THANKSGIVING DAY

Jean Millspaugh

Thanksgiving Day, the last Thursday in November, is a time for great rejoicing thruout the land. This day should be a day of all 'round good cheer and happiness for most of us.

As we all know, Thanksgiving Day has been a holiday since the time when the Puritans praised and thanked God for His tender mercies. He had blessed them and had sent them thru hardships of all discriptions. From that time on Thanksgiving Day has been set aside, not for feasting only, but for thanking God as well. Even tho we think that things aren't as they should be, let's thank God that they aren't any worse.

It can't do us any harm to stop and count our blessings. That's what Thanksgiving is for. It's a very good time to stop and think how lucky we are that we are even alive. We must try to express our gratitude so that people know we are grateful.

If we do that, Thanksgiving Day will mean more to us than just a chance to fill up on turkey and pumpkin pie.

"We take our lives, our joys, our wealth,
Unthanking every day;
If we deserve or we do not,
The sun it shines always,
So in this life of daily toil,
That leaves short time to pray,
With brimming hearts let's humbly keep
Our true Thanksgiving Day."

EDITORIAL

THANKSGIVING DAY

Jack Regan

Thanksgiving, a national holiday in the United States, is a day of grace and thanksgiving for our many gifts granted us by God.

In 1623, Governor Bradford, second governor of the Plymouth colony, made provisions for a day of thanksgiving after the pilgrim's harvest.

In 1817 New York adopted this custom and later it spread to many other states. In 1864, President Lincoln appointed a day of thanksgiving and since then the presidents have issued Thanksgiving proclamations, generally designated for the last Thursday in November.

We all have many things to be thankful for, even in these times of depression and suffering. Why not show God we are thankful for the many graces He has bestowed upon us and prove to Him that we have not forgotten Him?

A TURKEY'S ADVICE

Delores Farwell, Eighth Grade

"Now, mind me, my children,
And do as I say
When the farmer comes with an ax
You'll all run away;
For he'll cut off your head
And stuff you with spices,
And then your blue blood,
Will turn to some ice.
He will put you on a platter,
Two feet long,
From plate to plate your body will scatter,
Like a regular song.
You'll be ground up like saw dust,
By a big white man's teeth,
And then you'll regret
All your misdeeds.
"Now my dear children,"
Went on mother hen,
"You must listen carefully,
"Or there'll come a quick end."
Now Ruth you run to the chicken coop,
And Danny to the house,
And Dophie to the milking room,
Where you won't see a mouse."
"Here comes the farmer,"
Said little Jack
And away they scampered—
To escape from the ax.

—A-H-S—

NOW—

Donald, don't eat too Hardy a dinner Thanksgiving.

Charles, don't forget to give your "thanks" Thursday.

Howard, go easy on the turkey.

Johnny, don't go rabbit hunting.

Maxine, save the turkey's "wishbone" (be sure to make a wish.)

Gertrude, don't giggle at the dinner table Thursday.

Regina, don't spill the cranberry sauce on your dress.

All of you—have a good time during the vacation.

Remember to come to school Monday!

—A-H-S—

A copper nugget found last year weighed 35 tons.

ACROSS THE PRINCIPAL'S DESK

In 1929 a committee of nationally known educators set about to formulate the outstanding objectives of education—to make a specific listing of the principal contributions public schools should give to the boys and girls who attend them. The result was the publishing of the now famous "seven cardinal principles of education," and a rather startled world read as objective number one —not reading, nor arithmetic, nor citizenship—but health.

That the health of our children is of great importance cannot be denied, for upon it depends the health of our adult community. Nor can we rightfully suppose that America is a sufficiently healthy nation that we need feel no great concern over community health. Medical examination of the drafted men at the time of the World War revealed that a large percentage could not be accepted for active duty due to physical defects.

Most physical defects can be remedied, if treated early enough. It is not for this reason that I strongly believe the annual medical examination of our school pupils and the reports and follow-ups to be one of the most important contributions of our school. This year we have arranged for a thoro examination completed early enough so that pupils may reap benefit of treatment during the present school year. Knowing the ease with which reports of defects can be ignored or put off, I am personally urging each parent receiving a notification during the current two weeks to make immediate plans for giving it the proper attention.

Other things which we are attempting to do in Andover High School to promote the health objective include regular health instruction thruout the first nine grades from textbooks, daily health inspection of grade pupils to insure cleanliness and freedom from skin diseases, careful attention to the sanitary conditions of the building, particularly lunch rooms and toilets, and co-operation with the state in promoting the drinking of more milk by school pupils.

Last week I called attention to the important relation between health and regularity of attendance. The common cold accounts for the greatest share of absences due to sickness and many colds can be prevented by having children properly clothed for both indoors and outdoors and by encouraging throat gargling with even a simple salt solution. Many cases of skin and similar infections are needlessly prolonged by failure to get medical aid. A trip to the doctor's office is often a paying investment.

I am thoroly in accord with the State 5-M Club and its objective in getting every member to drink at least one quart of milk each day. The value of milk in the child's diet is explained on the back of the application for membership in the club and I am concluding my article by quoting from it:

The State of New York is trying to make itself the finest state in the country. To that end it is endeavoring to make its boys and girls the finest and healthiest in the land—for you boys and girls are very important since in a few years you will be men and women and so will govern the State.

Milk is one of the most important contributors toward good health, with lots of strength and pep. Therefore, your State is launching a great movement to increase the use of fresh milk and so benefit all its citizens and especially its boys and girls.

Your state is forming a club of all boys and girls who are interested in helping the state in this great enterprize and has affixed to the club badge the official seal of the State of New York.

The value of milk comes from the 5-M Body Builders—which are:

The Vitamins—A, B and G.
These aid growth and vitality and build good appetites.

The Minerals — especially calcium and phosphorus.
These are essential for good strong teeth and bones.

The Protein.
This builds muscle and tissue.

The Fats.
They furnish fuel for the body to produce heat and energy.

The Carbohydrates—Milk Sugar.
They furnish quick energy.

GUIDE POST

December 3 to December 7

Monday—8:40 a. m., Hi Herald; 3:30 p. m., Hi Herald; 7:15 p. m., game with Belfast, here.

Tuesday—3:30 p. m., Orchestra; 4:15 p. m., Girls' Basketball; 7:15, boys' basketball.

Wednesday—3:30 p. m., Girls' Glee Club; 4:15 Boys' Basketball; 7:15, Girls' Basketball.

Thursday—3:30 p. m., Orchestra; 4:15, Girls' Basketball; 5:15, Boys' Basketball.

Friday—8:40 a. m., Hi Herald; 3:30 p. m., Girls' Glee Club; 7:15, game with Friendship, here.

AROUND A. H. S.

On Friday, Nov. 23, the Commercial law class held a trial. The case dealt with the controversy between a teacher, Miss DeLee and trustee Armstrong, when the latter discharged her as teacher of Pompey Hollow school because of her refusal to place a flag as he directed.

The lawyer for Miss DeLee (Florence Parker) was Jack Regan. Edward Brewster represented Mr. Armstrong (Edwin Alderson.) Mr. McGee served as judge.

During the trial, several witnesses were called. Then the lawyer's summed up their cases and the jury withdrew to deliberate. They returned and rendered a verdict in favor of Miss DeLee.

SIXTH EXCUSED LIST

The sixth excused list for the two weeks of November 26 to December 7 has been announced by Principal Bretch. Those pupils who have obtained an average of 80 per cent or more in all their subjects are:

Post Graduates—Ruth Slocum and Bernice Williams.

Seniors—Anna Dean, Oliver Kruger, Charles Lynch, James Lynch, Mary McAndrew, Alice Pope, John Regan.

Juniors — Beatrice Sly, Frank Weinhauer, Dorothy Nobles*.

Sophomores — Raymond Briggs, Hilda Clarke*, Carolyn Dolan, Philip Lynch, Bruce McGill, Orville Meier, Jean Millspaugh, Susan O'Donnell, Edith Potter.

Freshmen—Josephine Baker, Donald Hardy, Charles Burgett, Doris Honegger.

Eighth Grade—Barbara Bassett*, Charlotte Coryell, Delores Farwell, Leo Nobles.

Seventh Grade—Pearl Goodridge, Betty Greene, Aline Reisman, Carol Walton, Quentin West.

*—Those pupils whose names have appeared on the six excused lists.

—A-H-S—

ANDOVER vs. BELFAST

The Andover High School basketball team will play its first game of the season Monday, December 3rd, against Belfast High School reserve team at the high school gym.

Belfast has a good team this year with 25 men out for the team. They are rated as the best team in the Class C division.

Andover has 18 men out for the team and should have a strong team. The ten men who look the best this week will represent Andover in the game. The game is scheduled to start at 7:30 and a good crowd should be present and make some noise to help the team win.

The following men are out for the team: J. Cannon, M. Briggs, H. McAndrew, R. Briggs, E. Kemp, B. McGill, L. Fulkerson, D. Clarke, E. Alderson, G. Eaton, E. Yannie, D. Joyce, G. Joyce, C. Burgett, D. Hardy, K. Vars, B. Woodruff and D. Lynch.

Joe McAndrew was appointed as manager of the team with Philip Lynch assistant manager.

—A-H-S—

NEEDY PUPILS TO RECEIVE MILK

Free milk will be distributed to the needy pupils of Andover High School as soon as application for 100 per cent reimbursement from the state has been approved by the County Commissioner of Public Welfare, I. G. Howe.

This milk will be delivered at the school by local milk producers and will be given out to pupils to drink under the supervision of the teaching staff. The entire cost of the milk is borne by the state, providing that local and state sanitary codes are being complied with in the distribution of milk. Certification of such compliance has already been made by the local health officer, Dr. S. B. Scott.

Determination of what pupils shall receive the benefits of this provision is left to the local school authorities.

—A-H-S—

SENIOR DANCE A SUCCESS

The Senior dance held Friday, November 23rd at the High School auditorium was both a social and financial success.

About 140 persons attended the dance and around $40 was taken in of which $19 was clear profit.

The gymnasium was decorated with red, yellow and brown crepe paper and paper turkeys.

The chaperones were Mr. and Mrs. John Lever, Miss Trenkle and Mr. Bretch. The door prize, which was a box of canry, was won by Miss June Rogers of Whitesville.

—A-H-S—

MORE ABOUT THE MUSICALE

Have you heard about the Christmas musical? It is said to be good because many people who are taking part in it have participated in operettas previously given.

The musical is the first that has been given, under the direction of Miss Mary Jo Russ, the music director. The date of December 20th has been claimed for the event. It will be staged at the High School Auditorium and everyone is urged to be present. There is to be no admission charge.

FOOTBALL PLAYERS HONORED

Better sports and better athletic competition in future years are what count. Not the games won, but the sportsmanship derived makes the games important, were two of the statements made by Coach McGee at an assembly held Friday morning, Nov. 23 for the purpose of honoring the football players of the past season. Before awarding the major letter to the players, Coach McGee spoke of those who had participated but not sufficiently to earn the letters. He praised them and urged them and all others interested to come out next year.

The major "A" in athletics was awarded to the 18 whose names follow:

Edwin Alderson, Edward Brewster, Milton Briggs, Raymond Briggs, Donald Brundage, Clifford Burdick, John Cannon, Decatur Clarke, Donald Joyce, Edwin Kemp, Donald Lynch, Joe McAndrew, Bruce McGill, Farnham Irons, Milton Sweet, Alan Tuttle, Emilio Yannie.

Lawrence Padden was given commendation for his efficient work as manager during the season.

—A-H-S—

REPORTS ON HEALTH EXAMINATION ISSUED

Reports of the individual medical examinations of pupils of Andover High School, recently completed by Dr. H. J. Leahy, are being mailed to parents this week.

Reports are sent only where some abnormal condition has been found that is serious enough to merit immediate attention and thus prevent interference with the doing of school work properly.

Parents are asked to make a report to the school as soon as treatment is started. Follow-ups of each case will be made at intervals during the year and it is hoped that next year's examination will show a material improvement in the general physical condition of Andover's school pupils.

—A-H-S—

PUPILS JOIN MILK CLUB

Approximately 90 per cent of the grade pupils of Andover High School have signed pledges to drink at least one quart of milk per day and thus become enrolled in the New York State 5-M Club.

Each pupil joining the club receives a membership card signed by Dr. Frank P. Graves, New York State Commissioner of Education, and also receives an official badge bearing the seal of the State of New York.

The only requirement for membership is the filing of an application blank signed by both pupil and parent stating that the pupil will try to drink a quart of milk each day.

This is a part of the "Drink More Milk" campaign launched early this fall by the State of New York to increase milk consumption, and it is hoped that the 5-M Club membership will include 100 per cent of the children in Andover High School and that all of these members will actually drink a quart of milk each day.

MUSIC NOTES

During the assembly held Friday, Nov. 23, Miss Russ, music director, introduced a class song. In order that all may know the words, so that the song may be sung in public, all are urged to learn the words. Copy them or save this paper—but learn the words:

Class Song

Chorus:
O, we are the members of the AHS
We're all good members, well I guess
Yes, Yes!
We never mind the weather tho the wind does blow,
So, watch for our trail where we go
Go! Go!

Freshmen:
In us you see the little Freshmen
To beat the others as a Freshmen Class,
We're all good looking and full of wit
In three more years we will be the big "It."

Sophomores:
In us you see the Sophomores,
Our boats are headed for other shores,
The current swift and the channel wide,
For we don't need sails to stand the tide!

Juniors:
In us you see the big Juniors,
Our names are not among the stars;
We have our motto upon the moon,
So watch our smoke in the next year's June!

Seniors:
In us you see the bright Seniors,
Our names are up among the stars,
We pity all the others who are yet below,
For the way is rocky that they must go!

HUMOR

Eddie Brewster (awakening): "Is there someone in this room?"
Burglar: "No, sir."
E. Brewster: "Excuse me, I thot there was."

* * *

Barber: "Well, do you want a haircut?"
J. Cannon: "No, I guess I'll have them all cut."
Barber: "Very good; that will be a dollar."
John C.: "But, your sign reads first class hair cut for fifty cents."
Barber: "Yes, but your hair is not first class."

* * *

"How's your son, Sergeant Pat?"
"Begorra, he's passed away."
"How do you know?"
"He wrote me so himself."
"Wrote you so himself? What are you talking about?"
"Well, here is the letter. He says 'I am now in the Holy Land.'"

—A-H-S—

SEEMS AS THOUGH I'VE HEARD THIS BEFORE—

R. Appier—"Pardon me, but water is bad for your hair."

J. Millspaugh—"Avoid that pained look."

E. Brewster—"Eat the things you like."

B. McGill—"Fifty per cent less colds by using——"

J. Lynch—"See your dentist at least twice a year, brush your teeth at least twice a day."

Carolyn Dolan—"The skin you love to touch."

M. Lever—"It is ninety-nine and ninety-nine one hundredths pure."

Mrs. Joyce (giving neighborly advice)—"Avoid trouble, don't serve stale coffee."

B. Williams—"Protest your eyes." Can you guess what product these slogans advertise—Try it. It's fun!

PARTNERS IN A DRINK—Joe Penner doesn't want to sell his duck, now that it has joined Joe in pushing New York State's "Drink More Milk" campaign.

West Greenwood

(Miss Margaret Mullen, Reporter)

At the annual election of West Greenwood Grange, the following officers were elected: Howard Brewster, master; Lester York, overseer; Virgil Slaight, lecturer; Harold Church, steward; Edward Brewster, assistant steward; Mrs. Ruth York, chaplain; Mrs. Mildred Rogers, secretary and treasurer; Edward Mullen, gatekeeper; Margaret Mullen, Ceres; Pauline Murray, Flora; Mona Northrup, Pomona; Oletha Terlbury, lady assistant steward; Mrs. Mildred Rogers, organist. Fred Brewster was elected trustee.

Our few short days of Indian summer have disappeared. Now we are expecting Old Man Winter.

Edward Dixon went to New York City Monday, on business.

Sam Dineen of Canisteo has been purchasing potatoes in this vicinity.

Margaret and Gerald Mullen visited Mrs. Frank Northrup Tuesday and also saw the new twin girls, Pauline and Geraldine.

John Murphy of Hornell called at the home of Mike Hyland, Thursday.

Ralph Rigby of Stephens Creek has been shoeing horses for Vincent Joyce and Edward Clancy the past week.

Workmen are busy on the East road, where they are putting in a county base.

Mr. and Mrs. Harry Robbins of Belmont called at the home of her sister, Mrs. Dan Mullen and family, Wednesday.

Miss Ruby Swarts who has been ill is much improved and attending school again.

Mrs. Grace Brewster and son, Howard left Wednesday morning for a week's visit with relatives in New Jersey.

Wilbur Stephens was at St. James Mercy hospital, Tuesday, calling on William Mullen of Slate Creek, who is seriously ill there.

Edward Dixon and Sam Dineen shipped lambs to New York City, Monday.

Herman Mullen of Bennetts Creek called at the home of his brother, Dan Mullen, Wednesday.

Seth Baker called at the home of Dixon Bros., Thursday.

Many members from this vicinity attended Grange meeting at West Greenwood Grange Hall, Wednesday evening.

Mr. and Mrs. U. W. Coombs and family left Friday for a visit with relatives at Canaseraga and Garwoods.

We are glad to report the condition of Mrs. Clarence Slaight as being much improved.

Robert Flynn, Jr., son of Robert Flynn of West Greenwood is improving after a serious illness.

Raymond Brutsman of Olean visited his brother and family, Clarence Brutsman, Saturday.

Miss Virgil Slaight passed the week-end at her home here.

Mr. and Mrs. Dan Mullen and family and Adelbert Gayhart and Harold Church visited Daniel Mullen, Jr., Sunday at the CCC camp at West Almond. They also called at the St. James Mercy hospital at Hornell to see Mr. Mullen, brother of William Mullen.

Agrigraphs

Age does not determine the vitality of farm seeds. In general, older seeds do not germinate so well as fresh seeds.

* * *

After heifers are a year old, they need little or no concentrate provided they receive plenty of high-quality roughage.

* * *

Uncle Ab says it is well to keep in mind that happiness is much to your credit, and that unhappiness is mainly your fault.

* * *

Almost every country in the world, from Albania clear down the alphabet to Yugoslavia, is trying to solve problems of land settlement.

* * *

Thirty-five farm boys and girls from 17 counties represent New York State's 27,000 4-H Club members at the 13th national 4-H Club congress in Chicago, Dec. 1 to 8.

Alfred University

(Special to Andover News)

Dr. Abram R. Brubacher, president of the New York State College of Teachers at Albany, will be the speaker at the 99th annual Founders' Day Celebration at Alfred University, Thursday, Dec. 6.

Dr. Brubacher earned his A. B. degree at Yale in 1897 and his Ph.D. degree there in 1902. Since that time he has served as instructor in Greek at Yale, principal of the high school at Gloversville, superintendent of schools at Schenectady and for the last 20 years president of Albany State College for Teachers.

President Brubacher is a member of Phi Beta Kappa fraternity, director of Albany Savings Bank, director of Albany Boy's Academy, a trustee of an Albany orphan asylum and was a few years ago president of the New York State Teachers' Association. He is the author of several books in the educational field and is a contributor to educational magazines at the present time.

Prof. I. A. Conroe, dean of men at Alfred University, took up his work for the state department, leaving Dr. M. Ellis Drake in charge of the work of dean of men. Prof. W. M. Burdick has been advanced to director of freshman English. Mr. E. Warren Fletcher, who has been an instructor in English at Alfred's Jamestown Collegiate Center, is taking part of the classes taught by Professor Conroe.

Professor Conroe is making a survey of the collegiate centers operating in Western New York before going to Albany. He will be the state representative in supervision of the various state colleges and in the granting or applying of college charters.

A DISH FOR THE WEEK

Now is the time to prepare fruit cake for Christmas. This recipe is suggested by the New York State college of home economics:

Chriamas Fruit Cake

1 pound of butter or other fat
1¼ pounds of brown sugar
10 egg yolks
2 oranges, juice and grated rind
1 lemon, juice and grated rind
1 tsp. of soda 1 cup of molasses
1 cup black coffee, 1 lb. flour
1 tsp. salt 1 tsp. cloves
2 tsp. cinnamon 2 tsp. mace
2 tsp. nutmeg, 1 glass tart jelly
3 lbs. raisins 2 lbs. currants
1 lb. citron 2 cups flour for fruit
10 egg whites.

Cream the butter until it is very soft, add the sifted brown sugar and mix them thoroly. Add the beaten yolks and mix them again with the grated orange and lemon rind. Add one-half of the soda to the molasses, stir until foamy, and add with the coffee and the fruit juices, alternating with the one pound of flour. Add the rest of the soda, the salt, and the spices sifted together. Break the jelly into pieces and stir in. The jelly need not be thoroly mixed in.

Wash the raisins and currants, if necessary, and drain, and dry them. Cut the citron in thin strips. Mix the two cups of flour thoroly with this fruit. Add the prepared fruit with the batter; this may be added from time to time with the flour. When all are thoroly combined, fold in the stiffly beaten egg whites.

This amount makes about twelve pounds of cake, and can be baked in small loaves or in one large one. Whatever sized pan is chosen, line the greased pans with three layers of paper, for bottom and sides. Have the top layer well-greased. Put the mixture into loaf pans, and make sure that the corners are well filled and that the top is level and smooth. Bake in an oven at 250 degrees F., for two hours. Let the cake cool in the pan, but stand the pan on a rack that allows the air to circulate underneath as well as on the top and sides.

Turn out the cake and remove the paper. Store the cake in a cool dry place, tightly-covered. A few sound apples, placed in the container where the cake is stored, will help to keep the cake moist if it must be kept long, but they must be watched and replaced if they begin to show decay or to become shriveled.

DOAN'S PILLS

HOW, WHAT and WHY?

The Andover News has arranged with the Office of Information of the New York State colleges of agriculture and home economics to answer questions about problems of farm and home. If you enclose a self-addressed stamped envelope and mention the name of this paper, you will receive a direct reply to your query from the colleges. Do not ask more than one question in one letter or on one post card. Ask as many questions as you like, but make each one a separate communication.

Cannot Hold Bulbs

H. T. M., Oneonta, writes: "I have a number of flower bulbs, such as tulips, daffodils, and jonquils. I cannot plant them this year.

"Can they be held over until next year? If so, what care should they be given during the winter?"

Kenneth Post of the floriculture department replies: "It is impossible to hold daffodils, tulips, and other hardy bulbs over winter in storage to plant the following spring. They should be planted immediately or discarded, since they will not flower next spring."

Are Seeds Valuable?

Mrs. A. U. M., Ithaca, asks: "Are the seeds of the potato plant valuable?"

"I remember reading a long time ago, that they are valuable. Recently, my neighbor writes me that they have some potato plants that have seeds on the tops."

Professor Ora Smith of the department of vegetable crops says: "Many years ago when a great number of persons worked to improve the potato by breeding, the seed of the potato plant was quite valuable.

"In recent years, however, this way to improve potatoes has lost much of its former attention. Only a few now work on this problem. These few are in experiment stations and in the U. S. department of agriculture. I would not expect these seeds to have any value at this time.

"Apparently from the number of inquiries we have received the last few weeks about ways to handle potato seeds, these seed balls are unusually numerous."

To Rout Rats

W. D. O., writes: "Is there a safe poison for rats? I want one that will get rats and mice but will not harm household pets?"

The answer: "Get some red squill powder from your druggist. It will kill rats and mice, but is relatively harmless to human beings and to domestic animals.

"Mix it in any favorite food of rats or mice. Did you know that mice are apparently as fond of chocolate creams as of cheese? Sometimes more success is had with bits of these confections than with the cheese, generally regarded as the foremost mouse-bait."

From the Editor of The American Boy

During the coming year, the boys of America will get a half-fare rate to adventure and fun! THE AMERICAN BOY—YOUTH'S COMPANION, the nation's leading magazine for boys, formerly $2.00 a year, now costs $1.00. A three-year subscription, previously $3.50, costs only $2.00.

Griffith Ogden Ellis, editor of THE AMERICAN BOY, brings boys the hearty assurance that the new prices will in no way affect the editorial contents of the magazine. It will be as large, as beautifully printed, as full of high-spirited adventure as ever.

"THE AMERICAN BOY'S" leadership has been no accident," Mr. Ellis states. "We publish the magazine on the firm belief that boys deserve a magazine as good as any publication for grown-ups. So we use the best illustrators obtainable —well-known artists who work for the biggest magazines. We send our staff writers all over the country, digging up the interesting facts of science, interviewing world-famous explorers, talking to coaches and athletes.

"We encourage and assist our writers to go everywhere for material—to Haiti, Africa, the South Seas, China—and bring back adventure for American boys. We hire experts on hobbies and boy problems to advise boys and young men. These steps account for our position as the quality magazine for boys, and we shall continue to take them."

Twelve issues of fun and excitement for $1.00! Three years for $2.00! Spread the news among your friends—and send your own subscription direct to THE AMERICAN BOY, 7430 Second Blvd., Detroit, Mich. Service on your subscription will start with the issue you specify.

Turning Back the Pages Of Andover History

TAKEN FROM THE FILES OF THE ANDOVER NEWS

Our Thirty and Forty years ago will have to be omitted for a week or two because of missing copies in our files.

Houghton Alumni Return for Annual Home Coming

The Houghton college campus will be crowded on Friday, Saturday and Sunday following Thanksgiving Day with old students and alumni returning on their annual fall pilgrimage back to the familiar scenes of their school days. During these days the present student body and the ordinary routine activities of campus life must yield the limelight temporarily to the oldsters, and "do you remember the time when" becomes the prevailing echo.

The formal program is to begin with an alumni tea in the reception rooms of Gaoyadeo Hall at 4 p. m., on Friday and the annual alumni Purple-Gold basketball games, women's and men's, at 8:30 p. m.

Saturday morning at 10 o'clock there will be an alumni chapel service with the Rev. David Reese of Elmira, a former student, giving the address. The lunch hour and early afternoon will be devoted to class and individual reunions until 5 p. m., when the entire group will meet together in the dining room of Gaoyadeo Hall for the alumni dinner, which will include a program of dinner music, toasts, and the consideration of business.

At 8:15 a group of alumni will present a program of entertainment characterized particularly by the note of reminiscence.

The events of Sunday, the closing day of the home coming period, will this year be of unusual interest, since they will include the dedication of a beautiful new church, replacing the old structure so familiar to former generations of students but in recent years become so inadequate. The morning service at 11 a. m., will be held in the College Chapel, and will consist of a Sunday School session only with no sermon following. At 2:30 p. m., the service of dedication will take place. The dedicatory sermon will be preached by the Rev. David Anderson, pastor of the Wesleyan Methodist church of Bradford, Pa. It is expected that a large number of out-of-town guests in addition to alumni will be present at this ceremony and that the capacity of the new church will be crowded to its limits.

The evening church service, with the Rev. Mr. Anderson again preaching the sermon, will usher to a close another home coming, which gives promise of being the most largely attended of in many respects the most significant in the history of Houghton College.

Better Milk Result of the "Drink More Milk" Drive

Watertown, N. Y., Nov. 22.—Better milk has been the dairymen's answer to the State's "Drink More Milk" movement in the opinion of C. A. Brown of Watertown, president of the New York State Milk Distributors.

Mr. Brown said that producers, acutely aware of the food and health values of milk since the campaign opened, have increased the quality. "We have noticed, specifically," he said, "the impression on the producer that their milk is being used for fluid or human food purposes and we have noted a decided improvement in the quality in a large percentage of the milk delivered to us during the past sixty days."

Mr. Brown added that producers and consumers have been taught by the "Drink More Milk" movement that the state agricultural and health authorities have joined hands to:

"1.—Get an increase in demand and high quality milk produced.

"2.—Protect the consumer and perfect in the State control improvement of the quality of milk."

The dairy leader, who reported that consumption has increased, lauded the nearly completed effort of the state to stamp out tuberculosis from the milch herds. Within a few months, New York State will rank the highest among those of the nation in rarity of the disease.

News From Washington, D. C.

Published every week right at Washington, D. C., now the political and industrial capital of the world —the very nerve and news center of all creation, the Pathfinder has a tremendous advantage over all other magazines. That is why we are happy to offer Pathfinder in combination with the Andover News at the big bargain price of only $2.35. You will always be correctly and fully informed if you read these two sterling publications every week. Leave your order at our office or send it by mail or phone. The important thing is—don't let this chance slip! A word to the wise is sufficient.
