CHILDREN'S NIGHT

Report of State Assembly Delegate, Mrs. Emma Church

Children's Night, an annual event, at Rebekah Lodge, was observed Wednesday night, with a fine program presented by the young people and children, followed by a supper. The young honor guests were served at two large tables attractively decorated for the occasion.

Past Noble Grand, Mrs. Emma Church, who represented Andover Lodge, 303, at the State Assembly which convened in Schenectady recently, gave a splendid report of the sessions.

During the refreshment hour a revolving wheel of colored lights in the center of the dining room by electrician Ernest Higby was a source of pleasure to the little ones as well as the older guests.

While at the Belmont jail Sweet gave as his excuse for breaking jail at Hutchinson that he was in the last stages of tuberculosis and wanted to come home to die. Examination showed that Sweet had little symptom of the dread disease.

RED LIGHT

"So Bill was arrested last night for being drunk and driving without lights?"

"Yes, Bill was lit up and the car wasn't."

A new package of LePage Mucilage has a rubber top just like your thumb; it spreads the stickum when pushed down but seals the bottle as it springs back into place. It is worth ten cents just to play with.

We hear so many people say "My flash light is always out of order, and the batteries don't last."

We not only sell you batteries that last longer and give less trouble, but we service your light and keep the contacts in order so it will always be ready to light you on your way.

Over this week-end any old flashlight and 89 cents buys a Niagara Searchlight; or if you just want a real good flash light the exchange will cost you only 69c.

Come a hot night, an Atlantic Milk Stirrer may save you a mess.

They are heavy stock, saucer shaped, perforated cups and will remove the animal heat from a can of milk in two shakes.

Made to last. Price only 50c.

Clauss, the big cutlers in Fremont, Ohio, are making Gillette Razor Blades, they have spent a lot of money putting in equipment for making these blades and can expect to get into the market, stay in and grow only by making better blades.

We want you to try them on our say so and the company's guarantee; more and smoother shaves or your money back. Ten sharp edges 45c.

Invader individual shingles give you three coverings all over; the most years of service for the money that you can buy anywhere today.

They don't season check, warp or curl, are nearly fire proof and they can't leak.

Let us do your next roofing job with Invader shingles and save you a lot of money, and give you a cover that will last so long that you will have forgotten when it was put on.

We believe if every person in Andover who drives a car more than one season old, knew just what Simoniz Cleaner and polisher would do about keeping the finish looking new, they would Simoniz their car at once.

Your car will clean easier, stay clean longer. You will take much more pride in its appearance if you keep it Simonized; good for all finishes and all parts of the car.

Let us give you a demonstration. No cost, no trouble, no obligation.

Seed corn, seed barley, seed peas, stocks going out rapidly; plenty of Million Dollar Grass for all our trade. Be sure you are all set for green feed when the pastures shorten up in August; cheaper than mill feeds.

Some people are satisfied to get along with dull kitchen knives because they don't know the difference.

No excuse today for dull knives, shears or any tool around the home. Anyone can use a Gem Sharpener and they will keep all edges keen.

It will take a good Lawn Mower to clean up this week, the grass has grown heavy and thick.

If you get tired pushing the old one, get an Elwood made machine. They come in three models, $13.00 to $18.00—they cost a little more and worth every cent of it. Look them over.

Every lawn will look better if combed frequently. Bamboo Lawn Combs, 75 cents. Spring Steel Lawn Combs 90c.

REAL SALESMANSHIP

During the war the officers of one of the colored companies were having trouble getting the darkies to sign up for sufficient life insurance and detailed one of the negro non-coms to help. This non-com presented the proposition in this way:

"If you is insured Uncle Sam values you at $10,000. If you ain't, Uncle Sam don't stand to lose nothin' if you die. Now, I leaves it to you—which bunch of men is Uncle Sam goin' to send to the front line trenches?"
