"For over three years, I was confined to bed with *Rheumatism*. During that time, I had treatment from a number of doctors, and tried nearly everything I saw advertised to cure Rheumatism, without receiving any benefit. I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place"

Inferior, low-grade gasoline costs most in the long run. You count the cost in low mileage, weak power and excess carbon deposits.

So-CO-NY is the Quality gasoline. It reduces the operating cost of your car by delivering more miles per gallon. It saves.

And in saving you are "doing your bit" these days. You are actually fighting back of the lines.
