Back to Stockings. American Prosperity. How Much for Farmers? Without Hope.

Manufacturers of silk and other stockings hope that advertising will enable them to drive out the "bare leg" craze now afflicting lovely women.

Moralizing appeals to modest refinement won't do. Bare legs must be banished, as the almost universal habit of chewing tobacco was banished by public opinion.

Make women realize that an imitation of a butcher shop is not artistic and they will go back to stockings.

Calvin Coolidge, tanned, smiling, beaming with health, is enthusiastic about American prosperity. He well may be.

Money is made rapidly here. Three years ago an investing company was formed with $6,500,000. Now it issues $24,000,000 in six per cent. preferred stock, and shows profits of over $40,000,000. Nevertheless DON'T GAMBLE.

That advice is probably useless. The public agree with the distinguished Mr. B. Baer, who says: "If we cannot get our fices on Government money, the next best thing is to get your hands on it." Too many believe that gambling is the best way to get your hands on it.

Farmers are told that the value of this year's wheat crop has increased $364,000,000 since June 1. How much of that the farmers will get, how much middle men, and especially wheat gamblers will get, nobody knows.

Farmers might hire an intelligent wheat speculator to sell their crops for future delivery when prices are high. As it is they wait until the wheat is threshed. Then the price is lower.

Present estimates show that the four big crops, wheat, corn, oats and rye, are worth $3,545,000,000, an increase of more than a thousand million dollars in two months.

A savage outbreak of convicts in New York's Clinton Prison is easily explained.

Too many "life" and "long term" prisoners were herded together. Such men are willing to risk death because they are hopeless.

Lacking hope and its courage, you have a bad situation. Goethe said: **"Money lost, SOMETHING lost.*** "Honor lost, MUCH lost.*** "Courage lost, EVERYTHING lost, better you were never born."**

For successful blackberry jelly use underripe berries or half berry and half apple juice.

NEW ERIE LIMITED IS MAKING GOOD

Officials State That the First Two Months' Record Is Very Satisfactory to All; Traffic Shows Increase.

New York.—The Erie Limited, the new 25 hour New York-Chicago passenger train which made its debut on June 2nd, is now entering its third month with a record of having met every expectation of Erie officials and the traveling public, according to C. C. Howard, passenger traffic manager.

The volume of thru traffic that it has been accorded, Mr. Howard said, has shown a gradual and steady increase. Travelers from western and southern states coming east via Chicago, and attracted by the announced daylight run thru the famed scenic beauties of the Allegheny, Susquehanna and Delaware valleys, have shown a decided approval of the train, its schedule and equipment. This approval has been expressed thru hundreds of letters and telegrams. Many of these communications were sent to President C. E. Denney, others to Mr. Howard, and others to passenger representatives thru whom tickets were purchased an accommodations arranged.

In addition to the thru traffic, it was added, the volume of intermediate business that the Limited has, and is, enjoying evidences the approval of summer vacation travelers bound to and from the many mountain, river and lake resorts on the route that the Limited travels. Further evidence of this is the fact that it has been necessary to supplement the regular equipment of Pullmen sleepers and parlor cars slotted to this train, to take care of those who have been attracted by the reputation the Erie Limited has established.

Shelves or other holders for shoes make the clothes closet easy to keep clean.

Where to Get Off

A sweet little blonde and a man with a devilish look in his eye were riding all alone atop a bus. The man immediately put his arm around her and began to make love with a surprising lack of effort. A few minutes later he was about to kiss her when she shyly turned away and teasingly remarked:

"Just how far do you think you can go with me?"

"Say, I'm darn glad you reminded me, honey!" replied the absent-minded gent, as he jumped up, "I get off here."

The charm of painted things may be much increased by the addition of color in design or "Decal Transfers."

We now have a new and complete assortment of decals and the prices have been reduced so the extra expense of their use is very small.

Won't you come in and look them over. We probably have just the color and pattern you have been looking for.

Who says "13" is an unlucky number? Certainly the men who design our money don't think so. Consider our quarter dollar:

It has 13 stripes, 13 letters in the scroll in the eagle's beak; 13 feathers in the eagle's tail; 13 parallel bars on the shield; 13 horizontal leaves on the olive branch; 13 arrow heads; 13 letters in its name, "Quarter Dollar"—and 13 of them will buy one of those dandy blue enameled Electric Irons, that weigh six and one-half pounds and are made to sell at $3.75.

Different locations require a different sort of curtain rods, so we are trying to carry an assortment that will meet all needs. Priced from 5c up.

How about a nice mirror for the kitchen or bath room?

Five sizes to choose from with hand polished white enameled frames. Priced according to size—70c to $1.29.

The Osage maiden who spent $38 in one month for scalp treatments had a great-granddaddy who gave them to the white visitors for nothing.

One Minute Electric Washers are offered you under a positive guarantee of mechanical excellence, quiet operation, sturdy construction and easy control.

They are very easy to load and also to take the clothes out after washing; the moving part that does the work of removing dirt picks out of the machine which has a cover the full size of the top. As easy to get into as a dish pan and nothing in the way.

The wringer has large cushion rolls that are operated with a small hand lever, turns either way, rolls instantly released, and the whole turns at any angle.

The last and best thing about this washer is the price—$84.50, on terms if you wish. Compared to any other machine it is $100 value.

A gasoline sad that really works and heats evenly and quickly.

The Coleman generates quickly and once started does the whole ironing at any heat you wish.

Slightly soiled but cheap at $2.50.

Continued heat at an exact temperature is necessary to the preparation of very many foods, if best results are to be obtained.

The best cooks often fail, they wonder why; the answer is they have guessed wrong on the oven heat or else that heat wave in the oven has not been even during the entire baking period.

Our new up to date Gas Ranges take all the guess work out of baking, the result is a uniform product always perfect.

Dull knives are the cause of many mishaps around the kitchen—for 10c you can buy a sharpening stone, for 20c an emery hone and and for $1.50 a regular grinder with shear sharpening attachment.

We still have bug poison, watch your crop; looks like a real price.

Bald Teacher: "Now, boys, after what I have told you, can any of you define nothing?"

Little Freddie: "Yes, sir, I can."

Teacher: "Well, how would you describe it?"

Little Freddie: "Please, sir, it's what you have on the top of your head."
