hats-Knox $5.00. Beacon $3.00. Maxim $2.00. The hat of the Hour, A Metropolitan Craze. Soft imported Hat in several shades and shapes at $1.50. Exclusive City Stores hold them at double the price.

GREENWOOD LOCAL BRIEFS

A lull in sugar making.

Roads are in bad condition.

Winter is skirmishing around.

Lively snow storm, Tuesday.

Ralph Hale was in town, Friday.

Rev. R. S. Bell was in Canisteo, Thursday.

Court White, of Troupsburg, was in our city, Saturday.

John T. Johnson, of Rexville, was in Greenwood, Monday.

Katherine, the infant daughter of Harvey Goodno, is sick with grippe.

Lew Miner, of Troupsburg, was in town, Saturday.

Mrs. Wesly White was in Hornell, Saturday.

Mr. and Mrs. Miner Streeter are on a visit to Buffalo.

Salem Hober of Minnesota visited friends in Greenwood and vincinity, last week.

Will Baker, of High Up, was a city visitor, Friday.

Charles Saunders was the guest of John Holt., Saturday.

Mrs. John Guyon is contemplating a visit to her daughter's, Mrs. Charles at Canatan, Montana.

The daughters of Rebekah of Greenwood give an old fashion New England dinner at the opera house Wednesday evening. Bill 15 cents. A good time to fill up.

Whitesville Minstrels accompanied by Whitesville band will give an entertainment, at Greenwood opera house, Thursday evening. The band will give a street parade in the afternoon.

Rev. W. H. Peck Pension Attorney of this place is sick with pneumonia. Mr Peck is getting along as well as could be expected.

G. M. Webster and O'Dell Webster are visiting Elmer Shaw and family, at Warren Pa.

At the spelling match, Wednesday evening, Mrs. S. H. Bennett held the floor the longest.

Mrs. J. M. Cheeseman and daughter, Mrs. Robert Holley, were in Canisteo and Hornell, Thursday.

Thomas Gale, accompanied by his nephew, Thomas Gale, of Conevilie, spent Saturday in Greenwood.

Pension Attorney, Elwood Peck, of Buffalo, is visiting his parents in this village.

The infant son of Mr. and Mrs. Fred Miller is quite sick, at this writing, with pneumonia.

John Dillon has moved into the Reimann House on Dyke street.

Wesley Knight laid open a couple of his fingers with a buzz saw on Saturday, while sawing wood at Monroe Tyler's. Dr. Conway dressed the injured members.

Stephen Taylor, of Andover, was in Greenwood, Monday.

Jas McCormick, of West Greenwood was in town, Saturday.

J. K. Alvord, of Canisteo, spent Friday and Saturday with former neighbors in Greenwood and vicinity.

Jessie Northrup was in town, Monday, on business.

Wheeler Dexter went to Howard, Wednesday, to visit his niece, Mrs. Charles Carter.

William Straight is the guest of his daughter, Mrs. John Holt, of Andover street.

Joseph William[illegible] of West Greenwood, was in town, Saturday.

Clarence Wittie was [illegible] in town, Monday, on business.

John Hoyer, one of Greenwood's old pneumonia citizens is quite sick with pneumonia.

John Hopper, of Troupsburg, was in Greenwood, Tuesday.

N. E. Coston was in Hornell, Monday, on business.

John Cahill was in Greenwood, Saturday.

Ex-Supervisor, Thos McCoffrey, of West Union was in our city, Friday.

Samuel Wgkoff, of Highup, was in Greenwood, Tuesday.

R. E. Wilcox, of Barney Mill, was in our city, Saturday, on business.

Geo. Dilding, of Wellsville, was a Greenwood visitor, Monday.

M. C. Smith, of Scio, called in town, Wednesday.

P. J. Riley, the produce buyer, of Canisteo, was a business visitor in town, Friday.

E. W. Hemmey, of Jamestown, was visiting town, Friday.

F. N. Huntington, the Jasper meat dealer, was in our city, Friday.

J. L. Elliote, of Elmira, was in town, Monday.

Look out for the minstrel street parade, Thursday.

W. S. Potter, of Wellsville, was a Greenwood caller, Wednesday.

M. Barnard, of Canisteo, was in our city, Thursday.

Morris Hefter, of Hornell, was a business visitor in town, yesterday.

Silas Ryan, of Hornell, called in town, Monday.

Liveryman, Erie Carney's, team ran away, at Rexville, Tuesday morning. The horses were seriously injured.

Wm. Baldwin and W. O. Wills, of Elmira were in Greenwood, Monday.

Geo. Alvord, of the Swift Meat Co., of Hornell, was in our city, Saturday.

L. G. Huguenor, of Buffalo, was in town, Friday.

C. D. Weed, of Franklinville, was in our city, Thursday.

Mrs. Bryon Rugar is quite sick at her mothers in Canisteo.

S. G. Allen, of Elmira, was in Greenwood, Wednesday.

H. Cornell, of Jasper, was delivering straw yesterday, at this station at $5.50 per. ton.

Thomas Trainor, of Hartsville, was a Greenwood visitor, Tuesday.

Mr. and Mrs. Knox Miller were among the town visitors, Tuesday.

Theodore Cobb, Esq., of Spring Mills was in town, Tuesday.

Ex-Supervisor Matt Rogers and wife were in Shinglehouse, Monday evening and pronounced the sensational stories about his affairs as false and unfounded.

BIG CAVE IN ADIRONDACKS.

Explorer Penetrates it 1,000 Feet and Thinks It Rivals Mammoth Cave.

In one of the most secluded parts of the Adirondacks, on the summit of a mountain little frequented by sightseers or sportsmen, Captain B. E. Thomas of Saranac Lake, N. Y., has discovered an opening to a great cavern. He went inside for about a thousand feet, and there seemed no end to the distance he could penetrate with proper equipment.

Captain Thomas, who is an old time woodsman, stumbled upon the mouth of the cave, which is on "W" mountain, several miles from Standish, some time ago, but kept the matter quiet until he should have a chance to investigate.

"I thought at the time that it seemed rather larger than the usual run of caves in the Adirondacks," he said the other day, "but I never dreamed of its being as large as it really is. The mouth is about fifty feet wide. The first room is fifty feet long, twenty feet wide and thirty feet high. It swarmed with bats, which lined the walls and seemed scarcely able to move. There was a decided smell of sulphur.

"In the next room, which was about 40 by 15 by 25 feet, we found passages branching in many directions and were unable to explore them all. With only the feeble rays of a lantern to guide us, we several times narrowly escaped falling into pits. You can imagine how deep some of these were when I say that we had time to count fifteen and twenty before rocks we dropped into them were heard to strike, and we didn't count rapidly.

"An elk's horn was found by us far inside the cave. After going a short distance from the mouth there was no vegetation. There is no opening at the base of the mountain. I think it will turn out to be a second Mammoth cave like that in Kentucky.

Captain Thomas, who is a hunter of considerable reputation, found frequent bear tracks in his recent exploration of the caves. Black cat and sable were common, while deer tracks were remarkable.

EXACTLY LIKE FULTON'S BOA

Replica of Famous Clermont to Duplicate Her Maiden Trip Next Fall.

The replica of Robert Fulton's steamboat Clermont, which made the first successful trip under steam power up the Hudson river from New York to Albany, will play a prominent part in the commemorative celebration of the three hundredth anniversary of the discovery of the Hudson and the one hundredth anniversary of the first steam navigation next fall under the direction of the Hudson-Fulton celebration commission. Determining the exact dimensions and equipment of the Clermont has been difficult, and it is only through the efforts of the late Rear Admiral Joseph B. Coghlan, naval constructor; William J. Baxter and Captain Lloyd W. Miller and of Eben Olcott, J. W. Millard and Frank E. Kirby, naval architects, that it is possible for the commission to build an exact replica.

According to the plans, the Clermont will be even exactly as she appeared in 1807 and will cost [illegible] for her initial sail. Land [illegible] Albany [illegible] on Oct. 9, [illegible] 1909, [illegible] the replica of the Half Moon, [illegible] Hudson [illegible] Amsterdam [illegible] Albany [illegible] will carry a [illegible] parade in the [illegible] of the United States.

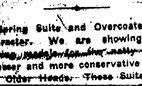
FOLEY'S KIDNEY CURE Makes Kidneys and Bladder Right

A couple of railroad laborers carrying a barrel of water between them clearly demonstrated that necessity is the mother of invention. A closer investigation showed that they had



EASY PLAN FOR CARRYING A BARREL.

made use of the handles from two broken shovels. The handles were cut to the proper length and trimmed on an angle, as shown in the sketch. These handles were then fastened to the sides of the barrel opposite each other with large screws.

Japanese Millet.

Japanese millet requires less attention than corn, is easily cut and handled and gives a great yield to the acre. Under favorable circumstances it will grow four to five feet high. The cattle eat it as well as they do the corn, with about the same results in milk and butter production.

Leasing the Farm.

Put everything down in writing when you lease a farm. Memory cannot be relied on. It is remarkable how different men will remember different things. If it is all down in black and white there can be no mistake.

26 Acre Farm With Gas Rental For Only $1,000

We offer for sale a farm of 26 acres, located 2 1-2 miles from Shinglehouse and one mile from Sharon Centre, Pa., on R. F. D. Land is smooth, 18 acres under cultivation, balance in pasture and timber. 4-room house in fair repair, barn 16x25, wagon shed 16x16. Farm watered by several living springs. Wire and rail fences. Orchard of 20 trees. 2 1-2 miles from cheese factory, 1 mile to school, railroad station and church. Price with oil and gas right, including cash gas rental of $50 a year, $1,000, or $500 without oil and gas right. Will trade for a larger farm in New York state and pay difference

THE VETERINARY.

An abundance of sunlight in the cow stables so arranged that it may reach every part of the stable is one of the best preventives of disease. When possible the cow stables should be separate from the barn in order to secure proper ventilation and the necessary sunlight which it is impossible to obtain in any other way.

Cure For Mange.

Mange is a distressing affection that should never be permitted to retain a place on any farm, as it is easily cured. Rub on oil of tar, one ounce, and whale oil, two ounces, or one-half pound each of tar and sulphur and one pound each of soap and alcohol. In fill cases boil all blankets and treat with a strong solution of caustic potash all wood work, harness, brushes, combs and whatever is possibly infested with the germs of mange.

Blood Purifier For Horses.

A good blood purifier for a horse that is run down is an ounce of hyposulphite of soda twice a day. Feed the horse well. Another remedy is two ounces each of powdered copperas, saltpeter and fenugreek and half a pound of ground gentian. Mix and give a teaspoonful in each feed.

Scours In Calves.

There is no surer cause of scours than dirty feed pails. Be scrupulously clean as to pails, troughs and the food used in feeding young calves. It will save a lot of the trouble that comes with carrying calves through the scours.

Removal of Warts.

Warts on calves and other young stock are nothing more or less than skin tumors, often due to overstimulation of the parts, says a veterinarian. You can twist them off with your thumb and fingers, after which you may apply tincture iodine to the parts for two or three days in succession. Then keep the part painted by rubbing with sweet hog's lard occasionally.

Simple Remedy For La Grippe

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is in a yellow package. Refuse substitutes. Brundage & Rogers

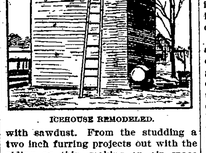
Farm and Garden

STORING THE ICE CROP

Cutting the Cakes and Putting Them Away.

The ice season is not over. In many sections of the country the crop is now at its best. The usefulness of ice on the farm cannot be exaggerated. One who has made a business for fifteen years of storing ice says that five years ago he remodeled his old icehouse. A description of the remodeled structure follows:

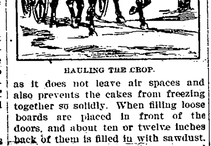
It is 12 by 14 feet and 12 feet high on a two foot stone foundation. The studding is oak, 2 feet 8 inches, sheathed on both sides and filled between



ICEHOUSE REMODELED.

with sawdust. From the studding a two inch furring projects out with the siding on this, making an air space sufficiently large that the sides of the building are kept from becoming warm by the cool current which passed from the ground up and into the ice chamber. A 12 by 18 inch blind at each gable permits a free circulation of air and is in my estimation better than a cupola, as there is more of a draft over the ice. There are double doors four feet wide extending from the foundation to the eaves. A 4 by 4 inch scantling put in the peak for attaching a double pulley facilitates the handling of the ice. The man in the wagon sets the tongs in a cake, and another man in the doorway seizes it with his tongs as it is drawn up. In this way only three men are necessary at the building, one to unload and two to pack.

Beneath the building a number of eight inch tiles are set on end, with a little piece of board over each. In the first floor are six inches of sawdust. The cakes of ice are set on edge, each tier being finished and covered with a layer of sawdust before another is begun. It is better not to have the cakes too close together, so that the sawdust will sift down between. Sawdust is better than cracked ice to fill in with,



HAULING THE CROP.

as it does not leave air spaces and also prevents the cakes from freezing together so solidly. When filling loose boards are placed in front of the doors, and about ten or twelve inches back of them is filled in with sawdust. The icehouse is filled from a pond about a mile away. Ice saws are used and the cakes cut from twenty-five to thirty-five inches square. A common wagon box will hold two tiers, thirty cakes of eight inch ice. The capacity of this icehouse is forty tons, but of course any size could be built on the same plan, and a larger one would keep the ice in a much better condition.

Prevention of Hog Cholera.

Dr. J. W. Connoway of the Missouri experiment station at Columbia has discovered a serum for the prevention of hog cholera. The serum is in the form of a vaccine, and if it is injected into the blood of a hog before it has become infected with cholera the hog becomes immune to the disease. The serum was discovered through the fact that when a hog has once recovered from an attack of cholera it is proof against another attack, even if it is exposed to diseased hogs, for it has developed something in its blood which makes it proof against the disease. The serum has been used on 1,500 hogs in different parts of the state, and very few have developed cholera after being properly vaccinated, although exposed to the disease. The serum is kept in supply by the agricultural department of the University of Missouri and will be dispensed free to the farmers of the state.

Bordeaux Mixture.

The bordeaux mixture is the proper remedy to use for all fungous troubles—viz, mildew and rust of beans, potato and tomato rot and leaf blight, melon and cucumber diseases, asparagus rust, celery leaf blight and rust, etc. The half strength mixture (two pounds copper sulphate, two pounds quicklime, fifty gallons water) is strong enough to use in the vegetable garden except for potatoes.

Preparing for the Country Regardless Upon System.

To be up to date the farmer must plan ahead. If he is wise he will open accounts in his ledger for every crop he raises, including horses, cows, sheep, swine and poultry. He will have a system of bookkeeping that will show at the end of the year which crop paid a profit and which created a loss.

It will be a great satisfaction to know how the potato, the onion, the general garden, the hay and the straw crops paid. His ledger will show how many days his teams worked, crediting them with such amounts as he would have had to pay had he hired teams to do the work. Against this will be the price of feed. There need be no item for labor in attending to the horses, as the manure and the use of the animals for pleasure drives will offset that.

The income from the cows and the sheep, the swine and the poultry would have their place, against which would have to be the cost of feed.

The writer knows of a progressive farmer who follows that system year after year. His daughter keeps the books. He reports each night the sales, the purchases, the hours the teams were at work, etc., and thus is he able to keep a record of his doings and knows exactly what each crop means to him.

Beginning the new year, the farmer should lay out his plans for the spring operations, the size of the vegetable garden, the varieties to grow, the increase of the small fruit plots and the additional trees to the orchard, the changes and the repairs that should be made on the barn and other buildings, not forgetting improvements on the old homestead.

There are a hundred and one matters that can be planned for 1909's operations, and no better use could be made of one's evenings than to map out all these matters.

The latest catalogues of reliable seeds, nursery and implement houses should be secured, and profitable time may be spent in carefully looking them over. Lists of seeds, trees, tools, etc., should be got out and ordered before the general rush in spring. This will avoid delays, errors and vexations generally.

The farmer is a business man, and each year he farm is becoming more important to the welfare of the country. The farmer is no longer the subject of ridiculous cartoons, but the emblem of prosperity in all the high class publications. The whole world looks to the sturdy tiller of the soil for the means of maintaining prosperity in the land.

Bisulphide of Carbon Effective.

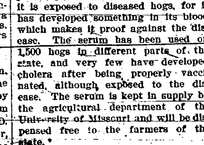
The barn, the cornerib, the wheat bin and even the farmhouse itself can be divested of all noxious and destructive insects and vermin by the use of bisulphide of carbon, says the United States department of agriculture. It is a liquid which forms a powerful and volatile gas very penetrating. If liberated in any tight place it will search every crack and kill every bug and for that matter everything else. The usual proportion given is one pound to 800 to 1,000 cubic feet. Some authorities recommend a pound of bisulphide of carbon for each hundred bushels. No injury is done the grain by its use, nor is there any danger from feeding the grain afterward, as the bisulphide of carbon entirely disperses. Since the stuff is very explosive, its use in connection with lighted pipes or cigars should be prearoided.

A New Sulphur Wash.

During the past season the department of agriculture has made an important discovery that the self boiled lime sulphur wash is not injurious to peach foliage when properly made and will not produce russeting and other injurious effects on apples. Further more, it has been found to be about as effective as a fungicide as the standard bordeaux mixture. Extensive experiments have been carried on during the year by the department on nearly all of the common fruit diseases which are preventable by spraying, and it has been demonstrated that the above mixture is a very useful one.

A Self Closing Hinge.

A hinge such as is shown in the illustration may be made by the amateur blacksmith, and it is not only inexpensive, but is self closing and will not get out of order or readily break. It is made by twisting two small rods of the required size twice around, as shown in the cut. For small gates one-quarter inch or three-quarter inch or three-eighths inch rods are about right, but for large gates or doors larger rods should be used. The rods are



HINGE MADE TWISTED RODS.

heated red hot, placed in an iron vise and given two twists, as shown. The four ends are hammered out flat and the holes drilled and countersunk for the screws, bolts or nails. As will be seen, the hinge acts like a screw and will always close the door or gate by the weight of same. If you have no forge, fine rods in the rough pile and most any smith will make a pair of hinges for less than the price of a pair of strap hinges, and they will last as long as the gate, as above stated, are self closing.

Glad I Did So Much Good

LOTS OF MEN AND WOMEN HERE HAD THE SIMPLE HOME-MADE MIXTURE PREPARED, SAYS DRUGGIST.

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing Rheumatism and Kidney trouble. Here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Take as a dose one teaspoonful after meals and at bedtime.

No change need be made in your usual diet, but drink plenty of good water.

This mixture has a peculiar tonic effect upon the kidneys, cleansing and stimulating them to a normal healthy condition in a short time, forcing the kidneys to sift and strain from the blood the uric acid and other poisonous waste matter, overcoming Rheumatism, Bladder and Urinary troubles in a short while.

A druggist here who has had hundreds of calls for these ingredients since the first announcement in the newspapers last October—states that the people who once try it "swear by it," especially those who have Urinary and Kidney trouble and suffer with Rheumatism.

All the druggists in this neighborhood say they can supply the ingredients, which are easily mixed at home. There is said to be no better blood-cleansing agent or system tonic known, and certainly none more harmless or simple to use.

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher

More than a thousand students of Yale university marched through the streets of New Haven, ankle deep in slushy snow, at the exact time the inaugural parade was going on in Washington. They also held a mass meeting in Alumni hall in honor of President Taft as the first Yale graduate to have that honor. Speeches were made by Professor Reed and Colonel N. G. Osborn, and there was much enthusiasm among the students and graduates. A message conveying their wishes on his induction into office and wishing him in his administration godspeed was sent from Yale to President Taft.

The Lurid Glow Of Gloom

was seen in the red face, hands and body of the little son of H. M. Adams of Henrietta, Pa. His awful plight from eczema had, for five years, defied all remedies and baffled the best doctors, who said the poisoned blood had effected his lungs and nothing could save him. "But," writes his mother, "seven bottles of Electric Bitters completely cured him. For Eruptions, Eczema, Salt Rheum, Sores and all Blood Disorders and Rheumatism Electric Bitters is supreme. Only 50c. Guaranteed by Brundage Drug Co.

Many Children are Sickly

Taft Starts Well.

The new president enters office under the most favorable conditions. He has the respect and confidence of the whole country. His experience fits him for an exceptional degree for the work of administration. He possesses poise, breadth of view, sanity, charity and a wholesome sense of humor. He can be firm as well as just and kind.

Kills Would-Be Slayer.

A merpiless murderer is Appendicitis—with many victims. But Dr. King's New Life Pills kill it by prevention. They gently stimulate stomach, liver and bowels, preventing their clogging that invites appendicitis during Constipation, Biliousness, Chills, Malaria, Headache and Indigestion. 25c at Brundage Drug Co.

This is An Easy Test

Sprinkle Allen's Foot-Ease in one shoe and not in the other, and notice the difference. Just the thing to use when rubbers or overshoes become necessary, and your shoes seem to pinch. Sold everywhere, 25c. Don't accept any substitute.

CASTORIA. The Kind You Have Always Bought. Bears the Signature of Chas. H. Fletcher

THE KNIFE FOR ROOSEVELT.

Gem Studded Hunting Weapon Presented to Ex-President by a Friend.

One of the Bangsomest of the presents that have been pouring in upon former President Roosevelt from friends in every part of the United States who have wished to give him something of value their friendship to carry with him on his African hunting trip is a hunting knife given him by Justice James W. Gerard of the supreme bench of New York city, who is an old friend of the ex-president. The weapon is a masterpiece of jeweler's workmanship, the hilt being wrought in gold and platinum and ornamented with jewels. The top of the handle is carved in the shape of an eagle's head of solid gold. The eagle's eyes are garnets.

On one side of the hilt beneath the eagle's head is depicted a forest scene, with two American Indians behind a birch tree, one of them standing, rifle in hand, the other crouching. The tree is done in gold upon a platinum background. On the reverse side is set the arms of the United States, surmounting a wishbone and intertwining tree boughs in gold. Below is the monogram "T. R." The background on this side is also of platinum. Two bears heads extending out from the handle form the guard at the base of the blade, which is of the finest steel and engraved as follows: "Presented to Theodore Roosevelt by His Friend James W. Gerard."

The knife is nearly a foot long and is said to have cost $1,250.

A Religious Author's Statement

Rev. Joseph H. Fesperman, Salisbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy." Brundage & Rogers

In the Minnesota legislature a recess was taken during the hour when President Taft was inaugurated, and Republicans and Democrats vied with each other in expressing loyalty to Mr. Roosevelt and for President Taft. At the conclusion of the eulogies the house testified its respect for the incoming president with a rising vote, and the speaker was instructed to send telegrams of congratulation to both Roosevelt and Taft.

Business was suspended for five minutes on the board of trade in Kansas City during the inauguration of President Taft, while the members sang "America."

Near Death in Big Pond.

It was a thrilling experience to Mrs. Ida Soper to face death. "For years a severe lung trouble gave me intense suffering," she writes, "and several times nearly caused my death. All remedies failed and doctors said I was incurable. Then Dr. King's New Discovery brought quick relief and a cure so permanent that I have not been troubled in twelve years." Mrs. Soper lives in Big Pond, Pa. It works wonders in Coughs and Colds, all Bronchial affections. 50c and $1.00 Sore Lungs, Hemorrhages, LaGrippe, Asthma, Whooping Cough. Trial bottle free. Guaranteed by Brundage Drug Co.

Kidney trouble proves upon investigation to be the most discouraging and long-lasting ailment, but it is also one of the most fatal when the kidneys become diseased.

Kidney trouble has been with us for years, but it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney-trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

**Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle of Swamp-Root, by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address,
