Lawn Fete Nets Over $1,000

The lawn fete of the Blessed Sacrament church was a great success financially netting the church over $1,000. Many were present from Buffalo and nearby villages.

Each year the lawn fete is becoming more popular and people look forward to it as a social event. Many compliments were heard this year for the pleasure of meeting many old friends and the excellent dinner served by the ladies of the church.

Variety Shower

Mr. and Mrs. John Croyle, Jr., of Olean were honor guests at a variety shower given for them by Rev. and Mrs. W. C. Fero, Wednesday evening of last week at the Methodist parsonage.

The parlors and tables were attractively decorated, the color scheme being yellow and white.

Mr. and Mrs. Croyle were the recipients of many beautiful gifts from a large circle of friends, whom they are popular.

Mr. and Mrs. John Croyle, S. Olean were among the guest.

Franchise Tax Returns $2,254.81

The treasury of the town of West Almond has just been enriched by the addition of one cent, its share of the distribution of $2,254.81 franchise taxes coming from the state to the Allegany county treasurer. And over drew 24 cents. Bolivar led in receipts in the county from this tax which comes almost entirely from chain stores and chain gasoline stations which pay directly into the state treasury rather than into towns as do gas companies and electric and telephone corporations, also railroads. The tax is apportioned according to the amounts collected in towns and villages.

Bolivar village was apportioned $230.45 and the town $870.37; Wellsville village $164.13, town, $372.58; Independence, $174.31; Alma, $138.07. Other towns and villages were paid much smaller sums.

Wins Place in Forestry Contest

Anna Witter of Cuba, 4-H Club member, won third place in the state-wide second year forestry competition this year, conducted by the Empire State Forestry Products Association. Her standing was 96 per cent. She will be entitled to accompany the Buffalo Evening News Adirondack forestry tour in September, along with Charles Witter of Cuba, who won in the third year contest.

There were seven entries from Allegany county in the second year contest. Lloyd and Everett Clark, Fillmore, both stood 90; Arby Swift, Cuba, 85; Marie Vincent, 84; Lois Fanton, 82; Gladys Fanton, incomplete, all of Wellsville.

Robert Aldous, St. Lawrence county, won first in the second year contest and Marian Biles, Chenango county, second.

4-H Breeders Buy Two Rams

Allegany County 4-H pure bred sheep growers toured into the province of Ontario, Canada, recently and thru the Southern Tier and brought two high-grade rams to head their flocks. The sires were purchased jointly by flock owners who will benefit from their use.

Sanford Luce, Bert Richmond and Fred and Leland Carnes of Alfred and James Mullane of Friendship, all growing Shropshires, bought a ram of that breed from William Seabrook of Kamoka, Canada. The ram is a son of Belvoir Banker, sire of outstanding individuals at the Chicago international show during the past ten years.

Isabel Karn of Cuba, Sheldon Voorhees of Friendship, Fred and Harold Sisson of Almond and Edith Francisco of Belmont secured a show ram to head their Cheviot flocks from J. A. Curry of Hartwick, Otsego county.

DR. JACK, ASTHMA SPECIALIST DIAGNOSES CAUSE OF DROUGHT AND ILLNESS AS TOO MUCH VIBRATION

Noted Buffalo Physician Heads Movement to Try to Check Rapidly Approaching Desert Age, Caused by Vibrations from Airplanes, Radios and Automobiles

Dr. George N. Jack, noted asthma specialist and physician, known by many Andover people; Clyde T. Cadawallader, attorney and councilor at law of Buffalo and Cortland Phillips, fruit-grower, farmer and secretary of the World Vibration Limitation League of Appleton, N. Y., are united in their belief that Dr. Jack has discovered the cause and the remedy for the drought, as well as the cause of much ill health.

Cadawallader, an unstable blooded patient of Jack's, referred to him by Cadwallader's family surgeon, John A. Post, became interested in the scientific value of Jack's work and voluntarily offered to compile Jack's reprints of papers read before medical societies, published in medical journals, copyrighted and recorded in the Library of Congress, Washington, D. C., Buffalo Grosvenor Library, the Library of the Buffalo Academy of Medicine and other libraries. He is convinced from these reprints, together with other recent discoveries outlined in Jack's manuscripts of added material, that Jack has discovered:

1.—The physico-chemical and chemical origin of air sickness or at least 70 per cent of all sickness.

Jack substitutes an autolysis virus from sickness produced by different blood disintegrating groups of deleterious gasses of poor respirability that, owing to their disintegrating chemical ingredients and or blood exhausting physical characteristics as influenced by unfavorable universal phenomena, disintegrate the blood. Viruses thus produced, Jack substitutes for air born living micro-organisms, viruses from living micro-organisms, pollen dust and all other theories.

Jack has shown that the discovery of the physico-chemical and chemical origin of air sickness was positively proven by the Belgian fog epidemic of air sickness in the valley of the Meuse in 1930.

Through the discovery of the psycho chemical and chemical origin of sickness, Jack has discovered and described in detail:

2 The vibration menace
3 Vibration calamities
4 The destructive physico-chemical of atmospheric vibrations.
5 The recognition of the vibration menace as the greatest, most stealthy, most appalling menace life has ever encountered.
6.—That the only remedy for the vibration menace is the immediate limitation of vibration thru an awakened press, the advancement of science, public sentiment, and the establishment of national and world vibration bureaus.

No experiment, mechanical contrivance, physical or chemical laboratory research can tell the effect of vibrations from a million airplanes, radio broadcasting sets, automobiles and other mechanical contrivances upon weather conditions and life. This can only be determined by forty years research based upon a carefully taken record of prevailing weather conditions and their effect upon life, 20 years before and 20 years after the advent of the vibration era. This record must also be made by one skilled in physico-chemical research and synthetic reasoning or the same sort of reasoning by which Newton discovered the law of gravity and Harvey the circulation of the blood.

Jack has in his possession this record, while acutely and intensely studying the relationship of 2,000 unstable blooded asthmatics to prevailing weather conditions.

Jack's study of unstable blooded asthmatics was controlled by a similar study of about six thousand stable blooded patients.

Jack, by contrasting the conditions before and after the advent of the vibration era, applied the method of synthetic reasoning in the discovery of the destructive physico-chemics of atmospheric vibration.

Jack, realizing the accuracy with which this method of reasoning had solved other complex scientific laws, all of which had been proven true as outlined in his work, saw the emergent necessity of immediately limiting vibration.

Vibrations are now rapidly proving the destructive physico-chemics described by Jack to be true by evidence of a rapidly approaching desert age, epidemic madness in Europe and frequent strikes in this country.

Vibration neuro-pathic exhaustion susceptibilities have been both increased and produced by the economic depression. The earth has reached a vibration crisis now wherein quiet rest and limitations are the only hopes of life.

July Birthday Party

The birthday party given by the members of the W. R. C., Tuesday afternoon at the home of Mrs. Frank Davis was enjoyed by a company of 30, including several invited guests.

A short program of readings and guessing contests created considerable merriment during the social hour. A splendid supper was served by the hostess and assistants.

The birthday guests for July were Mrs. Amelia Orvis, Mrs. Anna McDonough, Mrs. Effa Burbank and Mrs. Fannie Backus.

Softball Results This Week

Last Monday the Cole's softball team of Hornell played the Andover town team, beating them by the score of four to six. The local players were handicapped by the non-appearance of several of the team but put up a good game.

Every Monday night the town team and Odd Fellows team will play at 6 o'clock, so anyone not now playing and wishing to do so, be at the diamond and an opening will be made to play at least part of a game.

The town team goes to Hornell next Wednesday evening for the return game, leaving from the athletic field about 5 o'clock.

The girls' softball team won over the fast Richburg girls Tuesday evening by the score of 11 to 7. The Richburg lassies had not been defeated so far this season until they came to Andover.

Friday, August 10th the girls go to Angelica to play a return game and Saturday, August 11th to Richburg.

Camp Quota Increased to 70

Allegany county's quota of young men for work in the West Almond CCC camp recently established has been increased to 70 and the office of commissioner of public welfare at Belmont, thru which agency enlistments are made, has exhausted its list of applicants and may be compelled to look over records of welfare cases to find further eligibles.

Nearly 30 places remained to be filled late last week.

Because of their familiarity with the type of work to be done, officers in the camp are finding local men useful in the carrying forward of the improvements which must be completed before the regular routine is taken up.

The principal variation in the color of beets is due to inheritance. Weather and soil, however, may affect color.

Major Kemp Going to Oregon

From a letter written by Major Elmer Kemp from Fort Wingate, N. M., to his mother, Mrs. Roya Swain of this village, we learn that they are leaving Fort Wingate within a few days and they will probably be in Oregon and Washington for a time. Major Kemp also wrote that he "hoped to see his mother this fall or next spring."

PRESBYTERIAN
Rev. Frank H. Bishoe, Pastor

On account of sickness the pastor was not able to preach last Sunday. The pulpit was filled very acceptably by John Vincent. Mr. Vincent also gave a very interesting talk to the Sunday School.

The vacation season is in August and no Sunday services will be held.

The session met at the manse Tuesday night and voted that the pastor be released from the services the first two Sundays in September unless his health recovers sufficiently so that he is able to preach without harm to himself.

The pastor's vacation trip to the mountains has been postponed.

Twin Daughters

Henry is a Gentleman

Carl Anderson in the current issue of the Saturday Evening Post, has given a new slant on the character of his cartoon hero.

Henry is hard boiled; he dominates, he exploits, he takes every advantage of circumstances but this time he faces a new angle of human relations, is first aggressive then dominant; sits down to think it over and yields to a proper impulse.

Many people are like Henry, particularly those who have to do with the mechanics of home making and under trying situations make themselves promises that are soon forgotten in the complex of other problems.

We dare to assume that there are a large number of housewives in Andover who do their cooking under conditions that are most trying; their cooking equipment is ancient, unpleasant to operate and disappointing in results and if they could only be brought to realize what good cooking stoves are being made today and how easily they may be owned, there would be a rush to possess them.

We have in stock a New Method Gas Range that has many features of excellence; the burners are spun steel, heavily enameled; their combustion of fuel is more perfect than is possible with a drilled cast burner and the flame is hotter; they pick out of place easily and may be kept as clean as your dinner plates. The oven also has this same burner construction and being fitted also with automatic heat control is perfect in its operation. Your baking of every sort will come out just as you wish.

This New Method Range is faster in production; it saves fuel. You need never spoil a baking of any kind, it is a beauty to look at and the price is now reduced by one-third.

We trade stoves, sell on weekly or monthly payments, or give a liberal cash discount. It may amaze you to know how easily you can come into possession of a really superior cooking machine; just ask us.

Teacher: "Can any little girl give me a commandment with only four words in it?"

Nellie: "Keep off the grass."

Air Flow

The makers of motor cars are obliged to resort to frequent changes in design and construction to stimulate their market, but the makers of wash boilers, after all the years, still follow the pattern created by the Tinkers of long ago.

Boiler makers have not changed the pattern, but the Atlantic people are out with a creation that for weight and fine workmanship is way ahead of anything heretofore produced.

They wish all to know the excellence of this Wash Boiler, so have made the prefatory price very low and as an extra inducement, early buyers will receive with each boiler purchased a large copper suds dipper; with this boiler and dipper you may forget repurchases of these items for a life time.

The boiler weighs nearly 14 lbs., all copper, including cover.

What Price Coffee

The price you pay for coffee does not matter nearly so much as the manner of brewing; 15-cent coffee rightly prepared is more healthful and a more tasty, satisfying drink than 50-cent coffee ruined in the pot.

Never boil coffee unless you wish to make it unfit for human consumption; buy a good vacuum-packed coffee, measure it into water freshly boiled that has been removed from the fire and allowed to stand for two minutes in your coffee pot or any uncovered container; set it in a warm place until it settles and you have removed from the grounds everything of any food or stimulating value and have a drink that is satisfying and will harm no one.

A stainless enameled coffee pot is best for good coffee. We offer you a really superior article that will last a life time for $1.29.

Weather Forecast

Judge (in traffic court): "I'll let you off with a fine this time, but another day I'll send you to jail."

Driver: "Sort of a weather forecast, eh, Judge."

Judge: "What do you mean?"

Driver: "Fine today—cooler tomorrow."

Bits of Allegany County News

Belfast old-timers talked a lot about seeing "Old Dobbin" and a top buggy being driven thru Main street one morning recently. The "old gray mare" is almost non est and has swung into the curiosity class while the roads are full of new cars. Those who cannot have the 1934 brand wonder how the gay drivers of the latest models manage to do it.

Allegany county village fire departments, an even dozen of 'em, have signified their intention of parading at Friday's annual county convention, held in connection with that of the Southwestern Volunteer Firemen's Association at Wellsville. The parade will start at 2 p. m. Sixty fire companies, 750 musicians in bands and 250 women in ladies' auxiliaries are expected in line.

Nile is a healthy village. Within two weeks, Israel Norton, 76 years of age, and Mrs. Hiram Robbins, 81 years old, have passed on to their reward.

Friendship 60 years ago had one harness shop in operation, employing four men. J. H. Howard, the owner, sold 14 sets of harness in one week.

Spring Brook correspondent to the Friendship Register says: "The dry weather in this vicinity is affecting the springs so there is hardly any water for the stock." Many other rural communities are saying the same thing.

Friendship reports Attorney E. A. Mapes will soon occupy new law offices on the ground floor of the Rice block on Main street, owned by Lynn Robert.

Fillmore's Pennsylvania railroad-condensory crossing elimination program, actively under way, will cost $85,000, it is expected.

Wiscoy's Old Home Day has been set for Saturday, August 11th, to be held in the Methodist Episcopal church.

Fillmore, whose village water supply was abundant when some other municipalities were beginning to worry over what would happen to their aqual pura in mid-summer, now finds its reservoir lowering and patrons are being urged to stop using outside hose. Must we all come to using chlorinated and aerated Genesee River water, now especially poor with the stream at as low a level as many old timers can recall?

Houghton's college president, J. S. Tucker, has changed his plans somewhat for his European trip and will not sail from New York until August 10th. His son, Robert, is to accompany him.

Fillmore's enterprising firm, Eldridge Electrical Shop, is furnishing amplifiers for the Wellsville's firemen's convention, the Empire State Potato Club field day at Fillmore, August 9th; the County Farmers' Picnic at Cuba Lake, August 16th, and for the Angelica Fair.

Richburg's Rod & Gun Club has planted 5,000 four to six inch trout fry in streams thereabouts. It has also placed 2,000 calico bass and 500 bullheads in Rockville Lake. Fifty young and 18 adult pheasants were recently released in that vicinity.

Little Genesee has a valuable 18-foot drilled well at the home of Levy A. Champlin, drilling contractor. The supply, almost ice cold, has never failed in droughts. A dug well over 35 feet deep and 50 feet away has gone completely dry.

Bolivar and Little Genesee men have leased about 100 acres of the Hall farm, Deer Creek, town of Genesee, with several old wells, and will five-spot the territory, drilling 25 wells annually over five years. The sand is from 1,200 to 1,400 feet deep.

Alfred women, in 1895, issued an edition of the Alfred Sun and cleared $500 with the enterprise.

Ceres saw E. D. Leach, grower of clover, calling on the Bolivar fire department to pump water from a creek on his farm and spray and irrigate a crop of Harbin lespedza clover, a rare and valuable type of that crop.

Black Creek's church has been beautified by the installation of electric lights, new rugs and curtains, new upright piano, a stove for the kitchen, congoleum rugs, shades, etc. Volunteers to paint the structure have been found and a fund is being started to buy necessary oil and colors.

Cuba, following a very successful three-day Old Home Week celebration, has already set July 19-21, 1935, for the fourth annual event. The only thing lacking to complete the picture is a few inspiring poems about the event. Perhaps they will be forthcoming in an early edition of The Patriot.

Clarksville reports sales of hay there at $20 per ton.

Dalton, Livingston county, reports the growing of 12,000 quarts of strawberries in season on ground irrigated from a water storage dam.

Whitesville saw a sale of all the cows in a dairy for $200 per animal back in July, 1919.

Wellsville will be the scene of traps set for Japanese beetles in August by Federal agricultural department inspectors to learn whether this crop pest has reached this section.

Rebekahs Entertain

Andover Rebekah Lodge observed "Brothers' Night," by entertaining the members of the I. O. O. F. lodge Wednesday evening. A short program was given under direction of Mrs. Ernest Higby: Reading, active members, Mrs. Roxa Shaff; violin solo, Miss Marion Swarts; piano accompaniment, Mrs. Ralph Burgett; song, "In the Valley of the Moon," Mesdames Ruger, Bloss, Jones, Wereley and Waters; reading, "Superstitious Slavs," Mrs. Rice; vocal duet, "The Silver Lining," Anna and Marilyn Hardy, Mrs. Hardy at the piano; reading, "Did You?" Mrs. Laura Witter; playette, "No Train Today," was well presented by a cast in which Mrs. Higby, Mrs. Wereley and Mrs. Waters played the leading parts.

T. Joseph Gilbert of Ithaca, in response to a request made by the Noble Grand, gave a short talk in which he expressed his pleasure in being able to meet with the Andover members again. Mr. Gilbert complimented the Rebekahs upon the I. O. O. F. children's home at Ithaca which was built and is maintained by the Rebekah lodges of the state, with Past Assembly President Mrs. Nellie Reiche of Rochester the very efficient matron. There are now 30 resident children at this home. Mr. Gil
