The Essential Truth

Emerson says of Plato: "Plato is philosophy; philosophy is Plato." He used this phrase to show that Plato incarnated the spirit of wisdom. Plato was of no school, acknowledged no debt to any system. He is philosophy. One's life-status is determined by the spirit of whatever he is.

What Is a Christain?

A Christain is a man and woman in whom the spirit that was the impelling motive in Jesus is their impelling motive. "For to live is Christ." In Jesus was a recognition of the sacredness of human life. He revered that which was twisted into the fibers of God's life. There is no difference in spiritual quality between God's life and the human life. God is the infinately good; man is the child of God with a forward destany. In the thought of Jesus a perfect destany lies ahead. "Be ye therefore perfect because your father is perfect.

Jesus Reverenced Life

That fact made Him one with God, one with all human beings, all, to the deepmost ditch of the uttermost disolution of soul. To reverence God with all one's soul and to reverence the God-life in one's neighbors as one reverences oneself is to live. This is the word of Jesus. It is this glory-love in Him, His Eternal hope, His terrific faith in life that gives Him the right to be the friend of the world.

The Application of the Principle

If one reverence his own individuality he will tolerate no motive, thot word, deed on which a shadow lies. He must live with his soul—there must be no ghosts.

If one know his neighbors—every one—are also as he immortal his personal, cultural, social, political, economic, international and religious contacts have got to pass the judgment of Fair Play.

If one reverence God—the qualities which God is will be naturally and necessarily the spiritual productions of men and woman. John, the Thunderer, says bluntly, "If a man say he loves God and hate his brother—he is a liar." One cannot reverence the eternal life which is God and not reverence the eternal life which is in human beings. If one say he believes humanity to be of one family, of common blood, of the spiritual qualities, of similar capacities of spiritual response—and then deliberately lives color-class-clan-creed conscious, he doesn't believe in the immortality of some, doesn't recognize a family relation, doesn't recognize a responsibility to some. To square this sort of thing with the Spirit of Jesus is impossible. One is not obliged to confess belief in Jesus. If one does if is His Honor to be Square.

A recognition of the sacredness of every human being would solve every social problem. Up to this hour the essential truth of the Religion of Jesus has not been made a consciousness. War could not be waged; color prejudice could not exist; capital and labor could not be antagonists; religious exclusions could not be the inexcusible condition that today beholds.

If Jesus is Right

If Jesus is right in His idea of the unity of the human family, and is right in His recognition of the immorality of the most depressed persons he found as is evident from his treatment of them, and is right in the doctrine in the story of the Prodigal Son, The Lost Sheep, The Good Samaritan—and these stories exemplify the value of the individual and recognize immortality, then we know what must be the spirit in our lives if we shall be comrades of Jesus.

To Be His Comrades

This is the vital consideration. That demands a fellowship of spirit. If any man have not the Spirit of Christ, he is none of His" This needs no debate. The object of the work of Jesus is to produce full-statured men and woman. When one is life he is at home anywhere in the Universe.

Polarine

"Like a Humming Bird?"

"Yes, she does run pretty quietly.

"Why? Well you see I'm very particular about keeping her engine correctly oiled. That has a lot to do with keeping motors quiet, smooth-running and powerful.

"Sure. There's never been a drop of anything but Polarine in her oil reservoir since your father bought the car.

"Yes, Polarine keeps her timing system running right and her cylinders, shaft bearings and all the other parts from wearing loose and shaking her all out of whack. Just as good in winter as in summer."

Polarine retains its body and lubricating qualities at all cylinder heats. Suits all types of engines. Saves wear and tear and expense. Buy Polarine where you buy power-full SoCOny Motor Gasoline—where you see the red, white and blue SoCOny Sign.

MAKE YOUR MONEY EARN MORE MONEY

Liberty Bond Interest, Exchanged for W. S. S., Will Continue to Earn Interest.

If you had some good farming land and seeds on hand waiting to be planted which would not need any of your time or care in order to grow and ripen into crops would you plant those seeds or would you just leave them laying around unnoticed?

Of course you'd plant them.

That is why the Savings Division of the United States Treasury is calling your attention to your Liberty bond coupons. The coupons represent the interest which the United States pays you for the use of your money. They are seeds which can be planted so as to bring forth crops of their own account. If you clip your coupons regularly and place them in War Savings Stamps they will bring you interest at over 4 per cent.

Many attractive-looking investments are fakes. You will lose your money if you buy them. War Savings Stamps are the safest investment on earth. They are the securities of the United States Government.

The United States is paying out interest on Liberty bond coupons twice a year. All together she will pay $810,000,000 in 1919. Think of how much this will bring again to Liberty bond owners if invested in War Savings Stamps.

Liberty bond coupons which are unclipped are lying idle and useless like the seeds about the house. Keep the following list of "clipping" days on hand and don't fail to cultivate War Savings Stamp crops with it:

June 15, interest on First Loan.
September 15, interest on Third Loan.
October 15, interest on Fourth Loan.
November 15, interest on Second Loan.
December 15, interest on Fifth and First Loans.

STOP! THINK! CONSIDER!

What are you worth—
(1) To your Government.
(2) To your department.
(3) To yourself.

During the war you clearly demonstrated your patriotism. You backed up effectively the "men behind the guns." You bought Liberty Bonds and War Savings Stamps. Your department contributed to every war activity.

You practiced Patriotic Thrift during the war.

Are you going to practice PERSONAL THRIFT in peace times?

Thrift requires Determination, but pays Dividends.

KEEP YOUR DOLLARS WORKING FOR YOU! WAR SAVINGS STAMPS ARE STEPPING STONES TO FINANCIAL FREEDOM.

BUY THEM.....KEEP THEM

BUY W. S. S.

Think of all the poverty-stricken foreigners who come here with the huge handicap of ignorance of the language, and of almost everything else, to make money, and do. Of course, as long as people are miserably poor they spend very little, but that is not the reason they thrive. The reason they succeed is mainly that they expect to succeed and accordingly do succeed.

BUY W. S. S.

"If you'll save us," the thrift stamps said, "oh, you will happy be!
For instead of vanished quarters soon a W. S. S. you'll see!"

ATTENTION!

What about that Liberty Loan Interest?

Liberty Bond coupons are not interest bearing.

But they may be made paying investments by converting them into

WAR SAVINGS STAMPS.

SAVE FIRST!
SPEND AFTERWARD!

The interest Coupon for Interest on the First Liberty Loan, June 15, may be exchanged for WAR SAVINGS STAMPS.

HOW MUCH DOES LIVING COST YOU?

Smallest Amount for City Woman Is $15 Weekly, Government Experts Say.

Can you live on $15 weekly? Government experts say that the smallest weekly amount on which a woman living in what is known as a "third" class city can maintain herself decently is $15. Could you make $15 a week cover all your living expenses, from one year's end to the other, and if you are doing it, or intend doing it, just how?

Room and board, according to government figures, should cost the $15 per week feminine worker $6.67, this sum to include lunches. Clothing is placed at $4.60, with $3.60 left for all other and miscellaneous expenditures, such as carfare, dentist and doctor bills, laundry, all purchases not actually clothing, an occasional picnic or movie, and so on. The unreckoned weekly balance of 8 cents may account for postage, but otherwise it will not go far.

War, it is hoped, is over forever, but changing economic conditions at any time may work hardship to poorly or even well paid workers. The part of wisdom, therefore, is to make some sort of provision, however slender, however arduously accomplished, for such possibility. The slighter the regular financial margin the sterner the necessity. For such necessities and emergencies Thrift and War Savings Stamps most admirably suffice.

The purchase of even a single Thrift stamp weekly means $1 a month put into the safest of all investments, government securities. Four months will represent the sixteen Thrift stamps, with a few pennies added means inter realization of $5. And even if a War Savings Stamp can be purchased but three times yearly the future situation will be brighter by a regularly increasing contingent of income-bearing investments.

It is fun to save as a future-profiting game!

REASONED TESTIMONY

"It takes in Andover who suffers with kidney ailments, headache, or distressing urinary ills can afford to ignore this Andover man's twice-told testimony that he is confirmed testimony that he was over resident can doubt.

A. Wilcox, prop. Wilcox Hotel, Main street, gave the following statement October 5, 1916: "I have used Doan's Kidney Pills off and on for several years. When I have an attack of kidney trouble, I suffer from lameness and soreness across the small of my back. It affects me worse in the morning when I first get up. The action of my kidneys is irregular and the secretions are highly colored. I use Doan's Kidney Pills right away, getting them from the Brundage Drug Co., and they always fix me up."

On August 13, 1919, Mr. Wilcox said: "Doan's Kidney Pills surely are a fine kidney, backache and bladder medicine. I recommend them to any sufferer and you may use my name."

What's the use, Folks—What's the Use!

WHY take honest-to-John Tobacco that nature grew for us all—and then "spill the beans" by messing it up with lolly pops?

Velvet isn't fooled with that way.

Velvet has just naturally relied on Nature since it was knee-high to a grasshopper.

First off, it was bred in old Kentucky, wonderland of Tobacco.

Next come, it was cured in the open air, right out with the good ole sunshine. Yes *sir.*

THEN it was gentled along by its lonesome for two years, while it just kind of thought things over and decided to have no bad qualities.

After these two years in wooden hogsheads it was packed in the jolly red tin you see everywhere, if you're not color blind—and we hope you're not.

As Velvet Joe says:

"The way Nature does things is best for man and his tobacco. You can't fool Nature—an' she won't fool you."

FIFTEEN cents seems a pickayune price, doesn't it, after all that?

Can you think, right off, of anything *more* or *better* for a dime and a nickel? And for cigarette smokers—there are 45 mellow cigarettefuls in every Velvet tin.

Velvet sure will be right glad to meet you this very day.
