HERE'S OUR CHANCE

In one of the late issues I attempted to point out to every student the qualities our school paper contains in comparison with the papers of other schools.

The council of the Allegany County Scholastic Press Association has chosen members of the council to judge the school papers from all the schools. There is a possibility that a newspaperman would also participate in the judging. Each member is to send a copy of its paper and the prizes will be awarded at the May meeting of the association at Alfred.

This judging will determine just what standards each school's paper has and it will give us our chance to prove what we have done. Editor.

Play Cast Enjoys Dinner

Last Wednesday afternoon, following the matinee, the Comic play cast enjoyed a dinner at the home making house.

A delicious dinner, consisting of salad, salmon loaf, rolls, pickles, olives, coffee, cake and the best treat of all, home made ice cream, was served. Clever green boxes with white bells adorned the tables as place cards. They were not later photographs.

The guests of the cast were Prin. and Mrs. Glenn F. Bretsch, Miss Josephine Cappuccilli, director and Miss Mary Wood, Mr. Basil Brundage and John Bailey, who assisted back stage.

The play cast had the pleasure of being the first persons to use the newly installed dining room chairs and table.

Library News

April Fool' the title of the library bulletin last week, was very timely. Appropriate original poems definitely designed to fool the public were posted. Here is one example

"When wandering in the library,
Just listen, stop and look,
To see if someone will throw at you
One of our newest books
Please turn around and see
If you can't start a duel,
Just try doing this.
Are you surely will be
April Fooled!!

Guess Who

This pretty girl with eyes so blue,
Has always liked everyone, including you.
She's extremely pleasant thruout the day,
And you'll always find her very gay.
She's rather tall and quite slender.
And has proved to be an excellent mender.
She's a sophomore girl in A. H. S.
So prove your intelligence by making the guess.
If you're in doubt to last week's game,
Thelma Ahrens is her name.

Senior Interview

What is your full name?
George Raymond John Joyce.
Where and when were you born?—Andover, N. Y., Dec. 12, 1920.
What is your favorite subject?—History.
What is your favorite movie?—"Happy Landing."
Who is your favorite actor?—Tyrone Power.
Who is your favorite actress?—Sonja Heine. (It seems she is Andover's all-around favorite).
What are your favorite sports?—Basketball and tennis.
What is your favorite recreation?—Dancing.
What do you plan to do in the future?—Undecided.

George Joyce is one of the most popular and best liked of our Andover boys. He is very active in basketball and a star forward, as any close fan will tell you. There are two things George will never be—gloomy or speechless.

Mystery Scores Success

The annual Senior play, "The House of Phantom Bells," which was presented Wednesday afternoon, March 30, and Thursday and Friday evenings, Mar. 31 and April 1, was a success both from a financial standpoint and as entertainment.

A full house Thursday night witnessed the opening blood-curdling scenes of the play. Many a worried glance was cast over a shoulder in the audience as terrifying screams were heard and supernatural events unfolded. From the first scene thru the last the play moved with swiftness and electrifying action. Every moment was either fraught with suspense and mystery or rollicking with comedy.

The comedians, Harriett, as played by Katherine Barber, won the audience with her screaming reactions to the mystery surrounding her. Honors are due to Katherine for her acting in this play. She was reminescent of the famous movie comedienne, Zazu Pitts in her interpretation of the role. Gales of laughter from the audience followed each of her appearances.

Donald Hardy is well known to Andover audiences. Both as a brusque detective and as a million aire father and husband, he exhibited his usual talent for making a character alive and real.

The unscrupulous and greedy stepmother, Mrs. Rhodes, was ably interpreted by Marian Swarts, who is to be congratulated for the smoothness and adaptability with which she adjusted herself to playing a unsympathetic role.

Charlotte Cook, as Laura, the pretty stepdaughter, was pleasing and adequate.

Jack Fage, the fiancee of Laura, was well played by George Joyce. His unscrupulous rival, Victor Lavelle, was played by Henry Antan. Henry certainly showed ability in the manner in which he played the role, sophisticated to tum hunter.

Charles Burgett as Darrell Carter, a cripple who got up from his wheel chair unaided, did a fine piece of acting. His nurse, Lola Sadler, was played by Thelma Ahrens. It is a difficult thing to portray so many emotions as Thelma was obliged to, but she acted with the ease and assurance of a veteran.

Carol Burdick very successfully took the part of a stern lawyer and Doris Honegger with her usual success at interpretation of roles played his demure little secretary.

Miss Josephine Cappuccilli, teacher of English and director of dramatics, directed the play. She is to be congratulated for its outstanding success. Appreciation for work behind the scenes should be given to the faculty and student committees who aided in the production.

New Furniture In Homemaking House

The new furniture arrived in the homemaking department last Wednesday. It is maple in a simple design in Early American style. This type was chosen because it creates a democratic atmosphere suitable for the school. It is very well constructed, a necessary qualification, as about 50 persons a day handle and use it.

The furniture consists of a drop-leaf table, a chest of drawers, eight Windsor-type straight chairs, two upholstered chairs and a secretary desk.

The house with this very lovely furniture looks much more home-like and attractive. With the new additions, there is more working and storage spaces for linens and books.

Additional pieces will be added from time to time.

Grade News

The first grade has a new pupil, Glenn Hughes, who came from West Wellsville school.

The first and second grade pupils are bringing eggs to school and then painting and decorating them, thus making the eggs ready for Easter.

The sixth graders made bar graphs for arithmetic which will last for a period of ten weeks. They are also making Easter pictures during drawing class.

The second grade has an interesting science collection with the following articles included in it: a floating stone, wasp homes, Indian arrow and spear heads, porcupine quills and many different kinds of ores, shells, and pepper seeds.

The attendance banners for the month of March were won by the fourth and fifth grade.

School Closes Wednesday

School closes Wednesday noon, April 13 for Easter vacation and will reopen Monday, April 25th.

This week marks the end of the sixth five-week marking periods of the year, leaving only eight weeks before Regents, which begin Monday, June 20th.

4-H Potato Club Met Monday

A group of boys interested in a 4-H Potato Club met in the school building Monday evening, April 4, to organize such a club in Andover. Mr. Lou Burton, county 4-H Club leader was present, as were also members of the Andover Exchange Club. The club elected the following officers:

Henry Antan, president.
Donald Lynch, vice president.
Charles Spicer, secy.-treas.

The club agreed to meet the first Monday of each month at the school.

Humor

Miss Cappuccilli: "I don't believe you know your alphabet. What comes after A?"

Dick Baker: "All the rest of 'em."

Mr. Host: "Tell me the chane of a rain drop."

Ted Weet: "Just like a 1928 model T Ford made in 1938."

Mr. Bretsch: "If carbon plus oxygen yields carbon dioxide what would a dye created upon the oxygen yield?"

Louie Fulkerson: "That would form a dye oxide too."

Henry Antan: "What do you think would go well with my [illegible] change-seeker?"

Dot [illegible]: "Why [illegible]."

Clyde [illegible]

Jack: "No."

Clyde: "Well, [illegible] change on my coat."

Mr. McGee (giving back his business arithmetic class some papers he just marked): "Does anybody want to ask a question?"

"Yes, sir," replied Don Lynch, "I can't read what you have written at the bottom of my paper."

Mr. McGee (glancing at paper): "I have written 'You must write more clearly'."

Charles: "Of course, there are more fish in the sea."

Thelma: "Yes, and they'll no doubt stay there until you get a better line."

Miss Cappuccilli: "I think it best that you should ask him to refund the money. You know, just a polite note."

Mary Greenan: "That's a good idea. How do you spell 'scoundrel'."

Henry Antan: "Which is right, a hen is sitting or a hen is setting?"

Carrol B (the future farmer): "I don't know, and I don't care; all I worry about is whether she's laying or lying when she cackles."

Mr. Host: "Write on a piece of paper the ten greatest men in the world."

John Lynch: "The Detroit Tigers 9—Joe Louis 1."

WAKE UP YOUR LIVER BILE—

Without Calomel—And You'll Jump Out of Bed in the Morning Extra' to Go

The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food does'n digest. It just decays in the bowels. Gas bloats up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sunk and the world looks punk.

A mere bowel movement doesn't get at the cause. It takes those good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Harmless, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. 25c. Stubbornly refuse anything else.

County 4-H Alumni Meet At Cuba April 9th

The officers of the Allegany County 4-H Alumni Association have called a regular meeting of the group for Saturday, April 9th. A dinner meeting and dance will be held at Moon Winks, Cuba. The group includes the many former and active 4-H members from this county that are attending colleges or are engaged in business.

Alice Rees from Fillmore, now attending the College of Home Economics at Cornell University and former county delegate to the National 4-H Congress at Chicago has sent invitations to more than fifty Alumni formerly active in this county.

Bobby Benson Gives Free Trade Money

NEW YORK CITY — Bobby Benson, who a little more than a year ago was a well known juvenile hero on the radio, is now the hero of a comic strip entitled "With Bobby Benson on the H-Bar-O." Bobby might be called the successor of Sunny Jim, for he is the lad who pushes the sale of Force Toasted Whole Wheat Flakes. So popular did Bobby become that the Hecker H-O Division of Hecker Products Corp., manufacturers of Force, decided to insert into each box a coupon, known as Bobby Benson money, which has a trade value of 2½ cents, and can be cashed in for the purchase of any merchandise carried by the grocer who stocks Force.

The new comic strip series featuring Bobby will appear in daily newspapers of Connecticut, Massachusetts, Maine, New Jersey, New York, Pennsylvania and Rhode Island, beginning the middle of April.

If this is your year to wear your old spring clothes, freshen them with a thoro cleaning, suggests the New York State College of Home Economics. Cornell Bulletin No. 356, tells how to remove many kinds of spots and stains. For a free copy, write to the Office of Publications, Roberts Hall, Ithaca, N. Y.

What Do You Know About Health?

By FISHER BROWN and NAT FALK

Answers: 1. It boasts the longest average life span of any country in the world. It is interesting to note that New Zealanders depend for their subsistence upon their flocks and herds. They are great milk drinkers.

2. A Spanish physician who discovered that the blood in the pulmonary circulation passes into the heart, after having been mixed with air in the lungs.

3. No. The death rate among older adults is much higher among the men than among the women, more than twice as many more as women die from tuberculosis after 40. Five times more men than women die from gastric ulcers.

The dairy farmer's first responsibility in soil management is to take advantage of legume crops and farm manure to supply inexpensive nitrogen.

Here is a perfectly splendid idea that "happened" all because the top of an old card table fell out: When making a hooked rug, tack the edges to the frame of a card table from which the top has been removed. The surplus rug may be rolled up and fastened to one side of the table. It takes but a few minutes to move the rug along after it has been worked. When desiring to put the rug away, simply fold up the legs of the ex-card table and slip it in the hall closet!

With Spring and Easter in the air, what could be more timely than ANGEL PIE? To make it: Beat 4 egg whites until foamy, add 1 teaspoon cream of tartar and beat until stiff. Carefully fold in 1 cup sugar, then spread mixture into a large oiled pie tin. Bake in a slow oven (300°) for approximately 1 hour.

Beat 4 egg yolks until light; then add ½ cup sugar, ¼ cup lemon juice and 1 tablespoon lemon rind, beating constantly. Cook in top of double boiler, stirring constantly, until thick. Then remove from heat and cool. Place alternate layers of custard mixture and 1 cup whipping cream (whipped and sweetened slightly) in center of cooled meringue crust. Chill in modern air-conditioned ice refrigerator for several hours; or over-night, if desired, as the clean-washed, properly-moist air will safely preserve the freshness and original flavor of this delicate dessert. Serves 6.

What mother has not known despair over the disorder created by the children's small toys, such as blocks, crayons, paper dolls and the like? To solve this difficulty, simply purchase or make a large shoe bag and have the children keep their toys in the various pockets. This will not only mean less picking up, but the children will always be able to find their toys.

If your cooking equipment doesn't boast a ring mold for making attractive salads and refrigerator desserts, here's the way to make one. Fill a glass jar with crushed ice (chipped from the hard-frozen cake of ice in a modern ice refrigerator). Place this jar in the center of a deep round or square pan and pour the mixture to be molded around the jar. Chill. When set, simply remove the jar and invert the mold, first dipping the bottom of the pan in warm water.

Keep a quart preserve jar of cooked starch in your ice refrigerator for use when there are only one or two small items, such as a child's frock, to be washed. Dilute the starch as needed. It will keep perfectly until used up.

Auto Junkyard Aid to Farmer

Can Build Easy-Running Wagons—May Solve the "Old Car" Problem, Says State College.

The auto junkyard may become another link in the tie between agriculture and industry as this untapped, potentially large market for old cars turns to the farm for an answer.

Reclamation of old cars has begun. Farmers need easy-running wagons, so they turn to the junkyard for materials. The result is a wagon on rubber-tired wheels. Only the frame, wheels, and tires are used, which, together with a little lumber and labor, builds a practical farm wagon.

A wagon was built by the department of agricultural engineering at Cornell University for only about $40. In building the wagon, the tongue or hitch was bolted securely to the front axle.

Prof. F. L. Fairbanks of the department, who was in charge of construction, says it is necessary to hold the springs down. In this wagon they were held down by a chain welded to the chassis.

"We feel that these wagons are good general farm wagons, not trailers to be used continually on the road," Professor Fairbanks says. The wagons can be fitted either with a box or hay rack on top. On a recent trip thru Alberta, Canada, one observer said he saw more than 100 such wagons in use.

Some farmers are reported interested in having exhibits at the New York State fair of made-at-home useful farm equipment, similar to the easy-running wagons.
