Now, if ever, is the time to secure the continuance of railroad service. If it is removed it would mean disaster to farming and other business thruout this whole section.

Supt. of Schools F. C. Wilcox and daughter, Miss Beatrice Wilcox, are visiting at Killoneg.

The list of vacant houses and vacant farms in this vicinity continues to grow.

The railroad paid many thousands of dollars in taxes along the line thereby helping the people.

The question "who will win in the nominees for governor?" is attracting much interest. Col. Roosevelt absolutely refuses to enter the gubernatorial race, but not so with the multitude of other prospective candidates.

The Germans went down as near Paris as they cared to go, and have started on a stragetic move towards home.

The little daughter of Mr. and Mrs. Walter Barrett, of Bath, was fatally burned Friday. When discovered her body was enveloped in flames as she ran from the house. It is not known how the sad accident happened.

The country and our Allies are cheered over recent military achievements of our armies. The gigantic drive of the huns for Paris has so far come to naught, and the deceived Germans are abandoning their cannon and stores in their flight along part of their lines, and their drive has turned into a rear guard defence action.

Dr. and Mrs. S. H. Bennett, formerly of this place, now of Little Valley, are spending a few days in town.

The hun talk of peace plans, while engaged in their fierce drive looks as tho the latter was for the purpose to impress the Entente Allies with the idea that they are not forced to sue for peace, but wish the world to think they really think they can take Paris and win. What acceptable guaranty could the Germans give that a peace compact would be observed on their part? Their written treaties are thrown aside and are only intended by them to be observed by the other parties thereto and their assurances are worthless.

The only guaranty that would hold them would be render them powerless to try their game over again as their statesmen say they will do. The peace of the world requires a dismantling of their war plants, the disbandment of their armies and their country patrolled by an international force to prevent their making a move to renew war.

RED CROSS BUILDING FORTY NURSES' HOUSES AT CAMPS.

The American Red Cross is planning forty Nurses' Recreation Houses, to be built, at the request and with the approval of the Surgeon General, at the cantonments and base hospitals in connection with nurses' barracks. All of these buildings will be in use within the next two months, judging by the speed with which Red Cross work has been completed in the past. Already in many places these club houses, with their white walls and red roofs, are going up under the eyes of the nurses themselves.

The general purpose is to provide every comfort for the nurses serving in the cantonment and base hospitals. The main room, 30 by 75 feet, will have a great open fireplace along one side. Although the room ordinarily will be used as a living room, it will also be adapted for an assembly hall and can be used for dances and receptions.

Overlooking this room is a small balcony, from which motion pictures can be thrown on the wall opposite. Opening off this same room will be a library, a sewing-room, equipped with machines and all conveniences, a small laundry and a fully equipped kitchen. The furnishings throughout have been planned to the last detail.

A piano and victrola, folding chairs for assembly purposes, the gold-brown walls and dainty lounges, even the lighting fixtures, with their design suggesting the Red Cross, have been selected and combined to express a sense of home and to supply the needs and add to the comfort of cantonment life. The houses will connect with the nurses' quarters.

ARMY MAKES RECORD MEAT PURCHASE

Chicago, July 20.—The largest single order for bacon and canned meats in the history of the world—99,560,000 pounds of bacon and 134,000,000 pounds of canned meat—has just been placed by the Quartermaster's Department, U. S. A., for the American Army overseas.

Louis F. Swift, in commenting on this to-day, said the order will take the bacon from approximately 1,900,000 hogs and if other work were dropped to produce it would be equivalent to the total bacon production of the five largest Chicago packers for nearly five weeks, however, six months will elapse before delivery is to be completed.

Mr. Swift said:

"At the current prices on the day, last week, when the purchase was made, the packers would pay the live stock producers about $80,000,000 for the necessary hogs and over $50,000,000 for about 900,000 cattle required.

"The cattle will cost us twice as much, and the hogs two and one-half times as much as in the pre-war period.

"The whole order will be made up before the first of the year, despite the fact that, even before this purchase, one-fourth of the packers' facilities have been devoted to filling military demands.

"In order to get out the canned goods the packers will find it necessary to employ night and day shifts of canners. Notwithstanding the fact that the products are being rushed forward thus hurriedly, not a single complaint has been received on meats delivered to the armies abroad.

"The five packers are now killing about 360,000 hogs weekly to keep abreast of martial and domestic needs.

SERIOUS KIDNEY TROUBLE

Government Inspector In Rochester Praises "FRUIT-A-TIVES"

MR. R. B. O'FLYNN

80 North Union St., Rochester, N. Y.

"For five long years, I was afflicted with *Stomach, Liver and Kidney Trouble, which developed into serious Bladder Trouble.* During that time I am safe in saying I tried every different remedies without relief.

I saw a testimonial of, I think, Montreal man about 'Fruit-a-tives' and concluded to make one more trial. *By the time the sample box was finished* I found quite an improvement; and when I had finished a 50c. box, there was a grand improvement far beyond my expectations.

To make a long story short, I believe "Fruit-a-tives" or Fruit Liver Tablets the best Stomach, Liver and Bladder Medicine the world has ever produced".

Save Fuel Wisely

Saving fuel is working hand in hand with the Government these days. And one way to save wisely and well is to use So-CO-NY—the quality gasoline. It means minimum consumption and maximum power.

Inferior, low-grade mixtures mean waste in the form of increased consumption, lost power and excessive carbon deposits.

There's power in every drop of So-CO-NY. It's clean, quick starting; reliable; obtainable everywhere.

Look for the Red, White and Blue SO-CO-NY Sign. It's the wise way to save fuel.

A Howland, highway commissioner, Barney St., Andover, says: "I do a great deal of heavy lifting and I think this strained my back and affected my kidneys. Often when in a stooped position I could hardly straighten because of a sharp pain which caught me in the small of my back. The kidney secretions were unnatural, too. As another of the family had used Doan's Kidney Pills with good results I used a box, which I got at the Brundage Drug Co., and they relieved me in every way."

LESS SUGAR MUST BE USED

Every Consumer Should Read This

Commencing July 22 all Allegany County grocers are obliged to keep a record of all their sugar sales. The record includes the date of sale, the name of family, the number of persons included in the family, and the amount of sugar. No family is permitted to use more than three pounds for each person per month. Sugar shopping, that is buying at several stores, will not enable families to escape this ruling, as the records of the grocers are open to the County Food Administrator, and to Inspector Johnson. When a family is found to be hoarding, or using sugar in excess of the proper amount, they are liable to be shut off from further supplies and public announcement made. This will be very disagreeable. The only way to avoid it is to use no more sugar than the law allows.

Sugar for canning may still be had on the same basis as heretofore, but families who buy sugar and sign a canning slip will be expected to use it for canning only, and are liable to be very much embarrassed if they use it for ordinary purposes.

Flour is extremely scarce, and will be for a few weeks. There is no occasion for alarm. Plenty will be available by the middle of August. Meantime use substitutes freely, and depend more largely on pancake and other prepared flour.

GEO. C. ROSA,
County Food Administrator.
