ANDOVER'S NEEDS

We live in an era of progress. We are moving so rapidly that there is danger that in striving to do so much and develop so rapidly many of the smaller things and inexpensive comforts that help to make a community a pleasant and pretty place of abode will be overlooked and neglected. We would speak of a few of the little things which Andover needs and which may be obtained if only persistent effort is put forth. The child of to day is the man of to-morrow. We need to take better care of and give more attention to our children. See that they are afforded the very best opportunities for development into true, honest men and women. As the public schools are common proprety, we should make the schoolhouse and everything about it attractive and beautiful. Here is one of the centers of the life of the community, the one in which is gathered its most impressionable element. The school is supported at public expense in order to make good American citizens. It aims at securing the highest possible development of mind and character. Every element of order, neatness and beauty, every broadening influence, every appeal to the finer nature of the child means better men and women and a more thirfty, prosperous and attractive community. Americans are justly proud of their school system and should be willing to support the schools not only with money, but with time and labor. We have a good school that is doing everything possible for our children, but what becomes of them after school and on Saturdays? We have provided no place for them to play, so they must loaf the streets. Andover needs an athletic field and gymnasium for her young people, boys and girls. Play is what develops the child and we have been negligent that we have not provided Andover children with a place of some kind where they may go and play, uninterrupted, and make all the noise they like.

We need more civic pride that we may keep not only the front door yard clean and tidy, but that will also extend to the back yard. That brings to mind another need which many of us have thought much about but not yet obtained. That is a dumping place for refuse. Every family has more or less tin cans, old paper, rubbers, etc., which has of necessity to go somewhere, but Andover village has not yet provided a place where they can be taken care of. We need a public dumping ground. Undoubtely you have seen the neatly painted cans in nearly all the larger places bearing the words "Help keep our city clean." They are waste cans. We need them and then we need to see to it that they are properly cared for.

In this connection it might be well to suggest that a little paint and care upon the part of each property owner helps greatly the appearance of a village.

We should also have an ordinance against tieing horses on Main street, and the posting of bills should be regulated so that it may be under the superintendence of those who will see to it that only such as are fit to be displayed can be distributed.

Andover's sidewalks are good, but if those of our citizens who can afford to do so would place curbing along their street line it would add much to the appearance of our residential streets.

We have all heard of Andover's park, but we have not many of us seen anything in it that would make us think of a park. Andover needs a place where we can go and enjoy a few moments rest, where our children may romp and play, with no "keep off the grass" signs to frighten them; where the stranger who is obliged to pass a few hours in Andover, waiting for the Erie, or some other account, may sit and rest and when he leaves town carry with him a favorable impression of our village. This does not require a large plot of ground, but it should be made pretty and attractive and be located so that it would be easy of access to all; where a band stand may be erected and our band give concerts, and where our citizens may mingle without formality and get acquainted with each other and cultivate that community of interests so essential to the progress of any growing community.

The last, but not the least, need of Andover is that of a drinking fountain in the center of Main street where not only thirsty man may quench his thurst—for you know that Andover is supposed to be a dry town; and is, so far as a stranger who comes into our village is conserned, if he only wants water—but we should have a place where dumb animals may obtain water.

THE HIGGINS SWEET-PEAS

HOW A NEWSPAPER MAN FINDS PLEASURE IN GROWING OF THESE BEAUTIFUL FLOWERS —AWARDED MANY PRIZES.

[Elmira Advertiser, March 9, 1908]

The Advertiser takes pleasure in calling the attention of its readers to a notice elsewhere of the sweet Pea seed of Edgar A. Higgins, of Avoca, whose "fad" for many years has been this popular flower. Mr. Higgins grows large quantities of the most beautiful varieties of sweet peas each season and has been awarded scores of first premiums at various exhibitions in the hotest competition. His award of a gold metal at the Pan-American Exposition at Buffalo, over competitors including professional dealers and growers of national reputation was one of his many notable triumps.

Mr. Higgins made a careful study of the choicest and most beautiful varieties of sweet peas and has publicly exhibited his exquisite blooms on many occasions and to multitudes of delighted and discriminating admirers. In this way he has contributed very much to the phenomenal popularity that this charming flower has attained throughout a wide section of Southern and Western New York. His display of magnificent specimens of named sweet peas in the parlors of The Park Church last season is well remembered.

Mr. Higgins is by profession a newspaper man, and flowers in general and sweet peas in particular are simply a diversion in which he takes supreme delight. The entire editorial force of the Advertiser and those of all other Elmira newspapers have seen and enjoyed his sweet peas on numerous occasions and can therefore speak in the highest terms of their exquisite beauty. And this paper also gladly guarantees that all who send for the seed he advertises will be honorably and generously dealt with.

Mrs. David Rogers Dead.

Mrs. David Rogers, who had been ill several months, passed away, Sunday, at the family home. Bright's disease was the cause of her death. Funeral services were held from the Baptist church at 11 o'clock, Tuesday, Rev. James Herrick officiating. Interment was made in Rural Cemetery.

Catherine Crusen was born in Greenwood, April 27, 1839. She became the wife of David D. Rogers at Greenwood, October 12, 1865, and since that time the family resided near this place.

Her husband and four children survive her. The latter are Mrs. Eva Seger, Mrs. Nellie Foster, Mrs. Lida Slocum and Norman Rogers. There are also three sisters and one brother: Mrs. Jane Brundage and Mrs. Harriet Miner, of Andover, Mrs. Sara Bess, of Greenwood, and Fred Crusen of Raymond, Pa.

Mrs. Rogers was a woman of many good qualities and a large circle of friends deeply mourn her loss.—Whitesville News.

In Africa

The special train of Ex-President Theodore Roosevelt and party arrived at Makindu, Africa, Friday morning, April 23rd. The party had at that time traveled some 200 miles through the Amakin district an ideal hunting territory, and where large game can frequently be sighted from the car windows. Reports received in this country are to the effect that Mr. Roosevelt is in the best of spirits and enjoying the trip immensely.

MOSE

Young People of The High School Did Good Work, Saturday Evening.

The College Comedy drama "Mose" given Saturday night at the Auditorium by members of Andover High school for the benefit of the Boy's Athletic association, drew a fair audience and was well received. The young people deserve credit for their work. In justice to other members of the cast it would not be fair to particularize as all done finely. Andover people enjoy home talent amateur performances, and the play, Saturday night was up to the standard in that line.

School entertainments serve the double purpose of pleasing the public and training the students to appear before an audience in a graceful manner, to say nothing of the pecuniary benefit.

SPRING

Now is the time when you are putting your winter clothes away for the summer and about now is when you are looking about for some means of keeping them free from moths during the time they are out of our possession.

We have a fine line of Paiges Cedrene Dust & Moth Proof Bags, which we have sold for several years back and made a lot of friends by doing it.

These bags come in different sizes;

22x30 inches, for Coats Jackets etc	50c.
24x48 inches, for Suits, Skirts etc	60c.
30 x 50 inches, for Cloaks, Ulsters etc	75c

Each bag has three hooks inside upon which to hang the garments and when your clothes come out of the bag they are ready to wear, as there is absolutely no smell.

House cleaning time has come again with all it worries. To the busy housewife we would suggest a pair of Our Rubber Gloves to be one of the greatest helps in this kind of work. Rubber Gloves come at many prices according to the quality. We have had experience with many lines at many prices and have finally settled on a glove we sell for 50c. a pair as being the most satisfactory thing we ever sold. Let us show them to you.
