"The Child with the
SAVINGS ACCOUNT
Becomes the Thrifty Man"

A savings account is an ideal birthday gift for boy or girl. It fosters a sense of independence. It provides an incentive for thrift. It enables the child to save for the things he wants—and thus learn, through a small measure of temporary sacrifice, the relative value of possessions and of goals.

To Our Andover Friends

We would like to use this medium for saying good-bye to all of our good friends in Andover, and to thank them for the fine patronage which they afforded us while we were their insurance representative. We sincerely appreciated it, and hope that the new representative will receive the same support.

We would also like to thank those people who attended the farewell party given in our honor last Wednesday night at the Legion home and presented us with those lovely gifts, with special thanks going to those who worked so hard to complete all of the arrangements to make the party such a success.

Our warmest thanks also to the Legion drill team for the dinner and party on Saturday night. On the cigarette case which they presented us were engraved the words "You had a good home and you left." Truer words were never spoken, and we want to tell the drill team right here that we are going to miss them far more than they realize. You are a swell bunch of fellows. Please keep up the good work.

Interesting Letter Received From Reynolds'

The following, letter received this week from Mr. and Mrs. Geil Reynolds giving us their address and describing their new location, will be of interest to News readers:

10604 East Marginal Way
Seattle, Washington
Widner's Trailer Park
August 29, 1950

Hello Claire:

A few weeks ago I wrote you asking to have the News sent. To date, we haven't received them and I'm wondering if you received the letter.

If you did, they probably will catch up with us soon. However, if not, will you please send us copies July 14 to the last one in September.

We will be here until October 1 but if it gets too cold and rainy we may move on south after that.

This is a very lovely city. The flowers and shrubs are super in size and color. Nearly all the homes are landscaped beautifully, even the most moderate priced. It seems to be a community object to beautify.

This trailer park is a good example. The park was originally a nursery, and each lot is separated from the next by beautiful hedges of shrubs and evergreens. We have a small lawn in back and is shaded by apple, pear and cherry trees. Most of the permanent trailerettes have lovely flowers and bird baths. No two lots are alike and it is insteresting to walk the drives, which are hard topped and see how differently people think and plan.

Our biggest thrill is Mt. Rainier, which is south of us. On clear days we can see it and it looks no farther away than South Hill does in Andover, yet it is 113 miles from here. It is always snow capped, of course, and is most beautiful.

Last night we drove down along the docks. That is interesting to us, to see the different ships.

We are about 1½ miles from Boeing Field and the big B-29's and B-50's are swooping over us continually during the 24 hours, since the runway is toward us, and the planes are constantly going up or coming in to land.

There is lots of work here, skilled or unskilled. Geil is working in the A & P store but if the weather gets unpleasantly cold and wet, as they tell us it will, we will move south as I said before.

If we decide to stay longer, we will let you know, as we are anxious to keep up with the Andover goings on.

As always sincerely,
Geil and Thelma
