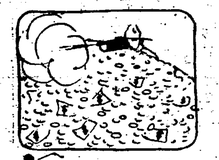
No, Ben Franklin Didn't Say This, But Don Marquis

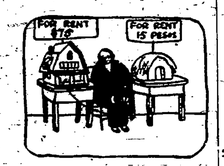
When you blow in your money foolishly you help blow out some American soldier's brains—for it is the resources behind the troops that will win this war.

When you waste your substance for some silly, unessential thing, you are wasting more than your substance—you are wasting your country.



Think of your quarters and dollars in terms of the blood of your country's defenders—and then waste them if you dare!

A fool and his money are soon parted—from liberty.



A country saved is a country earned—don't dribble away your country's resources.

It costs more to live in America than in some other countries—but don't you think it is worth it? Help to save the country by saving its physical resources.

FATHER AT WAR, TRAGEDY AT HOME

Just What Home Service Means to a Soldier.

The father kisses his wife and kiddies goodby, shoulders his gun and marches away to war.

For a time the current of life flows smoothly for the soldier's little family. Then comes the tragedy. Mother is taken ill. The little brood of brothers and sisters is helpless. No father to turn to. A helpless mother!

To whom can the American soldier's family look at this critical period? Must a brave man's loyalty to his country mean desolation and suffering to those nearest and dearest to him?

No! Emphatically no! The American people will not permit the families of their soldiers and sailors to suffer because their breadwinners are fighting for their country. And so the Red Cross Department of Civilian Relief has created a nation-wide organization for home service for the families of soldiers and sailors.

Under the banner of "Home Service" patriotic men and women have enrolled and are devoting themselves to the noble task of helping soldiers' families to meet and adjust the problems of everyday life and aiding them to maintain the standards of health, education and industry.

Home Service—True Service.

Home service means keeping the soldier's children well and in school. It means aiding the family over financial troubles, arranging the household budget, meeting insurance premiums, adjusting a mortgage, bringing medical aid and legal advice to bear at the right moment. In short "Home Service" is true service, in that it provides the warm handclasp of friendship rather than the humiliation of charity, it calls for sympathetic understanding and intelligent consideration of the most vital needs of the soldier's family.

The Red Cross is pledged to "Home Service" wherever needed in the United States. In each chapter of the Red Cross there will be a home service section, under competent heads, whose mission will be to protect the welfare of the soldiers' and sailors' homes and to safeguard the normal development of their families in employment and in ideals of self help and self reliance.

HAPPY WOMEN

Plenty of Them in Andover, and Good Reason For It

Wouldn't any woman be happy,
After years of backache suffering,
Days of misery, nights of unrest,
The distress of urinary troubles
When she finds freedom.

Many readers will profit by the following.

Mrs. F. J. Witter, Third St., Andover, says: "Last winter I suffered from backache and other symptoms of kidney complaint. At times I could hardly get up or down and couldn't turn over in bed because a sharp pain took me right in the small of my back. I had headaches and dizzy spells and felt tired and could hardly get around. I heard about Doan's Kidney Pills and got a box at the Brundage Drug Co. They cured me of the attack and I never felt better in my life."

NOTICE TO CREDITORS

Pursuant to an order of Hon. Elba Reynolds, Surrogate of the County of Allegany, N. Y., notice is hereby given to all persons having claims against Catherin Walker, late of Andover, Allegany County, New York, deceased, to present the same with the vouchers thereof, to the undersigned Executor at the office of Jesse L. Grantier, Wellsville, N. Y., at 103 N. Main Street, on or before the 15th day of July, 1918.

Dated January 3, 1918.

WAR SAVINGS DRIVE NEXT

Week of June 22-28 Allegany County Will Make a Tremendous Effort to Put War Saving Stamps "Over the Top."

In order to insure beyond any doubt the success of the campaign in the Empire State and in order that no person may have a valid excuse in the campaign to put New York State over the top, it has been decided that a campaign will be systematically and energetically conducted, beginning on the morning of Saturday, June 22nd, and ending at midnight of Friday, June 28th, to secure either by purchase, or signed pledges more than the amount of War Savings Stamps allotted to the State of New York by the Treasury Department.

Remember the dates and be ready to do your part. 25

Washington, D. C. May 27.—To its many activities for the sale of War Savings Stamps the National War Savings Committee has now added the United States Government $100 Thrift Association. Members of the association pledge themselves to buy during 1918 not less than $100 of War Savings Stamps and to get another member for the association. These are the only qualifications for membership.

The machinery of the Association consists solely of a book of fifty postcards, each one being an application for membership. Inasmuch as the signer pledges himself to buy $100 of War Savings Stamps during 1918 and secure another member to whom he hands the book, the circulation of one book means fifty members, and the sale of $5,000 of War Savings Stamps.

Each book constitutes a chapter of the Association. It is the plan to organize a minimum of ten chapters in each county, which would mean about 30,000 books in circulation. The resulting pledges would aggregate $150,000,000; but as there is certain to be a demand for more than ten chapters, from most counties, even larger results are expected.

Corwall Lines S. The plan of the New York & Pennsylvania Railroad between Canisteo, N. Y., and Corsa, Pa., may be operated again has been outlined. The Department representatives, Major Larkin and C. L. Cox, as follows. The road can be bought from the present owners, the Cobb family, for $375,000. Therefore, if the people who live along the line will take the bonds and pay down 25 per cent, or $94,000 immediately, the Government will advance the remainder of the 75 per cent, and the people will be given five years in which to pay up the bonds. The Government will take the bonds as collateral.

There will be a meeting of the leading men along the line within a few days to consider the floating of the bonds.

WHAT COW-TESTING SHOWED FARMERS

The average production of all dairy cows in the United States is 160 pounds of butterfat a year, according to estimates. The average production of all cows in 40 cow-testing associations studied by investigators of the U. S. Department of Agriculture was 247 pounds a year. Careful tabulations of the records of the 40 associations show that a production of 160 pounds of butterfat a year gave an income of $23 over cost of feed, while the average income over cost of feed for all the cows in these associations was $47 or a little more than twice as much.

Undoubtedly the dairymen who join cow-testing associations are more progressive than the average, and own cows and farms that are much above the average, but the fine showing made by association cows should be credited, in large measure, to association work. Certainly the cow-testing associations return many dollars more than they cost. It is encouraging also to know that the cow-testing association records indicate that the large-producing dairy cows are the least affected by the increased cost of feeds. Therefore, every dairyman should aim to keep all his good cows, or to place them where they will continue the economical production of human food. Economical production can be obtained not only thru careful selection of dairy cattle, but thru intelligent breeding and skillful feeding.

TO ALL SUNDAY SCHOOLS

In the interest of conservation, the 1918 State Sunday School Convention scheduled for Poughkeepsie is recalled.

Because of war conditions, and the fact that the Fifteenth International Quadrennial Sunday School Convention is scheduled for Buffalo, June 19-25 (available to New York State Sunday School Workers), the Annual Sunday School Convention of the State Association, hitherto announced for October next, is officially recalled.

All county, district and school representatives, who had planned to attend the proposed Poughkeepsie Convention, are requested to substitute for it the International Convention at Buffalo. New York State is allotted a representation of 1,000 in the Buffalo convention. Official delegate's credentials will be issued (so long as they last) to bona fide Sunday School workers who write or apply for the same to the New York State Sunday School Association, 80 Howard St., Albany, N. Y. Send for an application blank at once.
