GREENWOOD LOCAL BRIEFS

Signs begin to appear showing that the Germans intend to try again for world supremacy. They do not intend to get out of their present bad fix before starting another row. They believe they came near winning this time and even Marshal Foch admits it they had struck for the channel ports instead of driving for Paris first, they would have been successful and they will profit by their mistakes. Had they abandoned their submarine policy at the protest of the United States they would not have forced this country into war and would have succeeded.

It is stated on good authority that they are manufacturing cannon secretly and on a large scale, and that they are secretly storing guns and munitions for future use. France is living in fear expecting another blow is being prepared and it seems clear that the only safe way for the Allies to protect themselves is to make Germany harmless by making her smaller. France and Belgium should have the territory between their borders and the Rhine. Poland should have Danzig and the German territory east of it, and no part of the collapsed Austrian empire should be added to Germany. Make it small enough for safety. A great danger lies in German influence in Russia as they already control it, and when they get it with its one hundred and forty millions of inhabitants Germanized and added to Germany's seventy-five millions, they can then defy the world. The only safe course for the world to-day is to render the enemy of the civilized world forever incapable of her evident purpose.

The big loan is starting in with promise of the greatest success. The American people know a good thing when they see it.

A TEACHER OF "NEW THOUGHT"

Believes "FRUIT-A-TIVES" Highest Result of "New Thought" In Medicine.

MR. A. A. YOUNG

"I am not in the habit of praising any material medicine as I am an advocate of New Thought, but some time ago, I had such a bad attack of *Liver and Stomach Trouble* that I gave up thinking I did not have it, and took a natural medicine, 'Fruit-a-tives' or Fruit Liver Tablets.

Most gratifying was the result. It relieved my liver and stomach trouble, cleaned up my yellowish complexion and put new blood in my body.

While I am no backslider from 'New Thought', I feel there may be times when a help to nature may be necessary; and if so, I believe that 'Fruit-a-tives' is the highest result of New Thought in medicine".
