MRS. WHEELER'S
WORM CONFECTIONS.

MOTHERS,
READ this carefully, and make up your
mind, if the above worm confections are not
sufficient to destroy your children's worms,
that you will not give them any more.

That infant, whom you see not down upon its
back, but who is crawling about there, when first
you see it, is the result of the worm confections,
which have been given to it. It is the result of
the worm confections, which have been given to
it. It is the result of the worm confections,
which have been given to it.

But mothers, do not be deceived by the
sophisticated and false advertisements of
others. Do not be deceived by the
sophisticated and false advertisements of
others. Do not be deceived by the
sophisticated and false advertisements of
others.

MRS. WHEELER'S
CONFECTIONS
Are the only ones for you to use, for these reasons:
They contain over twice the number of doses in a
box of any other worm medicine in the market,
and consequently are really worth as much again, but
cost only the same price—25 cents per box,
while the same number of doses of any other worm
confection costs you twice that. They are warranted just
as represented above. Try a box of them, and they
don't prove good and you don't feel perfectly satis-
fied, return the box to the store where you bought
them, and they will refund you 25 cents for the box,
and you will be satisfied.

Tell your Friends how you like them.
Retail by all Druggists and Country Merchants
everywhere. Price 25 cents per box.

With Forty Doses in a Box.

Angelica Correspondence.

Aug. 16, 1869.

Mr. Editor:—I did not send you
my regular notes last week, and don't
know as I have any reasonable excuse;

but I may say, that I did not feel much
like writing, and then again, there wasn't
anything going on worthy of a newspa-
per squab. There was two large garties
in town last week, one at Doct. Smith's
the other at Mrs. David Browns, and
that made it lively for two evenings at
least—whichever will have another one?

The eclipse came off in this town on
Saturday, Aug. 7th, as advertised.—
Everybody and their sister were out
with smoked glass, to see the Moon
pass between them and the Sun. The
eclipse commenced at 8 1-2 minutes past
5, railroad time, with the Thermom-
eter, at Summer heat, and at 4 1-2
minutes of seven the performance closed.

Everybody seemed well satisfied, and
several exclaimed "aint it splendid?"
and nobody to dispute them. I found
some looking through the bottom of a
Tumbler, as I supposed at the eclipse,
but don't know as they see it.

SING SING. Aug. 3.—Another con-
vict escaped, sentenced in for five years
and ten months, probably out for a
longer time. I am afraid our fellow town-
sman, M. R. must have been caught
napping. Look out for the rest of them
"Mike."

The inhabitants of School District
No. 1, held a special meeting a few days
since, to take into consideration the
propriety of repairing and enlarging the
School House, but as the taxable por-
tion of the district were not out, they
adjourned to a more convenient season,
but not till they had appointed a com-
mittee to make an estimate of the cost
to repair and build, meeting adjourned
to Aug. 3rd. Inhabitants met August
third, to receive report of committee,
but the tax payers could not see it, or
in other words, it seemed unnecessary.
Meeting then adjourned to August 7th.

August 7th, the day of the great
eclipse, also put an eclipse on the build-
ing and repairs, except to the amount
of some \$200. The heavy tax payers
of this district, the object of paying out
money, unless there is something com-
ing back, and of course there would be
no "come back" in fitting up a good
school house for the education of a
poor man's children—for in this town
the rich men are blessed with few and
some of them no children. But to go
back to the old school house, the trust-
ees let the job for the repairs to our
Bild Board Saw-Walk Builder Justice
of the Piece, and he will make it pay,
for he gets the pasturing of two cows
in the school house lot, under the same
job.

Your paper of last week commits an
error in saying that the Angelica Band
is being organized with Mark Duncan
for leader, for the Band is already or-
ganized, with some ten or twelve mem-
bers, and Thomas Swan has the honor
of leader. So look out for a good band
and good music this fall.

Ed. Beals, the new proprietor of the
stage route to Belvidere, is having his
stage newly painted and repaired, which
will be quite an improvement; it won't
need fixing over again, for we will soon
have a depot of our own; as soon as the
committee can purchase land suitable
for it, ha, ha, ha. That splendid
game Croquet is still kept up in our
village, several sets being placed in the
Park, and our town is full of Ladies all-
for-love.

I see the papers in the county have
each had a special dispatch that "Yan-
kee Robinson" is coming with his great
show, so is Christmas.

GENERAL NEWS.

Fremont is in Denmark.
Georgia crops are beautiful.
Michigan Peaches look finely.

Corn is a month late in Vermont.
Iowa corn and Oats thrive handsomely.

Five thousand acres of flax in Min-
nesota.
George Peabody is reported to be
dying.

Fisk, jr., is talked of for mayor of
New York.
The price of milk in Syracuse is eight
cents a quart.

Potatoes are selling at fifty cents per
barrel in Baltimore.
Never such crops are being harvested
in Northern Kansas.

Susan B. Anthony is to canvass Con-
necticut for female suffrage.
Corn is a failure on the bottom lands
along Illinois river. A fair crop on the
bluffs.

The late rains have left the Iowa
fields full of dead grasshoppers, thus
saving the crops.
The coal companies at Syracuse re-
fuse to sell more than one ton of coal to
a customer at a time.

Jefferson Davis is now making a
tour through Scotland, accompanied by
Dr. Charles Mackay.
The French Government has authoris-
ed the French cable company to lay a
cable from Havre to England.

In some parts of Georgia the cotton
plants are so heavy with balls as to
break down, and two twines to the acre
are expected.
The wine growers of California have
opened negotiations with the Central
Pacific and other railroad companies
for such reduction on wine packages as
will enable them to ship overland in-
stead of by sea.

Dr. Bingham of Utica, was arrested
and locked up, last week charged with
the murder of a Mrs. George Johnson
in an attempt to produce abortion.
The woman was found dead in his office.
She leaves a husband, who is an
intemperate man, and three children.

Nothing in the newspaper descriptive
of the eclipse can outdo this, from a
Chicago paper: "Miss Luna, that heav-
enly 'girl of the period' will this even-
ing overtake and snuff out Mr. Sol,
her effluent old man, by whose bor-
rowed light she has been shining so
long. Coquetry ever terminates thus-
ly."

CROPS HEREABOUTS.—We have had
less rain during the last two weeks
than previously. Some of the weather
has been warm and crops came forward
finely. Last week was pretty cold for
the season. We heard of a slight frost
at Erie Shore. A great deal of the
winter wheat is now in barns. It was
got in mainly in good condition. All
agree that it is a yield above the average.
The finest crop in some years. All
other sowed grains are very good and
promises a similar yield. Potatoes
rarely ever look so well as they do at
present. Should the very wet weather
continue there are fears of potato rot.
The hay is largely cut and in this sec-
tion the quantity far exceeds the crops
of any previous year. The weather
during the haying season so far has
been so "catching" that the crop is not
generally in so fine a state as it is in
drier seasons. Corn is very backward,
the slowest crop we have. Nothing
but a very late, warm and favorable
fall will insure the maturity of the
great portion of the corn in this part
of the State. Small fruits have been
abundant. But apples are hardly an
average right about here. Trees that
are bearing are in a thrifty condition
and hold out the promise now of fine
fruit. Upon the whole we have no
reason to complain in this region, on
account of crops.—Chautauque Dem.
