Long Life to Them.

Down Goes Wheat.

What Will Labor Do?

Machinery Plus Power.

You hope that "the" young couple will live many years happily, and everybody knows that you mean Colonel Lindbergh and his wife.

There is happiness in being well known, and well liked for good reasons, and young Lindbergh possesses it.

Without exception, the entire world wishes him well.

The price of wheat dropped to 97¼ cents some days ago. Lowest price since 1914. For the Federal Reserve and the combined forces of usury to attack stock values makes no difference. Only wicked gamblers buy stocks.

But the conduct of the Federal Reserve will attract President Hoover's attention, if wheat, cotton and other farm products continue dropping.

It is embarrassing to take office on a "save the farmer" platform and find that your Federal Reserve is hitting the wheat and cotton growers on the head.

Labor appears to have won the British election.

British labor is socialistic, much of it communistic, but of mild communism.

Imagine the panic in dear old Wall Street and every well organized financial mind if Labor and Socialism controlled the government of this country.

But the British will manage. They "muddle thru" because they have common sense and British Labor has honest, intelligent leaders.

Ramsay MacDonald is as good a man as there is in Britain, altho not as great or able a statesman as Lloyd George.

The motto of the Pacific Coast seems to be: "If you haven't got a thing, get it."

The city of Stockton, the San Joaquin and Sacramento valleys can produce enough food to feed a great part of the world.

But the place needs a harbor for ships, and will have it. Stockton, the State of California and the Federal Government this year will dig a deep water channel to the sea, and Stockton will have a harbor "big enough to hold 90 per cent. of the ships that come thru the Golden Gate."

No one knows what the future of the Pacific Coast will be, or what the size of inland harbors built will be, wherever men want them.

Mr. George E. Moore of No. 52 Vanderbilt avenue, New York City, can tell about an electric shovel that digs 15 cubic yards of earth at one bite. You can dig out another Lake Michigan with a tool like that. Given machinery PLUS POWER, everything is possible.

If you are not drinking Heart's Delight Coffee, you are missing one of the joys of life—it is better quality, but not higher priced.—Advertisement.

NATURE STUDY

Teacher: "What do elephants have that no other animals have?"
Pupil: "Little elephants."

Old man bug and all the little bugs have their eye on your garden and are just waiting to see if you are trying to grow something that is fit to eat.

Old Lady Muzlactydils and her brood have just found out that the current bushes are serving meals, and if you could see thru a miscroscope what is going on among the leaves and branches of your foliage and fruit trees, a circus would be a tame show in comparison.

We have all the favorite bug and worm destroyers, also the dope that controls mildew, blight and all fungus growths, with the sprayers and dusters to apply.

A substantial effective sprayer with one quart brass can at 86c; others from 15c up.

This weather will create a desire for cold dishes, sherbets, frozen custards and ice cream.

Lightning freezers have long proven their excellence as dependable producers of frozen dainties and we are able to supply a reasonable demand at very low prices. Three-quart $3.25; four-quart $3.75; six-quart $4.75.

The Rigid is a revelation in solid construction Ironing Boards, stands square on its feet, as solid as a kitchen table.

Wide ironing space with a long neck for sleeves and children's wear.

Slightly smoked on the under side, but perfect for use $2.50. They were in the same building with the fire.

The large size wire clothes lines from the fire stock—100 feet, 48c.

Electric Irons, with a few small rust spots, bottoms smooth and highly nickeled. Your choice—$2.35.

Some of these hot days you will be looking for a fan, see what we are offering.

Mr. Dudd: "Are you going to be a philosopher, like your father, when you grow up?"
Willie: "No, I'm gonna be a waiter, cause Pa says all things come to him who waits."

Making paint is very much like making cake; one cook will dab a bunch of ingredients together, turn on the heat and out comes a most delicious cake; another will go thru the same motions and out comes a mess of junk that no one cares for.

It takes years of intelligent application and anylctical study to make a superior paint product, and there is a yast difference between quality paint and the hundred and one offerings on the market highly advertised as good paint; it is good only for the people who sell it.

Fifteen years ago Benjamin Moore's paint was sold in only two paint stores in Western New York. Today it has more agencies and distributors than any other make. The reason is more covering capacity and longer wear per dollar of paint cost.

Let us estimate your job.

Don't overlook the money we can save you on roofing; ashphalt or steel.

We sell a heavy grade of roll roofing at $1.75. Ashphalt slate surfaced shingles at $4.75, and corrugated galvanized roofing at $5.50.

Roof Paint, pure ashphalt, five-gallon pails $4.25; asbestos roof cement, five-pound can, 85c.

Special price on large lots.

How would you like to add a six-eight Crescent Wrench to your auto kit for an even dollar? They are $1.35 regular.

Every day more Andover people are riding around on Brunswick tires. They like the quality, the guarantee and the price.

30x3½ Brunswick Tire and Tube—$6.14.—Every day regular price.

Table Cookers in colors, you can cook a breakfast on one of them easily, quickly and comfortably—price $1.50; Toasters, $3.50; Percolators $5.50 and up.

We furnish fillers for one pint vacuum bottles at 75c.
