Save the Rubber Supply

Asking repealing Government restrictions on the importation of rubber and the endeavor of the manufacturers in co-operation with the Government to restrict the manufacture of unnecessary tire sizes, Mr. J. C. Wheaton, vice president and director of sales of the United States Tire Company said:

"The intention of the Government in the control and restriction of the importation of rubber is to conserve shipping space, and the program that has been laid before the manufacturers of rubber goods has won their unanimous support for the War Trade Board and the Shipping Board.

"In addition, the manufacturers of tires are heartily co-operating with the Government program for the eventual elimination of unnecessary tire sizes. This elimination will simplify the problem for each user of the motor car of reducing his cost and making it possible for him to secure the tire size he needs, in good tires, more readily than the market and manufacturing conditions now permit.

"Plans for the withdrawal of certain tire sizes from use by manufacturers of motor cars will not in any way interfere with the manufacture and distribution of the tires to users who need those particular sizes at any time."

Mr. Weston was very insistent in his statement that there is nothing in the present or probable future situation to occasion the slightest apprehension of a shortage of tires for legitimate use.

"However, there never was a time," he said, "when users of motor cars could so well serve the nation as by making the most of their cars in legitimate commercial and passenger service and refusing to hoard or unnecessarily anticipate their needs in tires or other motor car supplies."

Mr. Weston called attention to the fact that the Government has not at the present time imposed any restrictions on the use of motor cars by the automobilists of the country, but has relied on the patriotism of the car-owners to exercise a proper discretion in the use of their vehicles, with a view to conserving their cars and tires. Mr. Weston is of the opinion that the motorists of the country can be trusted to cut down mere pleasure-riding to a minimum and to take every possible step to save tires, oil and gasoline.

TARRED AND FEATHERED

Duxbury Refused to Buy Liberty Bond or Give to Red Cross

Sioux Falls, S. D., May 21.—Hart Duxbury, a farmer living nine miles north of Spencer, S. D., to-day was tarred and feathered by a crowd of fifty farmers after he had been taken from his farm and brought to the city jail at Spencer, where the coat was applied.

Duxbury, it was said, was ordered last Friday night to purchase Liberty Bonds or contribute to the Red Cross by Monday night. He refused, it is stated, and shortly after midnight the farmers fulfilled their threat.

WHITESVILLE MAN KILLED BY LIGHTNING

Edgar Charles Johnson, who lives on a farm at West Almond, near Whitesville, was killed by lightning during the storm Tuesday afternoon. Mr. Johnson, with his dog, went to look after his cows which were in the pasture. Later the dog returned alone, severely burned. Mrs. Johnson immediately went in search of her husband and found him lying dead, where he had fallen as the bolt struck him.

Deceased was 25 years of age, and had been Master of the West Union Grange for several years.

Funeral service was held Thursday and burial at North Bingham.

RED CROSS INSTRUCTIONS

No More Gifts to Local Red Cross Branches

To All Chapters and Branches, Atlantic Division, A. R. C. Subject: Knitted goods and comfort kits.

Please discontinue the custom of giving knitted articles and comfort kits to draft contingents leaving home.

The knitted articles are unnecessary during the summer weather, and if given now will be worn out, lost or damaged by the time they are needed in the autumn. Further, your chapter will soon receive its allotment for knitted articles to be supplied during the next four months, and your entire output should be shipped to the Atlantic Division Supply Service.

The Bureau of Military Relief will continue its custom of delivering to the supply officer of each military contingent leaving for service abroad all the above articles for use when needed.

Concerning Army and Navy comfort kits, we especially request that all that are made be shipped promptly to the supply service. We are under instructions to give a kit to every man leaving for foreign service, as they may be billeted for months where they will have no opportunity to purchase these articles. Troops in camps at home are always within reach of these minor necessaries.

Second subject:

In case an enlisted man enroute is taken from the train at your town on account of illness or disability, will you please see that all attention is given to him, and that an immediate report be sent to this office, together with the man's name, Military Unit and home town.

JOHN RAGEE,
Director Military Relief.
Approved, Ethan Allen, Mgr.,
