THERE IS A LIMIT

Of course, you say, there is a limit to everything. So there is But there is one thing in which many people unfortunately run over the line. I refer to the reprehensible custom of making fun of others.

A teacher is quickly marked by her pupils if she habitually makes cutting, sarcastic remarks. She is disliked. Her pupils soon learn to avoid all possible contacts with her.

A person who often makes rude remarks about others, their clothes, speech or manners, is gradually deserted by his friends.

A person who knows that people make fun of him behind his back is ill at ease and deeply hurt. Instead of ridiculing a less fortunate person, why not try to help him in some way to clear up speech difficulties, sloppiness or bad manners? It would be much kinder and [illegible] all around.

Senior Interview

One of the newer members of the Senior Class, and one who has proved to be a very welcome addition to the class is Flora Flint. Flora was born in Canaseraga, N. Y., Jan. 7, 1922, the daughter of Mr. and Mrs. Joseph B. Flint. While in Canaseraga High School, which she attended until May, 1936, when she moved to Andover, Flora was very active in extra-curricular work. She was a member of the dramatic club, the girls' chorus and was on the student council.

Athletics interest Flora, especially baseball. Her hobbies are reading, especially magazines, and cooking. History and Latin are her favorite subjects. Right now she wants to be a Homemaking teacher and has prepared herself for it to a certain extent by taking advanced Home Economics courses in Canaseraga High School.

Flora's scholastic record in Andover High School has been excellent

Bowling Activities

Crippled Andover Bowlers Take Four Points

The Andover bowling team, cut to four men thru the absence of Bretsch and Joyce, managed to take four points from the Allegany Co-op Insurance Company, Monday night, Feb. 28. McGee had high score of 542 and Host had high game of 195.

Andover Loses Championship

For the fourth successive time, the Andover High School basketball team has come in second in the league. Losing out in the crucial game, the Purple and White were unable to rally on the Wellsville court last Saturday against the Angelica team, which they had beaten twice before this season.

With Joyce below his usual par and the whole team somewhat nervous before the hugh crowd, the boys were unable to stop the Angelica team.

With Scholes, the towering Angelica center, it was no hard job for Angelica to pile up a lead which kept growing until the final gun. It was simply a matter of dropping the ball thru the hoop with the dazed Purple and White unable to do anything about it. An attempt to stop him resulted in fouls which were numerous thruout the game.

Joyce and Briggs contributed seven and eight points respectively. Greene performed creditably for the locals on defense.

Angelica will meet Richburg, the winners of the other division of Class C. The winners will then meet the Steuben Class C winners on the Alfred University court later in the season.

Official were Reeb and Law. The summary follows:

Gene Gordon Presents Program Of Magic

Gene Gordon, the magician and ventriloquist, presented his famous tricks to the Andover High School students last Friday, Feb. 25th, in the high school gymnasium . It was well attended, the admission being ten cents.

The children of the smaller grades were entranced by his tricks and his dummy, Jerry, somewhat similar to the famous Charlie McCarthy.

Everyone thoroly enjoyed the program and some pupils are still wondering how he did the apparently miraculous things he did.

Guess Who

A very popular young man
Can be found in the Junior Class,
He's very kind and friendly
To every lad and lass.
He dresses very neatly,
His red hair is groomed well;
He's quite tall and slender,
But his name I dare not tell.
He's a member of the Blackfriars
And in basketball has a big chance
Do you know the name of this Junior
Who is seen at most every dance?
(Answer to last week's Guess Who —Marion Swarts).

Grade News

Second Grade Feeding Birds

The second grade will feed the neighboring birds for the coming week. They expect to see several new, colorful types of birds as a result of this practice.

Margaret Jackson of the first grade returned to school after an absence of nine weeks due to a mastoid operation.

The first grade is making a circus unit. Their sand table and bulletin board promises interesting material.

The third grade is excitedly planning to entertain one of its pupils, Alice May VanWormer. She will be nine years old this week.

The fifth grade is on the second lap of their plane flight. Many new names have been added to the book readers' list.

The China Clipper is off to a head start over the Spirit of St. Louis. These two planes, piloted by Doris Mead and George Karcanes, respectively, are in an arithmetic contest conducted by the seventh grade.

Alfred Glee Club At Assembly

The Alfred University male chorus, under the direction of Professor Ray Wingate, sang at the high school assembly on Wednesday, Feb. 23.

The chorus began the assembly by singing a group of Alfred songs. Dick Smith, who played a piano accordian and harmonica, was loudly applauded, as was the bass soloist, Mr. Rood. The freshman quartet and the senior quartet, of which Wisner Cook is a member, were an interesting feature.

The senior quartet sang "Ten Pretty Girls" and they discovered that Marion Cronk of the seventh grade is the only red-headed girl in the junior and senior high school.

For their closing number the chorus sang the Alfred University song.

Professor John Spicer, who accompanied the chorus, presented the 1938 Kanakadea to the high school. He spoke briefly to the seniors about choosing Alfred for further study.

Senior Card Party Is Successful

The first card party to be held by any class in several years was held in the Andover high school auditorium last Friday evening, Feb. 25, by the Class of '38.

To add to the enjoyment of the evening, a short skit entitled "Melerdramer," was presented by members of the Blackfriars, under the direction of Miss Josephine Cappucilli. Two vocal solos, "Once in a While," and "I Double Dare You," were rendered by Marion Burgett.

Following the party refreshments were served by the members of the Senior Class.

This party has proven to be the most successful, both financially and socially, of any money-raising project that the class has undertaken this year, netting $34

The seniors want especially to thank the teachers who donated the prizes and Mrs. Jesse Hunt who donated the linen luncheon set and the various grocery stores which so kindly aided with their contributions. The large turn-out of the townspeople was evidence of their co-operation with the class and helped to make this activity a success.

Those winning first and second prizes were: Contract bridge, Mrs. Richard Harder; second, Mrs. Archie Bloss; auction bridge, Grace Fisher, Mrs. Anne Childs; pinochle, Glenn Ruger, Mrs. Clara Howland, Mrs. Ralph Benjamin, Mrs. James Wentworth; five hundred, Mrs. Mary West, Mrs. Roy Brundage; pedro, Daniel Reisman; rummy, George Greenan.

Grade 1B to Start March 14

The work of the grade 1B will be started this year on March 14. It has been advisable to make the starting date later this year, because of the large number of pupils enrolled in the regular first grade.

Pupils five years of age or over will be eligible for this group. The pupils will come to the school building at 2:15 and will be taken care of with a story hour until 2:40 when the regular first grade will be dismissed and the grade 1B pupils will then have the use of the first grade room. The instruction will be under the direction of Miss Butler. The pupils will be dismissed at 4 o'clock.

Parents are advised to bring their children for the first session on March 14th.

Our Homemakers

The Homemaking A students are finishing their sewing projects.

Blouses, skirts, housecoats and a smock are some examples of what has been made . Some of the girls have remodeled skirts and blouses while others have made children's clothing and dresses for themselves.

The Home Economic students are beginning their first sewing project. Most of the girls are making dresses for themselves.

The Seventh Grade girls are having their final breakfast, using the principles of table setting and cooking that they have been learning.

Lumbermen's Mutal Sees Bright Future

Preparing for any eventuality that may result from the present uncertain security markets, the (American) Lumbermens Mutual Casualty Company of Illinois has established voluntary reserves sufficient to absorb a decline in market value of stocks to the lowest point reached in the depression year of 1932, according to the statement released today by Burrel C. Williams. Further evidence of the conservative procedure being followed by this company is found in its highly liquid condition, over 61 per cent of all assets being in cash and U. S. Government bonds. Cash alone amounts to $14,399,879.24, which is 47.61 per cent of the total assets of the company.

Continuing its impressive record of uninterrupted growth each year since organization in 1912, the company reported gains in all departments of its business for the 25th consecutive year.

Assets increased to $30,244,092, a gain of $3,613,888. Premium income reached a new high record of $26,566,766 as compared with $22,219,615, an increase of $4,347,151. The company, which for many years has led all mutual carriers in automobile insurance, and ranks second among all companies in volume of automobile bodily injury and property damage insurance, wrote a total of $15,991,168 of this class of insurance, a gain of $1,503,789. After returning $4,028,099 in cash dividends to policy holders, the largest payment since organization, the company's net surplus showed a gain for the year of $507,463 to $4,102,229. On the basis of actual market values, assets and surplus each would have been increased $102,372.

In commenting on the company's business for the year, Mr. Williams said: "Our local agency business, in common with the company's experience everywhere, showed a very satisfactory gain during the year and altho business conditions at the present time are generally disappointing, we look forward to the future with confidence.

"Recently," Mr. Williams continued, "there has been an awakening of motorists generally to the fact that safe drivers should not have to pay the same price for their insurance as careless, irresponsible motorists. We expect that this tendency, recognizing as it does a basic principle under which our company has been operating since organization, will have a favorable effect on our business for the coming year."

Crop and Feed Loans for 1938

Applications for the Emergency Crop and Feed Loans for 1938 Received at Belmont Next Friday.

Applications for emergency crop and feed loans for 1938 will be received at the Farm Bureau office in Belmont, by the county agent, or other authorized representatives on March 8th, between the hours of 10 a. m. to 2 p. m.

All applicants should apply at the time and place stated above, as no other definite appointment will be made for this purpose this spring. The loans will be made, as in the past, only to farmers who cannot obtain credit from any other source. The money loaned will be limited to the farmer's immediate and actual cash needs for growing his 1938 crops or for the purchase of feed for livestock, and the amount which may be loaned to any one farmer in 1938 may not exceed $400.

Farmers who can obtain the funds they need from an individual, production credit association, bank, or other concern are not eligible for crop and feed loans from the Emergency Crop and Feed Loan section of the Farm Credit Administration. The loans will not be made to standard rehabilitation clients whose current needs are provided for by the Farm Security Administration, formerly known as the Resettlement Administration.

As in the past, farmers who obtain emergency crop and feed loans will give as security a first lien on the crop financed, or a first lien on the livestock to be fed if the money borrowed is to be used to produce or purchase feed for livestock.

Where loans are made to tenants, the landlords, or others having an interest in the crops financed or the livestock to be fed, are required to waive their claims in favor of a lien to the Governor of the Farm Credit Administration until the loan is repaid.

Checks in payment of approved loans will be mailed from the Regional Emergency Crop and Feed Loan Office at Springfield, Ill.

Schedule Another Dairy Field Day

Once again a dairy field day has been scheduled for Western New York dairymen, at Batavia, Saturday, July 30th. The aim is to give additional promotion to the dairy industry in that part of the state and to call attention to its importance.

This will be the second annual event, and, aided by experience of the first year, the committee in charge says the coming field day promises to outrank the first. Plans are already progressing rapidly.

"St Pat's" Festival to Feature Earl Hines

A tourist was enjoying the wonders of California as pointed out by a native.

"What beautiful grapefruit," he said as they passed thru a grove of citrus trees.

"Oh, those lemons are a bit small owing to a comparatively bad season," explained the Californian.

"What are those enormous blossoms?" questioned the tourist a little farther on.

"Just a patch of dandelions," answered the guide.

Presently they reached the Sacramento River.

"Ah," said the tourist, "someone's radiator is leaking."
