Our enthusiasm for the new Spring Suits and Overcoats which we're now offering, especially made for us and our trade by

HART, SCHAFFNER & MARX

is based almost entirely on the results our customers get from them. It's worth a great deal to us to know that when we sell one of these suits or overcoats we're giving our customer big value for his money; and that he's going to get the value out of it.

All-wool counts in the wear; so does good tailoring; the correct style is a powerful factor in your satisfaction. We do ourselves good when we do you good; and these clothes do it.

Distress from Upset Stomach

ALSO MISERY FROM INDIGESTION VANISHES FIVE MINUTES LATER.

Take your sour stomach—or maybe you call it indigestion, Dyspepsia, Gastritis or Catarrh of Stomach; it doesn't matter—take your stomach trouble right with you to your Pharmacist and ask him to open a 50-cent case of Pape's Diapepsin and let you eat one22-grain Triangule and see it within five minutes there is left any trace of your stomach misery.

The correct name for your trouble is Food Fermentatioon—food souring; the Digestive organs become weak, there is lack of gastric juice; your food is only half digested, and you become affected with loss of appetite, pressure and fullness after-eating, vomiting, nausea, heartburn, griping in bowels, tederness in the pit of stomach, bad taste in mouth, constipation, pain in limbs, sleeplessness, belching of gas, billousness, sick headache, nervousness, dizziness and many other similar symptons.

If your appetite is fickle, and nothing tempts you, or you belch gas or if you feel bloated after eating, or your food lies like a lump of lead on your stomach, you can make up your mind that at the bottom of all this there is but one cause—fermentation of undigested food.

Prove to yourself, after your next meal, that your stomach is as good as any; that there is nothing really wrong. Stop this fermentation and begin eating what you want without fear of discomfort or misery.

Almost instant relief is waiting for you. It is merely a matter of how soon you take a little Diapepsin.

Herb Tea Sold to Help Many

DRUGGISTS HERE IN TOWN SAY THEY CAN SUPPLY THE INGREDIENTS OR MAKE UP THE MIXTURE.

Get from any prescription pharmacist the following.

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Shake well in a bottle and take a teaspoonful dose after each meal and at bedtime.

The above is considered as the most results-producing prescription ever written to relieve Backache, Kidney Trouble, Weak Bladder and all forms of Urinary difficulties. This mixture acts promptly on the delicate tissues of the kidneys, enabling them to filter and strain the uric acid and other waste matter from the blood which causes Rheumatism.

Some persons who suffer with the afflictions may not feel inclined to place much confidence in this simple mixture, yet those who have tried it say the results are simply surprising, the relief being effected without the slightest injury to the stomach or other organs.

Mix some and give it a trail. It certainly comes highly recommended. It is the prescription of an eminent authority, whose entire reputation, it is said, was established by it.

A druggist here at home, when asked, stated that he could either supply the ingredients or mix the prescription for our readers, also recommends it as harmless.

BEE STING FOR RHEUMATISM

If You Will Relief Let the Insect Sting You.

With a view to testifying the particular quality in the sting of a bee which gives relief to persons suffering from rheumatism—that Dr. Arthur W. Swann, a specialist in his private hospital, at New York city, is conducting experiments [illegible] of honey bees. He uses a day from the mother, who has an apiary in Stockbridge, Mass.

In making his experiments Dr Swann is giving special attention to the chemical properties in the venom ejected by the insect. He has not learned whether the relief to the patient is due to a formic acid in the virus, to some undiscovered property or to the mere fact that the sting as an entirely be a counterirritant to the pain. This is the problem he seeks to solve, and with its solution there must be evolved, he says, a process of treatment by which the direct sting of the bee and the consequent pain will be made unnecessary.

The present method of treatment is to place bees in a tube open at one end and apply this end to the patient's body, the sting following after the bees have been irritated. Relief invariably follows the treatment, and there are absolute cures on record.
