GREENWOOD LOCAL BRIEFS

Spring moves this way slowly. But little grain sown.

The third Liberty Loan will be largely oversubscribed. The German drive is waking up buyers.

Heavy loads of hay are being hauled thru town to market. The farmers along the line have lost enough on hauling hay and being compelled to sell when they could move it, to purchase the amount of stock it would have been necessary for them to have purchased to have secured a railroad.

It seems somewhat strange that Ireland, having representatives sitting and voting in parliament, should defy the laws passed therein. Those voting on a measure should abide the result of the vote. To be a constituent part of a legislative body and then nullify all acts of the same that are disliked is a dangerous doctrine. Voting on a law presupposes that members would feel bound to accept the will of the majority.

Germany is trying to force a swap, sick Russian prisoners with Russia for healthy German prisoners. Probably the Huns want her healthy soldiers held as prisoners in Russia for her army and then force the healthy Russian prisoners into her ranks with them. What, won't they do?

A TRIBUTE TO "NEW THOUGHT"

MR. A. A. YOUNG

"I am not in the habit of praising any material medicine as I am an advocate of New Thought (skin to Christian Science) but some time ago, I had such a bad attack of *Liver and Stomach Trouble* that I gave up thinking I did not have it, and took a natural medicine, 'Fruit-a-tives' or Fruit-Liver Tablets.

Most gratifying was the result. It relieved my liver and stomach trouble, cleaned up my yellowish complexion and put new blood in my body.

While I am no hackslider from 'New Thought', I feel there may be times when a help to nature may be necessary; and if so, I believe that 'Fruit-a-tives' is the highest result of New Thought in medicine".

High Cattle Prices Accompany High Beef Prices

If consumers are to pay less for beef, live-stock raisers naturally will receive less for cattle.

If farmers are paid more for live stock, consumers will necessarily pay more for meat.

Swift & Company pays for cattle approximately 90 per cent of the price received for beef and by-products. The remaining 10 per cent pays for dressing, freight to market, operation of distributing houses, and in most cases, delivery to the retailer. Net profits also have to come out of this 10 per cent.

This margin cannot be squeezed arbitrarily without danger of crippling the only effective means of performing the complex service of converting cattle into meat and distributing this meat to the fighting forces and to consumers.

Swift & Company's net profit on beef during 1917 was only ½ of a cent per pound. On all products, it was a little less than four cents on each dollar of sales. Complete elimination of these profits would not affect appreciably retail prices of meat, or farm prices of live stock.

Swift & Company will be glad to co-operate in devising methods that will improve conditions in the meat and live stock industry.

Mrs. Bridget Dougherty died Saturday night, at the home of her son, Daniel of Sugar Notch, Pa., where she had spent the winter, and was shortly to return to Andover when stricken with her fatal illness. Her remains were brought to the home of her son, Michael in Andover, Monday, and funeral was held Wednesday, in Blessed Sacrament Church of which she was a most devoted member. A solemn requiem mass was celebrated with Father Sheehy celebrant, assisted by three visiting clergymen, and attended by a large concourse of relatives and neighbors. By her death is removed the last of South Hill's pioneer settlers, and we mourn Grandma Dougherty as a most exemplary Christian woman, devoted to her family, and above all devoted to her Creator. She was an honor to her community, who extend their sympathy to the family in their bereavement, the loss of a good mother. She was laid to rest in St. John's Cemetery.
