POPPY DAY FACTS

WHAT IS POPPY DAY?

Poppy Day is a day observed thruout the United States by wearing Memorial poppies in honor of the World War dead. It will be observed this year on May 28th, the Saturday before Memorial Day.

WHAT IS THE MEMORIAL POPPY?

The Memorial Poppy is a replica of the poppies which grew on the battle fields of France and Belgium during the World War.

WHY WAS IT CHOSEN AS THE MEMORIAL FLOWER?

The Poppy was chosen as the Memorial flower for the World War dead because it grew where they fell, the one touch of beauty in the desolate battle areas.

WHO MAKES THE MEMORIAL POPPY?

Memorial poppies are made by disabled World War veterans working in Government hospitals and in convalescent workrooms maintained by the American Legion Auxiliary.

WHO DISTRIBUTES THE MEMORIAL POPPY?

Women of the American Legion Auxiliary, working as unpaid volunteers, distribute the poppies thruout the United States.

WHAT IS DONE WITH THE MONEY CONTRIBUTED?

Every penny is used to support the work of the American Legion and Auxiliary for the welfare of the disabled veterans of the World War, their families and the families of the dead.

WHO WEARS THE MEMORIAL POPPY?

Every American who believes that the dead of all wars must not have died in vain and will help the cause of the living victims.

"Wandering Willie"

HITLER is so far away that we can't resist the temptation of telling this one about him:

According to the story, he and Mussolini were having a little chat and Mussy told Hitler what a foolish move it was to run the Jews out of Germany. Anyhow Mussy bet that the average Jew was smarter than the average Nazier so Hitler took him up.

They agreed to go to three stores run by Germans and three by Jews, Mussy saying that the results would prove the answer.

So into a German store they walked and Hitler ordered a set of dishes. The merchant started to do them up when Hitler said, "Oh, by the way, all the folks at my house are left-handed so I'll have to have a set of left-handed cups." The storekeeper was sorry but they had none—just the ordinary kind.

After going into the other German stores and getting the same results, the boys went into a Jewish store and repeated the process, but the Jewish storekeeper was right on the job. "Oh, yes," says he, "we just have one set left." So he did them up and out they went.

"Well," said Mussy, "that's proof enough of how smart the Jews are, isn't it?"

"I don't see how," said Hitler, all up in the air, "He was just lucky enough to have a left-handed set in stock."

WE don't know whether it is up to the village or the State highway department to fix the bridge that got smacked last week, but which ever one has the job should do a better job, that is, a sturdier job than before, as the railing of the bridge in question is used as a backstop for more than one car.

Both sides of the bridge have been hit on several occasions, and situated at the bottom of the hill where it is, it sort of acts as a bumper in getting fellows back on the road when they come down the hill too fast.

AND talking about fast, there are just two types of people go down Water street: the kind that likes to see how much dust they can raise at 45 per—and those that are going too fast to make the turn at the bottom of the hill, so keep right on down Water street.

It is not only cars, but trucks as well. If a speed cop was stationed on Water and Rector street on a commission basis, he could make more dough a week than Mae West. And with the dry weather coming (if it ever does) the residents along Water street will have to get out their smoke masks and be ready for what comes. "Fran" Cable in his "Dust Bowl" article on Rochambeau avenue told plenty about dust. Perhaps if he came up Water and took a couple of sniffs in good dry weather he would write two articles!

FISH are funny. Last week-end was ideal for fishing, that is for all the other fellows. But when the Coleman-Bloss anglers went out to the lake that was where the fish were funny. They seemed to get in all the other boats around, some of the boys getting as high as 14—and not more than 14 feet from the L. G. and A. L. boat. Maybe the two nimrods didn't hold their mouths right, or perhaps A. L. handled the rod as he would a baton, at any rate no fish for dinner, not any, large or small.

WANDERING down the street the other day we saw the most familiar and most welcome sight so far this Spring—"Cal's" straw hat. When "Cal" digs up the straw derby it is a certain sign that every thing is at last all right, as far as weather is concerned. We haven't interviewed him yet but think that he is three days, four hours and 29 minutes earlier than last year.

The Way to a Man's Heart

It has been said that the way to a man's heart is thru his stomach. This may sound a bit coarse, but yet, what man does not like good food, and what man is there that will not be made a bit happier each day if he gets good meals?

GRANGE NEWS

Edith M. Thorne, Lecturer

Wednesday evening the Grange program as scheduled in last week's News was presented, except a few substitutes in various parts.

The altar, draped in white, was decorated with flowers for those who have gone on before, not with heaviness of heart as those who have no hope, but with faith made buoyant with the Patron's belief in immortality, and with a confidence that we, like them, shall carry on for the "good of the Order."

The Grange air is astir with arrangements for the coming of the Patrons of Husbandry from every Grange in the county. Andover certainly welcomes Pomona next week June 2nd and 3rd.

The program for the two days is printed elsewhere in the News. C. A. Robinson will give the address of welcome in place of Dewey Northrup, Sr.

This is an unusually busy time of year and every farmer is on his tiptoes to improve every shining hour; but let's attend Pomona as much as possible.
