GREENWOOD LOCAL BRIEFS

The whippet tank, which ran with ease over the shell craters, trenches and fortifications of the Germans in France, met its first defeat when it struck the Greenwood-Canisteo highway Saturday.

It had to take the country road and come in the back way thru Jasper or he sunk from sight should it attempt to pass thru the bottomless barriers of Bennetts Creek highway. The military machine gave a very interesting exhibition at this place and a good sized crowd was highly pleased with its performance. The men in charge are gentlemen as well as soldiers and were highly complimented by all. The speakers at the evening meeting thrilled the audience with highly interesting war episodes and something over $11,000 was pledged for the Liberty Loan.

President Wilson should be backed by every citizen of the United States in his determined stand for the rights of the new European states. The supreme test of the doctrine that secret treaties between the Allies must be abandoned, must be met now. May our President win out.

The desire of the Italians to enlarge their borders seems to be the sticker in the peace negotiations at Paris.

Italy certainly does not need Fiumes for an outlet to the sea as she already possesses a long coast line with numerous harbors.

She does not need Fiumes for defensive purposes as she would have but little territory then and Allies for neighbors. It is greed for territory that seems to move her to madness. It would be a rank injustice to shut Serbia from the sea just to add to the glory of Italy. The Jugo Slaves need Fiumes. Italy does not and should be content for what has already been done for her.

The bonus or gift to railroad employees of large sums over their wages and called back pay is good for the grifters at least. One man gets a gift of $1300.00. That is more than many of the taxpayers are worth and they will have the gifts to pay.
