# GENEROUS RATE CUT IN ELECTRICITY

## Niagara, Lockport & Ontario Power Co. Have Filed New Rate with Public Service Commission.

Rate advantages to every domestic user of electric current in the territory served by the Niagara, Lockport & Ontario Power Company were included in a new service classification filed yesterday with the Public Service Commission and will mean annual savings of $31,000 in the company's Cattaraugus district, which includes territory adjacent to Andover, according to George M. Bartholomew, District manager of the company.

The new tariff, which needs only the commission's final approval to become effective on April 1, effects:

1.—A reduction of one cent per kilowatt-hour for all kilowatt-hours in the first block.

2.—Reduction in the number of rooms upon which the first block is based from a maximum of ten to a maximum of eight.

3.—A reduction in the second block to a flat 40 kilowatt-hours, regardless of the number of rooms.

4.—The addition of a new step in the rate structure at two cents per kilowatt-hour.

In addition to the one cent. reduction of the top step of the rate, a room count adjustment has been made. Heretofore all rooms up to ten have been counted in the determination of the demand base in arriving at the number of kilowatt-hours in the first and second blocks. The new adjustment will reduce the maximum count from ten to eight rooms. "In other words," says Mr. Bartholomew, "no house will be counted as having more than eight rooms."

Heretofore the first block in the local rate structure has been based on four kilowatt-hours' use per room, the second block on the basis of eight kilowatt-hours per room. Under the new classification the first block in the rate is still based on four kilowatt-hours' use per room, but the second block will be reduced to a flat 40 kilowatt-hours' usage regardless of the number of rooms.

In addition, a third adjustment has been made. Heretofore residents have been charged two and one-half cents per kilowatt-hour for all consumption in excess of the sum of the first and second blocks usage. Under the new rate all consumption in excess of 200 kilowatt-hours per month will be billed at the rate of two cents per kilowatt-hour.

"We have been working on these adjustments for some months and are pleased to announce them at this time," Mr. Bartholomew said today. "We believe they will enable our customers to make even greater use of their electric service at costs that will result in savings of thousands of dollars annually."

## REV. C. A. SILKE IS TRANSFERRED

### Leaving St. Ann's Parish to Assume New Duties at Rochester.

Hornell, Feb. 5.—The appointment of an assistant priest in St. Ann's parish to succeed the Rev. C. A. Silke, who has been transferred, will be made this week, it was reported by the Rev. J. A. Maley, pastor. Archibishop Edward Mooney of Rochester has not definitely settled on the appointment.

Father Silke personally announced his transfer to the post of chaplain at the Home for the Aged, on Lake Avenue, Rochester, at the conclusion of the 8 o'clock mass Sunday. The priest celebrated this mass.

Appointed here about a year ago after serving several years as pastor of St. Mary's parish in Rexville, he has served the local parish faithfully and has also assisted in his former parish at Rexville.

While he bade farewell to parishioners of St. Ann's yesterday, his transfer was not officially announced until today. Father Silke is widely known thruout this section and is beloved by people of all denominations.

Within the next few days announcement of the new assistant is expected, according to Father Maley.

## Regional Conference

A Woman's Christian Temperance Union crusade Regional Conference is to be held at the First Baptist church, in Hornell, March 14th from 10:30 a. m. to 4 p. m. This conference group will include Steuben, Allegany, Livingston and Wyoming counties. The speakers will be Mrs. D. Leigh Colvin, State W. C. T. U. president and Miss Helen G. H. Estelle, State treasurer. A meeting of especial interest is promised.

All members of Andover Union are urged to attend and to hand their name to the local president, Mrs. Bertha Pingrey if they expect to attend, in time for her to notify those in charge at Hornell.

## Al. Katz at Coliseum

A St. Patrick's Day Ball with Al. Katz and his Kittens orchestra, is to be held at the Coliseum, Ceres, N. Y., March 17th, under the auspices of the American Legion.

## Grange Opposes New Power Bill

Allegany County Pomona Grange, at its Cuba session, Thursday and Friday last, adopted resolutions opposing the Dunigan bill and Assembly bill number 311, extending to municipal corporations unregulated privileges to furnish electric current without Public Service Commission regulation.

Past Deputy Loren C. Hunt, Cuba, was given a recognition certificate for four years service as county deputy and making a net gain in membership. Cuba and Whitesville Granges were each awarded five dollars in gold for making net gains of 25 or more in membership last year. Blue ribbon awards for outstanding Grange work were presented to Angelica, Inavale, Alfred, Bolivar and Friendship Granges and to Allegany County Pomona Grange by the State Grange.

The meetings were quite well attended and fine interest shown. Visitors attended from Cattaraugus and Livingston counties. Twenty young men from Alfred University Agricultural College enlivened Thursday evening's session with songs. Belfast degree team conferred the fifth degree on a class of 29 persons Thursday evening.

## Unfortunate Shooting Accident Occurs

Athalene Stamp, 16-year-old wife of Wilson Stamp of Crawford Creek, town of Canaedea, resident on the Mrs. Ruth May Lockwood farm three miles west of Oramel, lost her life in an unfortunate accident late Saturday afternoon while inspecting traps with her husband along the steep B. & S. abandoned grade. The gun slipped from her hands, fell on stones, was discharged and hundreds of No. 6 shot were deflected from the ground into her limbs, arms, chest and abdomen, several entering the jugular vein at the neck causing hemorrhage. Coroner Dr. F. C. Ballard, Rushford, at an inquest, decided the shooting purely accidental.

The young woman leaves a son two and one half months old, her husband, father and mother, and five brothers and sisters. Funeral services were held today, burial in Oramel.

## Leaders Will Come Again Next Summer

Western New York 4-H county club leaders have again chosen Eggleston Park (Shenawana) as the site of their annual district camp. Tentative schedules call for a leaders' camp, boys' camp, girls' camp and a new joint camp for both girls and boys during the period from August 7th to 26th.

Some of the leaders already chosen are: Recreation, Carol Holcomb of Naples; camp mother and counsel instructor, Mrs. Veda Warner of Seneca Castle; sports director, Sherman Bennett of Canandaigua; first aid and life saving, Howard Shinn of Wellsville.

Mrs. Ruth Bennett White will not be available for the camp term, having engagements on Long Island at that time.

## Two Wills Probated

Two wills probated, two administrators named, two judicial settlements made—so goes Surrogate Court news for last week's session.

Gertrude E. Curran, daughter, Belfast, will administer the $150 personal and $400 real property estate of Harry B. Curran, who died Nov. 19, 1933, leaving three sons, three daughters, two granddaughters and one grandson.

Letters of administration were issued on the estate of Charles Coombs of Wellsville, who died Oct. 10, 1933, leaving property estimated in value at personal $300 and real $3,000. His widow, Alice M. Coombs, Wellsville, and T. D. Gillies, Angelica, will settle the estate. Children are three daughters, Ada Scholes, Fanny Starbird and Dorothy Caffo, all of Wellsville.

The $1,500 personal and $3,000 real property in the estate of Lucy A. Whipple of Cuba, who died Jan. 18th, was by her will, probated, divided between a daughter, Mary W. Morgan, Cuba, executrix of the will and a son, Dr. Harry L. Whippie, also of Cuba.

Attorney Eldyn V. Champlin of Belmont is executor of the will of Bradford Henry of Belmont, who died December 26th last, leaving personal property placed at $2,500 and real property of the same amount in value. Cousins only survive. Ralph J. and William Baxter, both of Belmont, each received $1,000; the balance of the estate going to Mr. and Mrs. William Kesier, town of Amity, whose kindness while tenants on Mr. Henry's farm was mentioned in the will.

Judicial settlements by Chester M. Bliss of Bolivar, administrator of the estate of Emily R. Holly, town of Genesee, and of Nilie P. and Ralph Gorton, administrators of the $21,000 estate of Eben L. Gorton of the town of Alma, were made.

## Rebekah Activities

Another social evening at I. O. O. F. Hall was enjoyed Wednesday evening. The March birthdays were celebrated and the vice president of New York State Rebekah Assembly, Mrs. Clara Ingalls of Allentown, also the Deputy President of Allegany county Rebekah District No. 1, Mrs. Grace Armstrong of Alfred and official suite, invited guests, were present with the exception of Mrs. Armstrong who was unable to attend on account of illness.

A short program featured remarks by Mrs. Ingalls. The Alfred ladies, also visiting members from Wellsville and Allentown.

A baritone solo, played by Oliver Kemp, Miss Ruth Slocum, pianist; reading, Mrs. Laura Witter; violin solo, Harold Hardy, Mrs. Hardy accompanist, and a poem read by Charles Hammond was followed by a fine dinner, with the honor guests at attractively decorated tables reflected much credit to those in charge of the evening's entertainment.

Prompt action with a little cold water will remove many stains which might later cause much more trouble.

### Models of 1934

Each year great interest is manifest in the new models of motor cars; people who do not own a car and have no reasonable expectation of ever doing so are quite as curious and expectant as to what new and timely luxury automobile engineers have been able to dream and develop into reality.

The majority of our people who own and drive automobiles use them probably not to exceed ten hours each week; many of them much less than that. The expense of driving a car is not less than 50 cents an hour, so it is a very expensive convenience, its use largely a luxury.

The heart of every home is its cooking device. The kitchen range, which is used almost constantly, and is essential to the comfort, health and well being of every family and every person composing that family regardless of age or state of importance; therefore interest in the new 1934 models of Gas Ranges should transcend that in any other instrument on which the genius and creative talent of our master builders have been employed.

We all know much of motor cars, we know little of the real attainment that is now concrete and definite in the one factor of comfortable living that is as necessary as clothing or shelter.

Builders of the 1934 gas ranges are displaying quite as much talent and thought for user convenience as you will be able to find in any other avenue of endeavor. They are as different as a Conestoga Wagon and Packard automobile. Time may develop added beauty, utility, convenience and endurance, but to a lay mind they are the last word in all these qualities.

You may not feel the need or care to incur the expense of a new Range at this time, but surely you want to know all about them—the colors, arrangement of cooking top, improvement of burners, three way valves, extra size of oven, available broiler space, oven heat control, insulated walls, frame construction, round corners and smooth fully enameled interiors. It will be a pleasure to show you and we promise to satisfy your curiosity without arousing your cupidity; some promise, that. Think it over and come in anyway, you will be glad you came. The new Ranges are indeed marvels of beauty and utility.

Prices astonishingly low.

### Good Gardens

Are for those who use care and judgment in seed selection. Leonard's bulk seeds have grown good gardens in Andover and over a large part of the United States and Canada for many years; people acquainted with Leonard's quality and excellence of variety stick to them year after year.

If you are not planting seeds from Leonards you are missing some fine vegetables not offered by any other seed grower.

The stock is ready—you may buy now.

### Any Day Now

You may want to start gathering the sugar crop. Maple syrup stocks are low and it appears demand will be brisk and prices favorable.

You will need Bit Stocks, Tapping Bits, Spouts, Buckets, Storage Tanks and Syrup Cans. We also advise you to become familiar with Glass Jugs for syrup containers. You may have them in quart, half gallon and gallon sizes at very low prices, if you don't know about them, ask us.

### Dairy Salt

Colonial, clean, pure and 99.90 Salt. Put up in white canvas sacks that are useful when empty; costs no more, 90c cwt.

### Stays Stuck

When you want a permanent repair job on wood, metal, crockery, cloth, leather and many other substances, use Casco Glue, an adhesive made necessary by the building of aircraft.

Water, fire and weather proof, comes in powder form—just add water and serve. No waste, you mix little or much as needed. All size packages from 10c up.

### Smokers

Your favorite mixture will take a finer, cooler, drier flavor if you will burn it in a Filtrex Pipe. One dollar value now available at Baker's for a quarter.

## Bits of Blarney

If Admiral Byrd wanted a real cold winter he should have established headquarters on Phillips Creek, near Belmont. For cold weather birds he could have used starlings instead of penguins.

Who knows but that a great philosopher may arise out of the record-cold February of 1934 who can satisfactorily explain why a hot water pipe will freeze when cold water continues to flow from one almost alongside it.

What under the sun can beat the variations of thermometers. The cold spell brought out figures as variable as 15 degrees from the mercury in the same community. Whoever first tells how cold it was at his house before the neighbors is sure to be beat by a half dozen degrees or more.

"And the smoke went up the chimney just the same." Except it didn't in many villages since the frost condensed in some of them. An unusual number of them have burned out. Nearly every village has had the experience, firemen called out, every one frightened for fear of a big blaze on a bitter cold day—or early morning, say 3 a. m.

In the "good old days," back in 1893 Bolivar had four candidates for supervisor at Spring town meeting.

Will Allegany county soon have mail planes whizzing overhead? There is some talk of re-routing the New York-Cleveland air mail route over Jamestown, Olean and Hornell to avoid the dangerous "Pennsylvania graveyard" over the Allegany mountains.

Now it's Rushford to furnish a bit of news about a woman trying to run her hand thru a wringer.

"Misery loves company." If your water pipes have been frozen up and your car won't go, you can find plenty of others who know all about it and can sympathize with you.—Belfast Blaze.

## Bits of Allegany County News

Belmont's Central Relief committee will stage a charity card party Saturday evening, March 17th. It buys shoes and milk to keep needy children in school.

Houghton's post office appointment will be the subject of a competitive examination in the near future. Receipt of applications close March 9th.

Fillmore's new library is being further stocked thru Gift Book Week this week.

Belfast town officials used its snow plow for the first time this winter last week.

Allegany county bids fair to see something of a boom in oil production. Its two refineries at Wellsville and Bolivar are demanding 9,000 barrels daily where wells are giving up but 7,000 barrels.

Short Tract Sunday School folks keep right up to date. One of its classes is called The Broadcasters.

Bolivar's new plant of the Allegany Refiners, Inc., is now employing 44 persons. In addition many lease workers have been enabled to return to their former positions thru the market provided for the so-called "dark oil."

Angelica High School students have formed a Latin Club.

Alfred Post, No. 370, American Legion, will entertain State Commander Robert E. Minnick at a county-wide Legion and Auxiliary gathering Tuesday, April 3rd.

Bolivar village dads spent only $920.57 for a full year—but that was back in 1895. It cost Andover but $2,718.57 to run its village affairs 30 years ago.

Whitesville reports even farm springs that supply barns and homes as frozen up during February's unprecedented cold.

Allegany County CWA foremen are to hear lectures on Safety First and First Aid, given by Dr. E. S. Webster of Friendship.

Friendship is soon to have a new paint and wall paper store.

Rockville residents claim to have seen a herd of 25 deer in Fred Button's pasture there.

Cuba's social club, called the Schwrmbs, plan an old fiddlers' contest for St. Patrick's Day night.

Clarksville has a woman town collector, Maud Whitman, named to succeed S. E. Wilkinson, deceased.

Cuba entertains Friday, March 9, the Western New York Butter and Cheese Makers' Association for its annual meeting.

### Sentenced to Attica Prison

William Geyer, alias William Geier, of Wellsville, who tripped up when he endeavored to cash the 13th forged check after getting money on numerous checks in that village in 1932 and 1933, was sentenced to one and one-half to three years in Attica State Prison in special term of county court Saturday, by Judge Walter N. Renwick. Geyer plead guilty two weeks previously to forgery in the second degree. He had been at liberty on bail since late in April last and sentence was postponed several times by permission of District Attorney Ward M. Hopkins to allow Geyer every effort to make restitution on the $7 to $22.50 checks. He was unable to find funds to make good his use of Wellsville business men on phoney checks.
