OF INTEREST TO FARMERS

CAN RHUBARB FOR WINTER

Put Up Supply While It is Plentiful in the Spring—College Suggests Ways.

While rhubarb is plentiful this spring, put up a supply for the family's use next winter, suggests Lucile Brewer, of the New York state college of home economics.

Rhubarb should be washed thoroly and cut in pieces about an inch long, with the skin left on to give color. To can it for sauce or pie-filling, pack it as tightly as possible in a jar and fill the jar to overflowing with a hot heavy syrup made by cooking together twice as much sugar as water until the syrup forms a thread when dropped from a spoon. Adjust the rubber and lid but do not seal the jar. Sterilize the jar for 15 minutes on a rack in a covered kettle of boiling water. The water should be at least one inch over the top of the jar. Remove the jars from the water, seal them, invert them on a cloth, cool and store them in a cool dark place.

To make a richer sauce fill the jar with alternate one-inch layers of rhubarb and sugar with a layer of sugar on top. Adjust the rubbers and lid and boil the jar in a water bath 25 minutes. Remove it from the water, seal, invert the jar and allow it to cool.

Use With Strawberries

Rhubarb and strawberries make a delicious combination. One pound of rhubarb and one quart of strawberries may be cooked together with two-thirds as much sugar until thick, poured into clean, hot jars and sealed immediately.

For summer beverages, jellied deserts or pudding sauces cans of rhubarb juice are useful. Cut the rhubarb in small pieces, add just enough water to cover it, and simmer until it is very soft. Strain thru a jelly bag. To each quart of juice, add one cup of sugar, heat it until the sugar dissolves, skim, and boil it five minutes. Pour it into clean hot jars and seal.

Homespun Yarns

Careful planning cuts down time in preparation of meals.

• • •

To save time in making custards, scald the milk before adding it to the egg.

• • •

Clothes should be damper for an ironing machine than for ironing by hand.

• • •

Never turn electricity on or off when you are standing on a wet or even on a damp floor.

• • •

Rhubarb is best canned in syrup without water. Leave the skin on for the natural rich color.

• • •

To help children to have good appetites serve them food without strong flavors, give them sweets only in small quantities for dessert and permit no lunching between meals.

HIGHLIGHTS ON STATE CROPS

From New York State Dept. Agriculture and Markets April 23, 1929.

Potato Market Steady

The market on old-crop white potatoes was without decided change, according to the New York office of the New York State Department of Agriculture and Markets. Moderate supplies were on hand and buying was fair. New York up-state, round white potatoes in bulk, peddled out at $2.40 to $2.50 per 180 pounds. Supplies of celery from the Bermuda islands are steadily increasing. The demand was moderate and prices tended upward particularly on fancy stock. Sales were reported within the price range of $3 to $4.50 per crate. Florida offerings were in lighter receipt and brought from $1.25 to $4.

Apple Market Dull

Price changes on Western New York barreled Baldwin apples were small and unimportant. Supplies, however, were more liberal and the demand was not quite so active.

Butter—Cheese—Eggs

The butter market opened firmer on Monday and prices advanced to 43¾c, at which level they are now holding.

The cheese market is very firm on held cheese, but rather quiet on fresh makes, which are arriving in small quantities. New York flats, fresh, fancy are 22½ to 23c per pound.

The egg market opened Monday with a firmer tone due to increased demand caused by the approaching Jewish holidays. Prices advanced on fancy, white eggs 3c per dozen and on brown eggs two cents. Today's prices: Hennery white eggs, best quality 36 to 39c; hennery brown eggs 34 to 37c.

Country Dressed Calves

Prices have advanced very materially on country dressed veals, due to cooler weather and increased demand. Choice were 21 to 22c per pound; good 18 to 20c; common 15 to 17c; small to medium 15 to 18c. Lightweights 13 to 14c.

Live Poultry

Receipts of live poultry were light by express and moderate by freight. The market was steady. Fowls, leghorn 28 to 30c; colored 34 to 35c; broilers, rocks 50 to 53c; reds 45 to 48c; leghorn 40 to 46c.

Livestock

Below are given Monday's livestock prices. Tuesday's prices were nominal. Lower prices are anticipated. Bulls: Market steady to firm a few good $9.75; medium $9 to $9.50; common quality $7.25 to $8.25. Cows: (mostly dairy) market steady; common and medium $7 to $8.25; a few good at $8.50; low cutter $4.50 to $6.75; reactor cows $5 to $8.25. Vealers: Demand active, market steady to firm, prices $1 higher. Good and choice $17 to $18.50; a few selected at $19; medium $14 to $16; culls and common $9 to $11. Calves: (whole milk-feds excluded) market steady to firm, prices higher; medium and choice $9.50 to $10.50; culls and common $7.50 to $8.50. Lambs: Market steady to firm, demand active, prices higher. Good and choice wool $17 to $18; culls and common $10 to $12. Hogs: Market steady: 85 to 180 pounds $11 to $11.50; 130 to 160 pounds $11.75 to $12; 165 to 220 pounds $12 to $12.25; sows (rough) $8.75 to $9.50.

Hay Market Steady

U. S. timothy No. 1, $26 to $27; No. 2, $23 to $25; No. 3, $20 to $21.

Uncle Ab says the great men he has known owed their eminence more to character than to cleverness.

Dr. LeGear is a graduate of the Ontario Veterinary College, with over 30 years of live stock and poultry experience. Nationally known poultry expert. Noted author and lecturer. 71

THE CASH VALUE OF CLEANLINESS

Sanitation, by Insuring a Healthy, Productive Flock, Pays Actual Cash Dividends, Says Dr. L. D. LeGear, V. S., of St. Louis, Mo.

Little Johnny, in his bath, with ears full of soap and soul full of rebellion, undoubtedly has no use whatever for the doctrine that cleanliness is next to Godliness. To him it is just a pain in the neck—a devilish invention of grown-ups to keep a boy from his rightful occupation of play. Left to himself, he will most certainly have as little as possible to do with that particular kind of Godliness.

Most grown-ups recognize the desirability of personal cleanliness and of common sense sanitation in their homes and places of business. It is more comfortable to be clean after one has reached maturity and too inconvenient to suffer the expensive ills that result from unsanitary surroundings. When it comes to their poultry, however, that is quite a different story in all too many instances.

The same man who would recoil in horror from a filth-encrusted dish placed before him on the table allows his fowls to eat and drink from utensils that are no less an offense to decency because they are in the poultry yard instead of a dining room. He will howl his head off if Junior tracks a little mud onto the living room rug, but he will allow droppings, decomposed food material and other offensive litter to accumulate in his henhouse until they smell to high heaven. He is scrupulously careful about the lawns near his house, but his chicken yard looks like that lower corner of the "south forty" after the last batch of city picnickers had done their worst to it. Then he wonders why his fowls are such poor layers, look so droopy and dispirited and so readily take on all the ills that chickens flesh is heir to.

The discoveries of Dr. Gorgas in Panama and of Dr. Noguchi, who recently died a martyr to science in Africa, have shown how certain kinds of mosquitos transmit the germs of yellow fever. This suggests that such parasites as lice, fleas, mites, ticks and bedbugs, which so often infect chickens, may also be carriers of disease. There is reason for believing that such is the case, but whether they do or not, such parasites cause a heavy drain on the vitality of the fowls. That means decreased ability to block the progress of disease should infection occur from other sources. The simplest kind of sanitary measures will make poultry houses and yards very unhealthy for germs and parasites, so why they should be tolerated is past understanding. Simple cleanliness is the first essential of sanitation. Poultry houses should be made so they can be scrubbed out occasionally and they should be regularly sprayed with coal tar dip or disinfectant.

No animal or vegetable matter should be allowed to remain exposed in yard or house until it begins to decay. All such material should be removed and burned or deeply buried. Be particularly careful so to dispose of fowls or animals that have died from one cause or another.

Drinking vessels and feeding equipment should be watched carefully. All fountains, troughs and hoppers should be so constructed that the fowls cannot get in them with their feet or roost on them, thereby befouling the contents with dirt or droppings. Fresh water should be given at least once a day. All feeding and watering equipment should be thoroly scrubbed out, scalded or disinfected at frequent intervals.

Droppings are perhaps the most dangerous of all possible sources of infection. They are almost invariably breeding grounds for disease germs and also frequently harbor intestinal worms. These may be picked up by fowls not already affected, thus spreading the evil. Furthermore, nothing could be worse for fowls above a filthy droppings board. The odors and gasses arising from droppings are extremely unhealthy. Continued breathing of air so contaminated weakens the lungs, thus making easy the progress of any disease which may be contracted later on. Both roosts and droppings board should be frequently cleaned and disinfected, as well as the whole house. It is also advisable to cover the droppings board with wire netting so the fowls cannot get into the droppings with their feet.

Birds that show signs of disease should always be put by themselves and treated until it is safe to return them to the flock. If any considerable number of them show signs of the same trouble, they should all be taken out of the flock and a wholesale cleanup should be made; clean out and disinfect all houses and equipment; clean up yards and in every way attempt to remove all possible sources of infection.

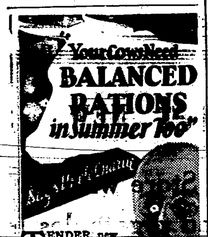
Not all of the possible sanitary measures can be discussed in an article of this kind, but some of the most important ones are described above. A good dip and disinfectant used regularly and conscientiously will go a long way toward making disease impossible in your poultry flock, not forgetting the most effective of all—God's own great sterilizers, fresh air and sunshine. It is not as easy to keep things sanitary as it is to let them go to pot, but it does keep down disease and THAT PAYS.

If it's good printing you want—we do it.

Spring Showing of General Motors Cars.

This week, throughout America, the public is viewing the newest models of General Motors products.

Check and mail the coupon below. It will bring this Spring Showing into your own home.



TENDER, new grass will soon be coming up; high-percent proteins won't be needed.

But for reasons of economy, top-notch milk production and the cow's good health you can't rely on pasturage alone. Keep your cows on a balanced ration throughout the summer.

Feed Now—Bigger Profits Later

Later on, you'll see the results of feeding Marmico, the 16% B-B Dairy Feed, when instead of drying up, your cattle keep on producing milk—throughout the high price milk period.

Marmico Economical

Frank Lepairal, E. Maui & Company, at West Grove, Pa., writes: "I have fed Marmico (16%) this summer (1928) to 75 head of Guernsey Cows, testing against a feed costing $16 more per ton. Marmico is by far the better feed, producing just as much and in some cases more milk".

As always, we guarantee Bull-Brand Feeds to be the most productive per dollar of feed cost—or your money back. Marmico Milling Co., Inc., Buffalo, N. Y.

Andover, N. Y.

Bull-Brand Feeds

CHEVROLET—Last year the public bought more than 1,000,000 Chevrolets. This enabled Chevrolet and General Motors to effect one of the most remarkable feats in industrial history: almost overnight, Chevrolet was changed from a 4-cylinder car to a Six *in the price range of the four*. The new Chevrolet Six is *new* in every respect: smoother, more powerful, and luxurious bodies by Fisher.
7 models—$525 to $725

PONTIAC—Since General Motors introduced the Pontiac Six three years ago, its sales have practically *doubled* each year. Now General Motors offers, in the *new* Pontiac, a "*Big Six*," at the same base price. It has big-car power, big-car performance and big-car luxury in its Bodies by Fisher. It is appealing particularly to families which are "stepping up" in car ownership.
7 models—$745 to $895

OLDSMOBILE—General Motors took this long-established car and remade it to provide a fine car at low price. Last year the value of Oldsmobile was so marked that the public bought over 50 per cent more than the year before. The *new* Oldsmobile models, with Bodies by Fisher, offer still further improvements — and the prices have been reduced! Oldsmobile also has new Special and De Luxe models, with extra features, at slightly higher prices.
7 models—$875 to $1055

OAKLAND—General Motors' policy of continuous improvement is nowhere more noticeable than in the *new* models of the Oakland All-American Six. The distinctive style and advanced engineering principles which Oakland represents have made it a center of unusual public interest at automobile shows. All-American in name, the new Oakland is All-American in its qualities of speed, ease, power and stamina. Fisher makes the bodies.
8 models—$1145 to $1375

VIKING—There was demand for an 8-cylinder car of General Motors quality in the medium price field. General Motors chose Oldsmobile to design and build the new car, and three years were spent in its development and test. The result was revealed last month in the Viking, the latest member of the General Motors family. Viking has the world-famous 90-degree V-type engine and Fisher's finest creations in bodies.
3 models—$1195

COUPON
GENERAL MOTORS (Dept. A), Detroit, Michigan
Please send me, without obligation, your illustrated Spring Showing on the new models of the products I have checked, together with your new booklet of interest to us buyers—"The Open Road."
☐ CHEVROLET ☐ PONTIAC ☐ OLDSMOBILE ☐ OAKLAND
☐ VIKING ☐ BUICK ☐ LaSALLE ☐ CADILLAC
☐ *Frigidaire Automatic Refrigerator*
☐ *Delco-Light Electric Power and Light Plants* ☐ *Water Systems*
Name.....
Address.....

BUICK—This famous member of the General Motors family, year after year, has given increasing value. Over 2,000,000 Buicks have been built and sold and of this total 1,500,000 are still serving their owners. The *new* Silver Anniversary Buick, with masterpiece Bodies by Fisher, comes in three wheelbase lengths. All are powered by the Buick Valve-in-Head engine, which is vibrationless beyond belief.
19 models—$1195 to $2145

LASALLE—When General Motors introduced LaSalle, two years ago, it set a style which was widely copied both in America and Europe. The *new* models are as distinguished as the first. Built by Cadillac, LaSalle enjoys the taste, technical excellence, 90-degree V-type engine of 8 cylinders, transmission that permits gear shifting without noise or clashing at any speed. The bodies, by Fisher and Fleetwood, offer a choice of colors to express individuality.
14 models—$2295 to $2900

CADILLAC—What more can be said of Cadillac? For twenty-five years the world's standard of comparison in the fine car field. The choice of kings, presidents and leaders in business and society in every country. To the unfulfilled performance of Cadillac's 90-degree V-type 8-cylinder engine has been added the silent transmission and many new advances in design. Your choice of colors in bodies by Fisher and Fleetwood.
25 models—$3295 to $7000

County Correspondence

South Hill

April 24.—Conditions are again normal in the country, after the severe storm period, and farmers are hoping that spring is here.

D. J. Appier of Andover is working for Lynch brothers.

Due to the big snow storm last week, Miss Seely of Andover had an enforced vacation of a few days from her school work in Fulmer Valley.

Mrs. Anthony Dougherty and babe visited her home in Wellsville, Saturday.

David Slocum of Andover is doing some shingling on Ed. McAndrew's farm buildings.

Mr. and Mrs. Howard Dean have moved into the Robert Dean house, which they will occupy this summer.

Mr. and Mrs. J. Daniher of Wellsville were South Hill visitors, Sunday.

Mr. and Mrs. Schoonover attended the funeral of their nephew, Lewis Kenyon, of Pingrey Hill, Friday.

Com. Howland of Andover drove his truck over our highways, Monday.

John Dean of Buffalo was a weekend visitor on the hill.

Mr. and Mrs. Howard Dean were Wellsville visitors, Monday afternoon.

George Youmans spent Sunday with Elm Valley relatives.

Miss Anna O'Leary of Andover was the guest of her sister, Mrs. Margaret Dean, Monday and Tuesday.

Greenwood

Mr. and Mrs. George York and two sons, James and Alton of Church Hill and Mr. and Mrs. Earl York and two children of Canisteo visited Mr. and Mrs. John Rogers, Jr., Sunday.

Mr. and Mrs. Howard Scribner and two sons of Wellsville passed Sunday evening with Mr. and Mrs. A. L. Trowbridge.

Born, Sunday, to Mr. and Mrs. Ross Woodworth of Coby Creek, an eleven pound son.

Mr. and Mrs. Ordo Williamson and children spent Sunday afternoon with Bell Bennett at Young Hickory.

Mrs. Peter Rollins is very ill with infection in her hand and arm.

Rev. Van Dusen of Elkland, Pa., preached at the M. E. Church Sunday morning.

Miss Agnes McCaffery spent Sunday night with Miss Mae Whitmore.

Mr. and Mrs. Archie Mallotte spent Sunday with their daughter, Mr. and Mrs. Guy Drake.

Born, Sunday, to Mr. and Mrs. Chauncey Earsley at St. James Mercy hospital, a daughter.

Ethel VanDuren of Elkland, Pa., spent Monday night with Olive Clark.

Mrs. Olive Trowbridge and Agnes Caffery spent Monday evening with Mrs. Ruth Williamson.

Mr. and Mrs. George Stephens will leave Friday for Akron, Mich., to spend the summer with Mr. and Mrs. Bud Frant.

Mr. and Mrs. Hubert Foster visited Mr. and Mrs. Clark Foster, Sunday.

Mrs. Mary Webster and son, Clarence, were in South Canisteo, Sunday, calling on friends.

Mrs. H. C. Caffery and son, Stewart of Jasper visited her parents, Mr. and Mrs. A. L. Trowbridge, Monday.

A. L. Trowbridge of Greenwood produced and sold to the Newark Milk Co., 1,501 pounds of milk from one cow during the month of March for which he received $41.05.

V. King and son of Slate Creek were in town, Tuesday, on business.

Davis Hill

(Too late for last week)

Mr. and Mrs. Leo Davis, Mr. and Mrs. Leeman Davis, Mrs. Leroy Davis, Mrs. Floyd Slocum and Mrs. E. Canron attended the funeral of Helen Scott of Belmont, Thursday.

Mr. and Mrs. Manuel Scott attended the funeral of Winnifred Perry, his niece, of Buffalo, at the home of Walter Scott on the Wellsville road, Friday.

Mr. and Mrs. Ed. Briggs were visitors on the hill for a few days last week.

Mr. and Mrs. Arling Briggs, Mr. and Mrs. Ed. Briggs, Misses Rosanna and Edna Joyce and Billy Meade were entertained at supper at Floyd Slocum's, Saturday evening.

Mrs. Mabel Halsey assisted in the home of Cass Kenyon on Pingrey Hill last week, during illness and death of their son, Lewis.

Mr. and Mrs. Floyd Slocum and Mrs. Sophia Slocum visited at Frank Slocum's of Shongo, Sunday.

April 23.—Mr. and Mrs. Leeman Davis were business visitors at James Gibson's, Monday.

Mr. and Mrs. Frank Halsey and sons, Charles and Fred, Mr. and Mrs. Lawrence Ordway and Mr. and Mrs. Glenn Halsey attended the funeral of Lewis Kenyon, Friday.

Mrs. Leroy Davis and Miss Marion Clark are doing some papering at the home of Mrs. Floyd Slocum.

Chet Green is skidding logs for Ray Rogers this week.

Mr. and Mrs. Leeman Davis and Mrs. Leroy Davis were in Andover, Tuesday evening.

Mrs. Leroy Davis was a visitor at Frank Davis, Wednesday night.

Mr. and Mrs. L. E. Davis received a nice cabinet Radiola this week as a present from their son and wife, Mr. and Mrs. U. V. Davis of Rochester.

Barney Mills

April 22.—Mr. and Mrs. Sherd Austin shopped in Hornell on Friday.

Mrs. James Wallace spent several days last week with her son, Lee and family of Canisteo.

Mr. and Mrs. Fred Updyke and son were Monday night supper guests of Mr. and Mrs. Carl Tracy.

Several men of our community were in Addison, Thursday night, to take part in the I. O. O. F. program.

Norman Tracy returned to Buffalo, Sunday p. m., after spending a few days at his home here.

Our recent snow and rain have made the roads so bad that several cars had to be pulled out.

Notice to Creditors

Pursuant to an order of Hon. Guy O. Hinman, Surrogate of the County of Allegany, notice is hereby given to all persons having claims against the estate of Randall A. Pease, late of Andover, N. Y., deceased, to present the same with proper vouchers thereof to the undersigned Executor of said Estate, at the Law Office of Crayton L. Earley in the Village of Andover, N. Y., on or before the first day of September, 1929.

Dated this 15th day of February, 1929, at Andover, N. Y.

Dr. Caldwell's 3 Rules Keep You Healthy

Dr. Caldwell watched the results of constipation up 47 years, and he knows. Why not master how calomel, laxatives and other drastic medicines are of their healthy diet and prevent constipation without causing nausea, griping and discomfort of any kind? Dr. Caldwell's 3 Rules are simple—but tremendously important. Well, as how to start it when it comes. Dr. Caldwell advises a dose of Syrup Pepsin in Water on getting up. Then to return to normal, hence his weekly for constipation. Syrup Pepsin, Dr. Caldwell's Syrup Pepsin, is a mild, vegetable compound. It tastes and acts like the most delicious syrup and is not a laxative. Young people like it. Syrup Pepsin is pleasant-tasting, and youngsters love it. It does not gripe. Thousands upon thousands have written us to that effect.

Dr. Caldwell did not approve of drastic physical cathartics. He did not believe they were good for human beings to put into their systems. In a practice of 47 years he never saw any cause for their use. Nature is medicine like Syrup Pepsin will supply the bowels with moisture, soften the stools and gently, painlessly and safely and harm to the system. Syrup Pepsin is not a laxative. It acts like Syrup Pepsin, your bowels will move regularly and healthy, and you will feel like a million dollars. Take the proper dose that night and by morning you will feel like a different person. Use Syrup Pepsin for yourself and members of the family in constipation, biliousness, sour and crampy stomach, bad breath, so painful headaches, and to break up fevers and colds. Always have a bottle in the home, and observe these three rules of health: Keep the head cool, the feet warm, the bowels open.

We would be glad to have you prove at our expense how much Dr. Caldwell's Syrup Pepsin can mean to you and yours. Just write to "Syrup Pepsin," Monticello, Illinois, and we will send you prepaid a FREE SAMPLE BOTTLE.

W. B. Caldwell, M.D. AT AGE 93

COUNTY Y. M. C. A. TO LAUNCH DRIVE

Canvassers Will Solicit the County for Funds for Two Years' Budget—Want $18,000 for Work.

The organization for the Allegany County Y. M. C. A. Campaign is rapidly maturing. The goal of the campaign will be $18,000. This amount will cover the budget of activities for the period of two years, April 1, 1929 to March 31, 1931. This method of financing the Y.M.C.A. budget will release the energies of the secretaries and committeemen for the more careful study of the association's field, the enrichment of the program as well as the discovery and training of volunteer workers.

The subscription will be made payable quarterly, semi-annually or annually during the two years.

The active period for the campaign will be from Monday, April 29, to Friday, May 3, inclusive. An organization of approximately 200 men is being set up for this county campaign.

The Campaign Rally will be held at the Y. M. C. A. headquarters in the David A. Howe library building at Wellsville, April 29, at 3:30 p. m. All of the workers in the campaign are earnestly requested to be present. An interesting program is being arranged. Mr. Ward Hopkins of Cuba will preside. Special music, brief talks and full instructions regarding the conduct of the campaign will be features of the meeting.

The many outstanding achievements of the Y. M. C. A. since its inception in Allegany County eight years ago are greatly to the credit of the organization and all of the friends who have co-operated in making possible an effective program of character-building activities for our youth.

Mr. H. E. Goodrich of Richburg is serving as general chairman of the campaign. The county has been divided into six districts in which the following men are serving as chairmen:

District No. 1 headquarters, Wellsville, M. D. Church, chairman; Paul Davis, associate chairman.

District No. 2 headquarters, Bolivar, chairman to be supplied.

District No. 3 headquarters, Angelica, Clarence Lathrop, chairman.

District No. 4 headquarters, Cuba, Ralph M. Wheeler, chairman.

District No. 5 headquarters Fillmore, Hollis Young, chairman.

District No. 6 headquarters, Canaseraga, J. C. Craig, chairman.

The following towns are linked up with the respective headquarters:

"Wellsville headquarters" Alfred, Andover, Independence, Scio and Whitesville.

Bolivar headquarters: Allentown, Little Genesee and Richburg.

Angelica headquarters: Belfast, Belmont and Friendship.

Cuba headquarters: Black Creek and West Clarksville.

Fillmore headquarters: Caneadea, Houghton and Rushford.

Canaseraga headquarters: Birdsall, Almond and Swain.

Each town will have one or more teams supervised by a committee commander. Each team will include a captain and four additional workers.

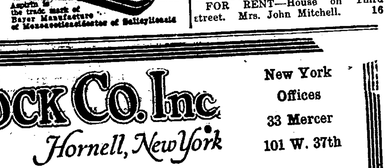
Associated with Mr. H. E. Goodrich, general chairman of the executive committee, are the district chairmen above mentioned together with Ward M. Hopkins, R. J. Ellison. Additional men will be secured within a few days.

A representative group of citizens have accepted membership on the Advisory Committee. Among others who have agreed to serve are: Harry Bradley, J. H. Lester, S. F. Booth, Fred Litchard, Charles Tompkins, A. E. Wells, George B. Booth, F. J. Moser, E. E. Cantrell, Harry Kelley, Dorr Graves, George Bradley, W. E. Sawyer, D. P. Snyder, C. A. Ackerly, A. L. Shaner and George Rose.

Mr. L. E. Hawkins, representing the National Council of the Y. M. C. A., is directing the campaign in co-operation with Mr. S. F. Lester, general secretary of the Allegany County Y. M. C. A.

The News strongly endorses the Y. M. C. A. in this county and is confident that our citizens will generously support this movement which has proved itself to be of institutional value in the lives of an increasing number of our youth. The Y. M. C. A., in its program, emphasizes the importance of preventative rather than creative measures. It stands for co-operation with the church, the home and the school. We believe our team will do its full share in making this financial campaign a complete success.

DON'T suffer headaches, or any of those pains that Bayer Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not affect the heart. Every druggist has it, but don't fail to ask the druggist for *Bayer*. And don't take any but the box that says Bayer, with the word *genuine* printed in red:



Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

BRIEF BUSINESS BRIDGERS
