our work will be about the same as here but of course will assume a more serious aspect. We are always ready here but we know that any attack must first come thru the front lines. Then too, only shell fire can reach us here. I will write you a detailed account of conditions as we find them here.

At this late date I believe there is no harm in writing that we saw a submarine about the 5th day on the ocean. It was a beautiful afternoon and I with many others, was sitting on the very top deck watching the deck crew hoist freight out of the hold when suddenly we saw something stick out of the water and then go down. At first by its actions we thot it a porpoise, then as the periscope emerged we could see it focus on our ship. We gave the alarm and an English destroyer, which had just passed us, turned and came full speed to the spot. As it passed over the place the submarine was last seen a depth bomb was dropped. The explosion was so great that it shook our ship. Nothing could be seen but later it was officially reported that the sub was sunk. I believe another was cited a little later and another bomb dropped but the result was unknown. The submarine came up almost in the middle of our convoy; how it crept in without being observed no one can guess, but another moment or two and doubtless a torpedo would have been fired. They must have been getting the range when the destroyer came from the opposite direction. It was all a very interesting sight, and as it happened so quickly few thought of the danger until it was all over.

The mail is in, but none for me to-day. All the B. E. F. mail is coming now.

Love to all,
Herbert.

ARE YOU A SUGAR SLACKER?

Owing to an acute shortage of sugar which cannot be relieved before November, the American people are asked to use only two pounds of sugar per person per month. Every family can readily tell just how much that is, and every housewife knows in advance that this figures out one pound of sugar for 45 meals. It will take about this much for a careful use on the table, and therefore practically all of the sweetening in cooking must be done with corn syrup, molasses, maple syrup, or honey. Your grocer is required to keep a record of your sugar purchases, and is forbidden to sell you sugar in excess of the amount stated. It is wrong for you to try to get more sugar by buying an additional supply of some other grocer. A comparison of the grocers' sugar books shows that some Allegany County families bought their month's allowance during the first half of the month. You must not get cross at your grocer, or even depend upon him to prevent you from over-buying.

Sugar for canning can be obtained on the same basis as heretofore, except that grocers cannot generally spare more than ten pounds at a time. Don't object to signing a slip, or complain at his request that you tell what you have canned with your previous purchases.

County Food Administrator.
Wellsville, N. Y., Aug. 19, 1918.

SPECIAL PRIZES FOR DOG SHOW.

The fact that there are four hundred classes for all breeds of dogs exhibited at the bench shows of this country gives an idea of the size and importance of the annual Dog Show at the New York State Fair.

The special prizes offered by the leading kennel clubs of America and individual fanciers are bound to bring a large entry to Syracuse and stimulate competition.

Among the breeds of dogs to be exhibited are great danes, Russian wolfhounds, greyhounds, foxhounds, pointers, setters, Spaniels, collies, sheepdogs, bulldogs, airedale terriers, French bullogs, dalmatians and Chow Chows.

The Mounted State Police will have their second experience in handling big crowds at the State Fair. The presence of the State Troopers insures proper control of traffic and the best protection for Fair visitors it is possible to afford.

INTERESTING NEW YORK STATE PARAGRAPHS

Gov. Whitman will visit Rochester on Sept. 6.

Penn Yan reports the largest bean yield in several years.

Dennis Lawler of Olean is a Democratic candidate for sheriff.

Warsaw has been selected as the meeting place next year of the Wyoming County Firemen's association.

Water rates in Dunkirk has been raised from seven to ten cents a gallon.

Genesee farmers say they have more beans than they know what to do with.

The largest barley crop in years will be threshed this fall in Orleans county.

Dunkirk high school will teach automobile repairing in its manual training course.

Earl D. Cook has purchased the Seneca Falls Reveille, run by the late Henry Stowell.

Potato bugs are so plentiful in Penn Yan they fairly cover the sidewalks on many streets.

Ellicottsville's home defense guard has received 12,000 rounds of ammunition, but no guns.

State troopers are having plenty to do rounding up slackers around Painted Post and Corning.

A. W. Woods of Albion has been offered $2.50 per bushel for his peaches. He has some 500 bushels.

It is reported that the Olcott Beach hotel is to be taken over by the government for convalescent soldiers.

Lockport's city hospital the past year was not only self-sustaining, but has a balance on hand of $2,231.31.

Brockport fair officials have ruled that the midway shows there may go the limit, if they are worth the price.

Plans are being made for the construction at once of 350 houses for war industries workers in Niagara Falls.

Chili's dry storage warehouse, being erected by E. P. Higbie, will be one of the best equipped in Western New York.

Chautauqua county fair is offering this fall $4,000 in premiums, and the race program contains $3,500 in purses.

Hornell milkmen are sustaining heavy losses by plunderers, who purloin money and tickets and smash bottles.

Work has begun at Burt, Niagara county, for the new packing house of the Co-Operative Fruit Growers' association.

William H. Newman, former president of the New York Central railroad, died in New York at the age of 71 years.

John A. Talbot's cold storage plant at Spencerport was struck by lightning and burned down, causing an $8,000 loss.

Grenville R. Safford, connected with the Batavia News for 30 years, has resigned to take a position on a Philadelphia paper.

Boys between 16 and 19 years of age in Niagara Falls will organize a regiment of 12 companies, with 110 cadets in each.

Livingston county's Class 1 of the draft has been exhausted so that it will be unable to furnish 22 men for the August call.

Senator Theodore Douglass Robinson gave out a statement in Utica in which he declined his designation for renomination.

Wilbur C. Place, designated by Democrats of Livingston county as a candidate for member of assembly, has declined the honor.

Federal agents visited Watervliet and within half an hour closed 13 saloons within a radius of half a mile of the big arsenal there.

It is planned to close the Erie branch railroad between Painted Post and Kanona, diverting all traffic to the Lackawanna railroad.

Three barrels of apples have been offered by the Niagara County farm bureau as a prize for the best design for a county brand of apples.

Pump measuring devices are to be manufactured by the Vitbul Automatic Measuring company of Jamestown, a new $150,000 concern just incorporated.

Official notice has been received by the fuel administrator of Chautauqua county that it will get 24,000 tons less of coal next winter than estimated requirement.

A report of the Geneva jail the past year shows 808 arrests, 26 being women. About 600 were locked up, 62d being for intoxication. There were only 12 lodgers.

Many rural teachers of Orleans county are paid only $400 to $500 a year, with no yearly increase, said to be the lowest salaries for the service in Western New York.

Governor Whitman, in a formal statement at Albany, declared himself as favoring the renomination of Lieutenant Governor Edward Schoeneck of Syracuse and the nomination of Charles D. Newton of Livingston for attorney general.

The interstate commerce commission has denied an application of the Buffalo & Lake Erie Traction company for an increase of freight rates between points on its lines.

Hearings are to be held in several cities, including Rochester, on Aug. 17, on the question of closing the season for ruffed grouse (partridge) shooting for a period of two years.

[illegible] that were pastured by the Erie county agricultural society on the Hamburg fair grounds kept the weeds and grass down and returned a profit besides.

At the Cuba fair, on Sept. 10 to 13, it was proposed to pay premiums in war savings stamps, but it has been found that to do so there would have to be an act of the legislature to authorize it.

Mrs. Fred Vogt of Dansville last winter found her pet hen so badly frozen that one of its legs dropped off at the knee. She rigged up a contrivance, so the hen now goes around on a wooden leg.

In the July State Bulletin the Holley high school is given an average of 87 per cent on regents' reports, being only exceeded by Homer, with 95.4 per cent. Albion and Medina averaged 85 per cent.

The coal situation in Holley is beginning to take on a brighter aspect. One dealer received 15 cars of coal last week. Orders are coming in rapidly, but no more than two tons is allowed one householder.

Castile is experiencing trouble in securing teachers for the high school. Professor Houck of Buffalo, who had been engaged as principal, has gone into war service. John W. Willcox will be the agriculture teacher.

Groups of boys sent out early in the season by the Boys' Working reserves, Rochester district, are beginning to return, and most of them are making application for reassignment to late summer and autumn work.

With the entire crop of peaches in the Western New York territory estimated at but 2,000 to 2,500 cars, against a crop last season of about 7,000 cars, it now develops that a half dozen growers in the township William M. Bennett, former state senator, announced in New York that he had decided not to be a candidate for the Republican nomination for governor, but would seek second place on the ticket as a supporter of Attorney General Lewis.

Hornell farmers believe that potatoes will drop to 50 cents a bushel this year as a result of the unusually large crop that is indicated. The blight has struck large sections, but has not done serious damage and the crop will be a bumper one.

Reports from rural towns in Northern Chautauqua county state that skunks are making nightly raids on bee hives and eating the honey. One farmer near Sinclairville lost 50 pounds of honey. A number of others report having lost similar amounts.

Of Greece probably have the heaviest crops of any growers between Sodus bay and the Niagara river, the limits of the peach belt in that territory. Five of these growers have pooled their crops and propose to sell in a lump according to information elicited there.

Mayor Carlson of Jamestown has been requested by the common council to call a meeting to that city, to be represented by various cities in Western New York and Pennsylvania dependent upon natural gas, subsequent to the gas hearing before the public service commission in Buffalo.

Twelve thousand sugar cards were distributed among dealers throughout the different towns of Genesee county and hereafter these cards must be used by all customers who are entitled to purchase two pounds of sugar per person a month. Of this number 4,500 cards were placed in the hands of Batavia dealers.

The output of peas from the Bergen cannery of the Curtice Brothers' company during the season just closed was 2,500,000 cans, which is the largest number ever. The canning of tomatoes will begin this week, to be followed with canning of lima beans and corn. A corn husking machine that will husk a ton of corn an hour has been placed in the cannery.

Governor Whitman has appointed as commissioners of the Herkimer Home at Danube, Mrs. E. S. Callan Frankfort; Dr. Mary S. Ford, Utica; F. W. Christman, Herkimer; Colonel Frank West, Mohawk. The appointments were made in accordance with an act of the last legislature, designed to remove German-American Alliance influence from the management of the institution.

Not before in many years has so much barley been raised by the farmers in the Chili Station region as during the present year. This is due chiefly to the unusual demand and high price paid for this grain, which is being generally used as a substitute for wheat flour and to take the place of cornmeal for feeding purposes for stock. The yield on most of the farms has been satisfactory.

Dixon Brothers of Penn Yan and Hall have shipped their first car of fruit of the season, which is the beginning of what will probably be the biggest shipping season known in years, according to the fruit growers. Not because there is such a large crop of fruit and produce, but there will be such a demand for everything, all farmers will make an extra effort to harvest and market all the food grown. The first car of fruit consisted of early apples, plums and pears and was consigned to Baltimore the greatest eastern market for fruits.

"Waiting to buy it right?" To-day may be the right day — so it may not. [illegible]

CHARACTERISTIC SCENE NEAR ENTRANCE TO MANUFACTURERS AND LIBERAL ARTS BUILDING, NEW YORK STATE FAIR.

UP TO YOU!

Women and Men Enrolled Republican Voters of the 37th Congressional District:—

YOU ARE CONFRONTED WITH A DUTY TO YOUR COUNTRY ON THE COMING PRIMARY DAY, SEPTEMBER 3RD, IN CHOOSING A NOMINEE FOR CONGRESS, THE LIKE OF WHICH YOU HAVE NOT BEEN CALLED UPON TO FACE IN YOUR LIFETIME.

YOU CANNOT SHIRK THAT DUTY—IT CANNOT BE DECIDED BY ANY OTHER ELSE FOR YOU—IT IS ENTIRELY UP TO YOU!

YOU OWE IT TO YOUR COUNTRY AND YOURSELF TO GIVE THOUGHT AS TO HOW YOU SHALL CAST THIS PRIMARY BALLOT AS YOU HAVE NEVER DONE BEFORE.

YOUR FUTURE—YOUR COUNTRY'S FUTURE—YOUR LIFE AND THAT OF YOUR SON AND YOUR NEIGHBOR'S SON ARE AT STAKE.

THINK

Your plain duty is to listen to all of the arguments and reasons advanced, but you will not be swayed or influenced in casting your ballot by anything but carefully thought out and deep seated convictions.

You realize that this is a year when your duty to your nation is to send to Congress as your representative a man having the best possible equipment to work out the problems that stand in the way of early victory and lasting peace.

You recognize this debt to your nation as an obligation more sacred than the complimentary bestowing of a vote to advance one candidate's interests over another.

You recognize this as the year when as President Wilson has declared, "Politics must be adjourned." We need MEN in Congress and the Politicians must wait. For we need the OFFICE of Congressman more than they do the monetary emoluments of the honor.

That is why the time-worn tricks—the verbal pyrotechnics of the glib and oily-tongued professional office-seekers do not make any impression this year. The man we send to Congress must be able to put the interests of Congress before his own selfish interests—must be big enough to forget his own ambitions and remember just one big issue

You must see to it that men of keen discernment and ability are drafted for the Congressional chairs just as we draft our men for the fighting service. There are no issues in the United States now save those of war. Politics went out of existence when khaki came into habit.

You should make your choice for Congress by looking over the candidates with the closest scrutiny—look with a mental microscope into their characters and their records—determine accurately by WHAT THEY HAVE ACTUALLY DONE IN THE BUSINESS WORLD, WHAT THEY CAN AND WILL DO.

You know that the demand all over the country is for a Congress of business brains, and the greatest possible business training and experience to back up the President in helping win the war.

You know that we are confronted with the possibility of Five Million of our men in service in Europe within a year and with finance and production to be the unprecedented problems of solved by Congress, Washington is sorely in need of men of vision and experience.

YOU WITH ALL OF US—SOLDIERS, SAILORS AND CIVILIANS, BELONG TO THE ONE PARTY OF UNCLE SAM.

YOU CAST YOUR VOTE FOR HIM WHEN YOU VOTE TO NOMINATE THE MAN WHO BY HIS THIRTY YEARS OF REMARKABLY SUCCESSFUL BUSINESS CAREER HAS PROVEN HE WOULD BE THE HIGHEST TYPE OF CONGRESSMAN—OUR CANDIDATE AND YOURS, A. B. HOUGHTON.

Respectfully Submitted
37th DISTRICT REPUBLICAN COMMITTEE
ON NATIONAL PREPAREDNESS
(Representing more than 7,000 Signers and Urgers of A. B. Houghton for Congress.)

OUR NATIONAL CAPITAL

Events of Interest From the Seat of Government by the News Special Correspondent, J. E. Jones.

WHO'LL WEAR THE PANTS?

Washington, D. C., Aug. 17.—When supremacy in the home passed from the male head of the institution to the wife, people used to remark that it was "the missus who wears the pants;" and if this standard of measurement is to be applied nowadays it is going to be rather difficult to determine whether it is the men, or the women, "who'll wear the pants," and manage the affairs of the world. The village school ma'ams and belles are now doing a large part of the work in Washington, and they have replaced men in the Government departments in thousands of cases. The munition plants are filled with women; and in the industries they are doing every bit as good service as men.

Reports from England upon this phase of industry are interesting, since the Mother Country undoubtedly moves even slower than we are going. Nevertheless 1,500,000 women have directly replaced men since the beginning of the war. The figures from France and Italy are even more surprising in character. In Germany and Austria the burdens of labor have fallen almost entirely upon the women. Gradually women are taking their places in the ranks of industry shoulder to shoulder with men.

The Triumph in Industry

There is no denying the fact that there is a great shortage of labor thruout the country, and in order to better regulate conditions the Government has instituted its Employment Service, and already there have been good results. Secretary of Labor Wilson, in speaking of the German propaganda among the laboring classes said that if the philosophy of sabotage and striking upon the job had been tolerated, it would have resulted in decreased production and a lowering of the standard of living of those who were actually doing the physical labor. The secretary has pointed out the fact that the most efficient laborer is the American wage worker, who "produces more than any other wageworker in the world, notwithstanding the much advertised efficiency of the German workmen."

Labor has put its heel on the cobra-headed I. W. W. doctrine, labor has taken the best out of the philosophies of the Non-Partisan League and similar institutions, and has consigned the rest of the doctrine, and the exploiters, to the scrap-heap.

Employers and employees have triumphed, and it is clear that henceforth the existing difference will be settled by amicable methods that the Government has supplied. The glorious vindication that democracy is achieving in France is likewise winning its victories in the industrial establishments of the United States.

Wage Increase Decisions

The National War Labor Board, of which former President William H. Taft and Frank P. Walsh are joint chairmen, rendered decisions one day recently giving substantial increases in wages to 50,000 employees engaged in twenty-two street railway enterprises. The percentage of increase in the awards ran from 35 to 40 per cent. in the larger cities, including Chicago, Detroit, Newark, and Rochester. In New Orleans the increase was 50 per cent, and in Galesburg, Illinois, it reached 65 per cent. A flat wage of 50 cents an hour was fixed in the Chicago case, and overtime work was arranged at time and a half pay, thus placing the employees on the same plane as skilled mechanics in Government industries.

Paul M. Warburg, of the Federal Reserve Board, in a recent address spoke of the "drastic shrinkages" that have occurred in public utility investments, and he expressed some alarm at the outcome. The records show that four companies with outstanding securities aggregating $250,000,000 have gone into the hands of receivers this year. The utilities are paying increases of from 90 to 150 per cent. for fuel from 35 to 300 per cent. for materials, and from 40 to 50 per cent for labor.

It is easy for the average mind to figure out why these increases in wages and other items of operation occur, but it is a little slower, but just as inevitable, a process to figure out that the five cent carfare will have to make the same kind of an exit that has been made by the five cent loaf of bread and the five cent quart of milk.

Roosevelt on Our Industries

Once in awhile Colonel Roosevelt talks about things in a way that all agree with—whether they are partisans or foes of the ex-President. Mr. Roosevelt has recently said that "in our industrial activities, alike of farmer, wage worker and business man, our aim should be co-operation among ourselves and control by the state to a degree necessary, in order to prevent tyranny and yet encourage and reward individual excellence." Colonel Roosevelt says that "government ownership should be avoided wherever possible; our purpose should be to steer between the anarchy of unregulated individualism and the deadening formalism and inefficiency of widespread state ownership. From time to time it has been found necessary for the Government to own and run certain business, the uninterrupted prosecution of which is necessary to the public welfare and which cannot be adequately controlled in any other way, but normally this is as inadvisable as to permit such business concerns to be free from all Government supervision and direction.

"Normally, and save where the necessity is clearly shown, our aim should be to encourage and stimulate private action co-operation subject to Government control."

Uncle Sam Will Rule the Wave

Five years ago American ships were as invisible as whales, and voyagers to Europe and South America frequently returned without cut seeing either. But American ships are hopping into the ocean with more speed than American automobiles achieved ten or a dozen years ago. Just think of it. There were 123 new vessels launched in July, with 631,944 dead weight tonnage. No previous twelve-month period in American shipyards equals this record. A few months ago the pessimists were predicting the failure of our ship-building program. That was when the yards were building, and the material and workmen were getting things in shape to start things. Now, even Americans, who are used to marvelous achievements, are surprised at the records in ship building, and it is confidently predicted that one of the results of the war will be that "Uncle Sam will rule the wave." Great Britain will be distanced before long, at the rate we are going.

A Voice From Colorado

The paragraphers from the National Capital need no longer claim superior knowledge of conditions, as none of them could very well say more in fewer words about "Government Ownership," than the editor of the Middle Park, Colorado, Times who observes: "In the taking over by the Government of the telegraph and telephone lines, there is plenty of material for thought as to whether it will work out the same in these lines as it has in railroad affairs. It certainly is to be hoped that the rates will not be raised, but in view of the fact that Colorada companies have already asked for a raise in rates, and the Denver papers are some of them tearing their hair about it, that would seem to be what we may expect."

KEEP OLD GLORY WAVING
A Weekly Review of What Your Food Administration and Your State Food Commission Are Doing to Help You Win This War.
By AUGUSTIN M'NALLY
Bureau of Publicity N. Y. State Food Commission and Federal Food Board

Let Us Give Thanks.

Reports reaching Calvin J. Huson, director of the Bureau of Production of the New York State Food Commission, indicate that the state will have a record yield of spring wheat, that the barley crop in the western part of the state will exceed expectations and that the rye crop is in fine condition. Corn is the only backward cereal in the state.

Now that the harvest season is at hand, with promise of generous crops in New York and other states, let us give thanks to Him who knows every blade of grass that grows for His bounty—thanks that we shall have enough to feed our soldiers across the sea, our people at home and supply the needs of our comrades in the war. And let each one of us, man, woman and child, promise to be saving in the use of all foods, particularly sugar, wheat and meats, that we may have plenty of these vital foods to spare for those who are fighting so valiantly against the common enemy to the end that Right and Justice and Liberty may triumph throughout the world.

BIG POULTRY EXHIBIT.

Great things are anticipated with regard to the exhibits in the spacious State Fair Poultry building this year. Few of the uninitiated appreciate the magnitude and wonders of the annual poultry show on the Fair grounds. It is now a matter of common knowledge that the Syracuse exhibition of poultry surpasses that of any State Fair in the country, and it may safely be claimed that in the number and variety of entries it one year made a world record for poultry expositions. All the prospects favor another superlatively fine array of poultry at the coming Fair.

The interesting store's advertisements are interesting. And, as you know, this city has some very interesting stores.

Packers' Profits —Large or Small

Packers' profits look big—
when the Federal Trade Commission reports that four of them earned $140,000,000 during the three war years.

Packers' profits look small—
When it is explained that this profit was earned on total sales of over *four and a half billion dollars*—or only about *three cents* on each dollar of sales.

This is the relation between profits and sales:

Profits
Sales

If no packer profits had been earned, you could have bought your meat at only a fraction of a cent per pound cheaper?

Packers' profits on meats and animal products have been limited by the Food Administration, since November 1, 1917.

Swift & Company, U. S. A.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD IN 1918

Practically a Daily at the Price of a Weekly. No Other Newspaper in the World Gives so Much at so Low a Price

The value and need of a newspaper in the household was never greater than at the present time. We have been forced to enter the great world war and a large army of ours is already in France. You will want to have all the news from our troops on European battlefields, and 1918 promises to be the most momentous year in the history of our universe.

No other newspaper, at so small a price, will furnish such prompt and accurate news of these world-shaking events. It is not necessary to say more.

THE THRICE-A-WEEK World's regular subscription price is only $1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Andover News together for one year for $2.25.

The regular subscription price of the two papers is $2.50.

NOTICE TO CREDITORS

Pursuant to an order of Hon. Elba Reynolds, Surrogate of the County of Allegany, notice is hereby given to all persons having claims against the estate of Louisa M. Dickinson, late of Andover, N. Y., deceased, to present the same with proper vouchers thereof to the undersigned Executrix of the Last Will and Testament of the said deceased, at the Law Office of Crayton L. Earley, in the Village of Andover, N. Y., on or before the 1st day of February, 1919.

Dated July 18, 1918.

MRS. ABBY J. NICHOLS,
Executrix.
