TELL ADVANTAGES OF NEW YORK

Educational Campaign to Tell the Advantages of Empire State to Play, Work and do Business.

New York City, Nov. 17.—A country-wide educational campaign to tell the nation about the advantages of New York State as the ideal place to play, work and do business, will be undertaken immediately by the Niagara Hudson Power Corporation in an effort to induce industries to locate here, it was announced yesterday by the company.

National advertising in publications regularly reaching several million people will be employed to tell about New York State, and a permanent Industrial Development Bureau has been established to analyze the industrial advantages and needs of every town and country and to study the specific manufacturing and distributing problems of business concerns which may be benefitted by re-locating or establishing plants in New York, the announcement stated.

"The national advertising and the general industrial development effort projected are in no way philanthropic but just good business, as the corporation obviously hopes to benefit from increased use of electric power which new industries will require," R. P. Stevens, president of the Niagara Hudson Power Corporation stated in amplification of the formal announcement. "On the other hand, it is hoped and believed that the state as a whole will benefit. If more power is consumed, there will also be more homes built, more groceries sold, more amusement demanded, a greater market for the products of agriculture. This is just plain economics.

"New York probably has more advantages to offer industry than any other state in the Union, and it seems logical to tell the country about them. We are in the center of 52 per cent. of the nation's population and 62 per cent. of the national wealth. The state is blanketed by 53 railway systems operating 8,400 miles of track, linked with 900 miles of waterways and 80,000 miles of concrete roads, with a harbor that handles half the imports and exports of the country. Many raw materials are right at hand, and we have the best expensive access to all others, as well as power rates that are materially lower than the average for the nation.

"The highest type of skilled labor in the world is concentrated in the state, with an average climate most conducive to highest accomplishment and recreational facilities that are unsurpassed. To top it off, New York has more money to invest than good things to invest in; its people pay more than one-fourth the entire income and miscellaneous taxes collected by the Federal government.

"Business men in other states and people generally thru the country should know about these things. There seems to be no other organization in the state now equipped to undertake an educational and development campaign such as we contemplate, so there will be no duplication of effort. Our Industrial Development Bureau will cooperate with everybody, and we look for the help of Chambers of Commerce and all other official and non-official organizations."

The national advertising will begin this week and the Industrial Development is now being organized altho the Corporation is not yet able to announce the executives who will carry out the work, Mr. Stevens stated.

The main office of the Bureau has been established at Albany, and branch offices will be located in Buffalo and Watertown, with a general office at 120 Broadway, New York City, for the convenience of industrial executives looking over the state at the instance of the Bureau. In addition, a bureau representative will be located in each of the Power Corporation's offices thruout the state.

"The Industrial Development Bureau will be operated for the benefit of the state as a whole and not merely for the territory served by the Niagara Hudson Power Corporation," Mr. Stevens said. "There will be no pet localities; every community, whether of 1,000 or several hundred thousand population, will share equally in our efforts.

"The work of the Bureau will be in the hands of industrial experts, as well as plant location experts. In other words, our technical staff will be able to analyze not only the industrial needs and opportunities of a community or section, but the operation and distribution problems of any manufacturer. We will try to interest firms who can do business better by locating in this state, and will be prepared to show them why and where and help them get established when necessary."

The Niagara Hudson Power Corporation was formed last June by a merger of the Buffalo, Niagara & Eastern Power Corporation, Mohawk-Hudson Power Corporation, and the Northeastern Power Corporation. The company serves more than 600 communities in 37 counties, and is said to serve more than 600,000 electric and 200,000 gas consumers.

SOLID SOUTH IS READY FOR CONTEST

If "Northerners" Get the Farm Bureau Supper They Will Have to Work For It.

The solid South division captained by A. W. Schrader of Wellsville, of the Allegany County Farm Bureau held a regional supper at the Hotel Fassett the evening of November 13th. Committeemen and wives from communities of Wellsville, Petrolin, Independence, Willing and Whitesville were present and enjoyed a very good supper.

F. B. Morris, assistant county agent leader, Ithaca, N. Y., was the speaker of the evening. Mr. Morris went back to the very beginning of the Farm Bureau organization and explained its history up to the year 1930, also touching on the legislative program which the Farm Bureau have been instrumental in having enacted in the past year.

A. F. Randolph, the president of the Farm and Home Bureau Association, of Allegany county, was present and told the romantic story of the origin and growth of the organization in the county.

Following these very interesting talks, county agent Foster outlined and officially started the membership campaign in the committees. Judging by the enthusiasm shown it looks as if the solid South were going to uphold tradition and get the free supper on December 4th. Reports from communities that have had the membership campaign under way for a short time were announced by Captain A. W. Schrader and from the looks of things, the persistent Northerners have got a big job ahead of them to obtain that free supper.

LOSES SIGHT OF BOTH HIS EYES

Explosion of Dynamite Seriously Injures Eyes of Victor Dwire. Wounds Not Thought Fatal.

As the result of a premature dynamite explosion, Victor Dwire, son of Mr. and Mrs. Daniel Dwire, of Meservey Hill, has lost the sight of both eyes and is a patient at the Jones Memorial hospital suffering from other serious injuries about the face and hands.

The accident happened about 3 o'clock Saturday afternoon while he was engaged in blasting out stumps on the Dwire farm. The exact cause of the accident has not been determined, but it is thought that the explosion either occurred as young Dwire was placing the dynamite in a hole made under the stump and in tamping the earth about the charge, friction between two rocks set off the charge or else a slow burning fuse set the charge after Dwire had returned to investigate the reason for it not going off as usual.

Dwire's father and the hired man were at work plowing in an adjoining field and they heard the explosion and heard Victor call and went to his assistance. Chris Kruger, a neighbor, was summoned and took the young man to Wellsville, where Dr. F. E. McCarty made a hurried examination and ordered him taken to the hospital.

Besides his eyes being injured, the force of the explosion caused severe lacerations to his head and face and his hands were badly cut.—Wellsville Reporter.

Dr. Swan of Hornell was called later in consultation, held out slight hope that partial vision in one eye might be restored.

County Supervisors in Their Annual Session

The County Board of Supervisors met Wednesday morning of last week pursuant to adjournment. After roll call and reading of minutes the committee on charities made reports recommending the appropriation of $4,000 for the use of the County Children's Agent for the coming year and recommending the appropriation of $1,000 toward the operation of the Children's Health Camp. Both appropriations were voted unanimously.

The committee appointed to canvass the vote of the election of November 5, 1929, reported that they had duly checked the tabulation of the Commissioners of Election and had found the same to be correct. The tabulations of the Commissioners of Election and the findings of the committee were approved on roll call.

A petition from the Town Board of the town of Alma was read asking for correction of the assessments of certain properties, stating that these properties were assessed at one valuation for state, county and school taxes and at another valuation for lighting district purposes. Referred to the Committee on Erroneous Taxes.

A petition signed by 17 funeral directors was read requesting an increase in the amount to be paid by the county for the services and materials for the burials of poor persons from $40 to $75. The petition stated that the actual cost of rendering this service was much in excess of the amount now provided for and that no increase in that amount had been made for 25 years, altho all costs had greatly increased. The petition was referred to the Committee on Charities. In the afternoon session that committee reported, recommending an increase to $65. This was adopted on roll call.

Farm and Home Bureau

Representatives from the Farm and Home Bureaus were given the floor to present the work of their organizations. Mrs. Edgar VanHorn of Alfred Station, secretary of the Allegany County Home Bureau, presented reports of the Home Bureau.

Mr. A. F. Randolph, of Alfred, president of the Allegany County Farm and Home Bureau Association, reported the work of the Farm Bureau for the past year and stated that many requests for increased services from farmers had been received. These requests could not be granted, he stated, unless an increase of $500 is granted in the appropriation to the Farm Bureau. No resolutions for appropriations for these organizations were presented at this time.

County Clerk's Report

County Clerk William Bush presented his annual report for the year beginning October 1, 1928, and including September 30, 1929. Mr. Bush exhibited a chart showing the growth of the business of the County Clerk's office. The fees received for recording, etc., but not including automobile licenses, increased from about $4,000 in 1913 to about $18,000 in 1929. He stated that storage space for records was being outgrown and that in five or ten years it would be necessary to build a fireproof addition or remodel the present brick building so as to render it fireproof. He declared that the present staff of clerks is overloaded with work and an additional clerk is urgently needed.

Fines imposed by Courts of Record, paid to County Treasurer, $1,916.00.

County Laboratory

Dr. F. A. Van Orsdale, chairman of the Committee on Laboratory Work, introduced Dr. E. K. Kline, director of the County Laboratory. Dr. Kline explained the use and growth of the laboratory. Dr. Van Orsdale then read the proposed budget for the coming year which called for an appropriation from the county of $2,950 which the State would match. On roll call the desired appropriation was approved.

A petition from the Board of Health of the Combined Sanitary District of the town of Amity and the village of Belmont that bills totaling $388.90 be spread on the tax list of the Sanitary District was granted.

A petition was read from the Southwestern Tier Association for the Blind for an appropriation of $500 and was referred to the Committee on Charities.

On a resolution introduced by Mr. Schaller, $1,000 was appropriated for aid for physically handicapped children.

A petition by Mr. Mulkin was read asking authority for the Town of Friendship to issue bonds for the sum of $12,000 for the purpose of completing the construction of Town and County Highway No. 26 in the Town of Friendship. Construction of this road has previously been authorized by the Board of Supervisors and the issuance for that purpose of bonds to $20,000, but as a portion of that road has been constructed out of current funds, only $12,000 is now needed. On motion of Mr. Mulkin, resolution was adopted all present voting yes.

The Board then went into executive session for the remainder of the day.

THURSDAY MORNING

The Board of Supervisors convened Thursday morning, November 14th, pursuant to adjournment.

The Committee on Agriculture reported, recommending an appropriation of $2,000 to the Allegany County Agricultural Society, $1,000 to be used for permanent improvements on the fair buildings and grounds at Angelica and $1,000 to be applied to the payment of premiums. The report of the secretary of the Agricultural Society showed that the society had spent the present year $1,100.30 for repairs and improvements on buildings and grounds and is paying premiums this year amounting to $5,655.75.

A resolution was presented by Mr. Whitcomb that $4,500 be appropriated to pay salaries and expenses of the County Public Health nurses and other expenses made necessary by their duties for 1930 and that the Health Department of the state of New York be requested to provide a like amount and that a report of approximate expenditures for this service for 1929 showed total expenditures of $9,000.

Program for Reforestation

The Committee on Reforestation presented a report which recited the necessity for a program of reforestation in this county and summarized County Forest Law as follows:

1. The State will allow each county annually an amount not to exceed $5,000, provided the county matches it with a like amount.

2. The Board of Supervisors of any county may purchase idle lands with the money, the title to the lands remaining in the county.

3. The lands so owned and acquired shall be exempt from state and county taxes and for the purpose of other taxes shall be assessed at not to exceed the price paid for them.

4. The proposed plan of purchase and planting and later the protection and management of the forest must be approved by the Conservation Commission.

5. For county forests, trees are supplied free by the state.

The committee made the following recommendations:

1. A close co-operation with the State Conservation department in order to secure if possible at least one state forest tract in this county.

2. During the coming year an inventory should be made of lands which have reverted to the county for non-payment of taxes.

3. If this inventory reveals that the county has title to any worthwhile parcels of land, then the assistance of the State College of Forestry should be secured to make a survey of same and work out a plan of planting with recommendation as to the proper kind of trees.

4. A definite program should then be presented for the considera-

ENJOYED BIOGRAPHY OF WM. McDONOUGH

Army Official Pays High Tribute of Honor to Comrade and His Type of Manhood.

Fort Wingate, N. M.
October 30th 1929.

Mr. J. Harvey Backus, Editor
Andover News,
Andover, N. Y.

My Dear Mr. Backus:—

I have followed, week by week, with more than ordinary interest, the life history of our dear old friend, Comrade William McDonough. How remarkable in itself to have lived the great number of years which Comrade McDonough already has to his credit, but equally remarkable has been his career—adventurous, useful and busy.

I, for one, sinerely regret the rapid passing of that wonderful type of citizen to which Comrade McDonough belongs. For they, indeed, have been more than leaven for the human bread composed as it has been of a cosmopolitan population for lo these many years—patriotic, loyal, honest, constructive, broad of vision, with tolerance for all and faithful to friends and country to the end. No better type of citizen ever lived in any country than such men, and what a privilege to have known and be able to appreciate them and their deeds with never a thought of what their former nationality may have been nor what their chosen creeds might be—just to have known them as they were.

My cup would indeed be overflowing could I but be assured that I might be fortunate enough to spend eternity with such men as Comrade McDonough, for cannot there that just and appreciative Maker, who, after all, is the one and only real controlling factor in matters of peace and war, and the undisputed originator and destroyer of temporal kingdoms, would allow the type representing our modern pacifists and so-called reformers, who have presumed to take the peace and war propositions out of His hands, to enter in where are gathered those faithful, constructive, self-sacrificing citizens, who, during their sojourn on earth, were His instruments used in building up and preserving, thru their own muscle and blood, such great nations as the United States of today.

Sincerely yours,

E. KEMP,
Major, U. S. R.

ONE KILLED AND TWO BADLY INJURED

Lynn Harkenrider of Hornell Killed in Auto Accident Near Woodhull, Saturday.

Lynn B. Harkenrider, 27, of Hornell, formerly of Rexville, was killed and two others were quite badly injured when two cars collided head-on near Woodhull on the Jasper road late Saturday afternoon. Coroner E. E. Webster of Woodhull investigated.

Harkenrider was enroute to Elmira to spend the week-end with his sister. Near Woodhull, he met a car owned and operated by Miss Lillis Graham of Elmira, coming in the opposite direction and the two machines collided. Miss Graham suffered a broken arm, according to reports. Charles J. Ross, Mansfield, Pa., banker, was a passenger in Miss Graham's car. He suffered cuts about the head. Both were removed to the Elmira hospital.

The accident occurred at a point near the Ingersoll farm. Ross and Miss Graham, it is reported, were enroute to Olean where he intended to attend a meeting of bankers. The accident happened shortly before 4 o'clock and it was almost an hour afterwards before word was received by his mother and father, Mr. and Mrs. William A. Harkenrider of Rexville.

Harkenrider's car was completely demolished and he was pinned beneath the wreckage. A farmer heard the crash and rushed to the scene. Harkenrider was still breathing when he arrived but died a few moments later. Blood was spurting from a wound on Ross's head and both he and Miss Graham were attended by Dr. Webster. Later they were removed in an ambulance to an Elmira hospital where their condition is reported favorable.

The dead youth is the second of a family of eleven to die. He was born in Rexville and lived there until about a year ago when he went to Hornell. He was employed as a switchman in the Erie yards. He had a legion of friends both here and in Rexville and vicinity.

Besides his parents he is survived by the following brothers and sisters: Leo Harkenrider of Rexville; William Harkenrider of Hornell; Mrs. Joseph Fitzpatrick of Rexville; Mrs. Charles Lewis of Rexville; Miss Mary Harkenrider of Elmira; John, Doris, Ruth and Arling Harkenrider, all of Rexville.

Funeral services were held Tuesday morning with a prayer service at the home and requiem high mass at St. Mary's church in Rexville. Burial was made in St. Ann's cemetery, Hornell.
