Every Family a Family of Fighters

THAT is the war-time spirit of true-blue Americans—the spirit that will win the war. The day of talking patriotism has passed—the time has come to *practice* it.

Your government has officially set—

Friday, June 28th

National War Savings Day

On that day every American is summoned to "sign the pledge"—to save and invest in a definite amount of War Savings Stamps each month.

Every real American will prove his patriotism by agreeing to regularly paste the Kaiser

W. S. S. cost $4.17 in June,
Worth $5.00 on Jan. 1, 1923

Remember the date--June 28th--Help the fighters fight!

—Harmes W. Hardy graduated at Boston last week, in the course in aviation and is now an ensign in the navy and an officer in the aviation, receiving his commission after completing fourteen weeks flying. He left Sunday for the aviation field at Miami, Florida.

—Harlan Benedict, son of Mr. and Mrs. H. A. Benedict, of Wellsville, is visiting his parents. Mr. Benedict has been advanced to the rank of ensign in the Naval Reserves and has been stationed for some months at Norfolk, Va. Ensign Benedict is accompanied by his wife who was formerly Miss Inez Keefe, of Portmouth, Vd.

—Private John J. Casey, of Camp Dix, was called home suddenly on account of his father's death the first of the week. He made the News office a very welcome call, telling how nicely the Andover boys located at that camp are getting along and developing into first-class soldiers. He started back for camp Thursday night.

—Noted anti-Mormon crusaders will speak in Andover churches, on "Polygamy, a National Menace." Former Mormon priest, X. C. Latimer, will speak in Methodist Church, 8 p. m., Tuesday, June 25th. Mrs. Emma Loveland Shepard, of Salt Lake City, will speak to women only in Presbyterian Church 3 p. m., Wednesday, June 26th.

—New Red Cross members for the month of May, 1918: George Cummings, J. H. Faisant, Wm. Farley, Charles Hammond, Wm. Lauterborn, Raymond Guinn, Mrs. Ethel J. Kemp. Renewal members: Mrs. Charles Cheesman, C. E. Cleveland, Rev. V. L. Eggleston, Bart Joyce, Mrs. Valencia Slocum, D. M. Smith, Zadie L. Smith, Lynn Trowbridge, Floyd Tuller.

—The meeting of the Farm Bureau Wednesday evening, drew a good audience of representative farmers of this community. R. Q. Smith of the Farm Bureau talked upon potato spraying and Prof. Barron spoke upon legumes. The following town committee was chosen to represent Andover in the farm work: T. J. Lynch, chairman; Pat Hyland, Frank Mead, Lewis Snyder, H. Horan.

—Frank Lawless, of Bolivar, recently received notice by the British Government to report for examination for an examination for military duty. Mr. Lawless, who is 30 years of age and unmarried, has lived in this country a number of years, but had not taken out naturalization papers. He has enlisted in the Imperial recruits and is now stationed at Camp Edward, Windsor, Nova Scotia.

—M. F. Wykoff, our village policeman, gave the editor and family a fine treat Saturday by bringing us a large portion of turtle stew for dinner. It was delicious. Besides being an efficient police officer Mr. Wykoff is one of the best fishermen Andover has ever known. He goes out with pole and reel and seldom comes back with an empty basket. He gets the speckled beauties by going over the same territory others have tried and failed on.

—Private Jamison, son of Mr. and Mrs. J. Jamison of Canisteo, died Saturday morning, aged 19 years. June 5, 1917 he enlisted and was sent to Fort Benjamin Harrison, Ind. Within two weeks he was in the hospital with scarlet fever and rheumatism. Upon his recovery he was transferred to Rock Island, Ill. He was again taken ill and after fourteen weeks in the hospital was brought home five weeks ago. Deceased was a fine young man whose life seemed full of promise.

—A Hornell man has grasped the "opportunity of the present," and started a white rat farm. Marshall Baird, No. 54, Sherman Street, that city is now making shipments of several hundred each month. The rats are used in various laboratories in New York and other cities where serum is made to inject into our soldiers to protect them from disease. They are also used in the trenches to detect the presence of poison gas, to which they are acutely sensitive and give warning several moments before its presence by burying their heads in the dirt. Thousands of lives are saved, it is claimed by this. So it seems even the despised little rats are able to do their bit.
