Perhaps another year they may be eager to help eat that same surplus, if any.

FOODS TASTE BETTER COOKED
—TOBACCO TASTES BETTER
TOASTED

Since the day of the caveman, who liked his meat raw, civilization has learned a lot about the scientific treatment of the things we eat.

Naturally none of us would now prefer to have our meat raw, our potatoes as they come from the ground, our coffee unroasted.

And naturally follows the great discovery recently made by The American Tobacco Co.—that tobacco tastes better TOASTED!

This wonderful new idea—simple like all great inventions—was first used in producing the famous LUCKY STRIKE Cigarette—made of toasted Burley tobacco.

Burley has a mellow flavor, entirely different from the tobacco usually used for cigarettes. It is a pipe tobacco and LUCKY STRIKE Cigarettes taste like a pipe.
