The London "Star" on the escape of Col. Ryan's Expedition.

London, June 29.—The Star to-day, commenting on the reported departure from New York of Col. Ryan's expedition for Cuba, brings the circumstance to bear upon the question of the claims now pending between the United States and Great Britain. It says: "We are interested in the conduct of the of the United States Government in this matter. America now stands in relation to Cuba exactly as England did in relation to the Southern Confederacy. Her neutrality laws must be thoroughly enforced, or she will lose the hold she has gained on public opinion, which insures the fair consideration of the Alabama claims. The Alabama merchantman's crew on board, and we are justly held to have incurred a high degree of responsibility for the consequences. The departure of a party of eight hundred men from New York harbor, as far as can be judged from the present accounts of the affair, appears to be an infraction of neutrality, just as flagrant as the escape of the Alabama, and one which could have been much more easily prevented."
