"Look here," complained the stranger, stepping inside the store door, "this weighing machine in front of your place is out of order."

"I've got nothing to do with that machine," said the sleepy-looking young man behind the counter.

"Well, somebody ought to have."

"What's the matter with it, anyway?"

"It won't work. I dropped a penny into it just now, and the indicator didn't fly around. I shook the machine, and jumped up and down on the platform, and still it didn't move. It's a swindle."

"It took the penny all right, didn't it?"

"Certainly."

"Well, that's what it's for. There's nothing the matter with the machine, sir."

Many People of Many Minds

The newspaper is for everybody and hence must publish something for everybody. If you see something which is of little interest to you, remember that there are others and that the entire paper is not printed especially for you. The very thing that is dull and uninteresting to you may be the one thing in the paper for some other readers. There are whole pages in the daily papers that are of no interest to us, but they are to others. A paper which contained nothing but such matter that would interest any one or another of us would have a limited number of readers. There are many people of many minds.—Exchange.

ANOTHER INDUSTRY LOCATES HERE

The Platts Bros. of Eldred, Pa., Sign a Contract With the Business Men's Association.

It is with great satisfaction the NEWS assures its readers of the closing of the deal with the Business Mens' Association and Platts Brothers of Eldred, Pa., by which these gentlemen are now locating their cutlery plant for the manufacture of knives, shears, rasors, etc., in Andover.

The firm consists of three brothers, themselves all skilled workmen, who will take entire charge of the plant, while they guarantee to employ at least twenty-five men within the year. The stock is practically all sold and the contract is based upon the same principal as that entered into with the Andover Stamping Co. in which the common stock must at all times equal the preferred.

In our next issue we expect to give a complete writeup of the industry. In the meantime the Business Mens' Association "is busy" for the farther betterment of Andover.

Getting Ready for Business

The Allegany Facing Brick and Concrete company, capitalized at $40,000 has begun the preliminary work of constructing a plant three and one-half miles south of Wellsville on the Ford's Brook siding of the B. & S. R. R. Among the directors are Feliz Coccodrillo, Elmer Parker, G. W. Rice and W. L. Calhoun. Mr. Calhoun is the promoter of the enterprise. The company will make sand-lime brick and German concrete blocks. The company has discovered banks of sand peculiarly adapted for the manufacture of sand-lime brick.

Run Away From Home on Account of Ill Treatment

For the third time within a few months the twelve year old daughter of John Ross living near Angelica has run away from home. The first time the child was found in the schoolhouse where she had stayed all night. The second time she hid in an old shed on a near by farm and when found both feet were frozen. This time she took refuge with a family some distance away. The child claims ill treatment at home and says she wants to die. The affair will be investigated by the authorities.

The New York Tribune Index.

The files of a newspaper contain the embodied history of the world. But finding what one wants in them unaided is like the proverbial search for a needle in a hay stack. One might almost as well have a locked treasure chest without a key. The key that unlocks newspaper files is an index. For over thirty years The New York Tribune has published an annual index to what appears in its columns. The same index is of use with files of other newspapers, so far as general news is concerned, for the news of the same day may be found in all. In addition, for a file of The Tribune, The Tribune Index conveys information in regard to a multitude of special articles, editorials, book reviews, correspondence and other features of a distinctive character. It is a key to a great storehouse of facts. With its cross-references anything desired can be readily found. Price $5.

THE FATAL SCAR.

At the Andover Opera House Wednesday Evening, Jan. 30th.

Is an excellent play with a strong double plot. It abounds in pathos, comedy and excitement, and tells a story of love, hatred and jealousy. The incidents are true to life, the characters are carefully drawn, the situations are realistic and the comedy, while in abundance is of a refined and pleasing nature.
