Spring's a Good Time To Stay Alive

SPRING is a happy season, with Old Mother Nature reawakening. You can add to the joy by making a contribution to safety in your home. With the cleaning time a wise property owner makes use of spring cleaning to include the elimination of fire hazards and making his premises safe from the danger of fire during the dry summer weather. Accumulated rubbish should be removed from buildings and burned. Now is the time to clean papers and rubbish from attics and cellars, before they cause a serious fire.

When burning trash and papers outside, an incinerator of some form should always be used. Field grass and papers should not be burned on windy days and never without close supervision. The fact that a fire company can be called and is quick to respond is not enough.

Make a complete check-up of anything else that might cause fire, as defective electrical equipment, frayed and worn wiring; defective heating plants and chimneys. Cleaning with gasoline is very dangerous.

After painting jobs, which many do in the spring, be sure to dispose of oil or paint-soaked rags and clothing. Many homes are burned by spontaneous combustion fires from paint rags left in a heap. Spontaneous combustion fires seldom visit the neat and tidy housekeeper.

Other ways in which spring cleaning can be furthered includes the planting of well planned gardens, reseeding of lawns, painting of fences and buildings, repairing or replacing of unsightly and [illegible] and whitewashing of cellars.

Man's Best Years

WHAT are man's best years? If you could live your life at one age, what age would you choose? Would you anchor at 20, would you slow down to a halt at 40, or would you be satisfied to follow a normal life span?

These questions, always good for a verbal battle, recently started a word fracas in the British press when Winston Churchill, former Minister of State, recorded in the "Sunday Chronicle" [illegible] the best years of a man's life, the [illegible] and the fullness thereof!"

To which George Bernard Shaw, not to be kept out of any argument, replied: "If you want to be a prize fighter you don't want to be over thirty. If you want to be an old dotard, well I'm over eighty!"

The best answer of all came from Dame Marie Tempest, the actress: "Each age should be a golden age, if you keep your brain clear, and if you have the capacity for absorbing those things which will give a happy life."

True it is that every age has something to offer. Childhood has its frolic, youth its romance, maturity its mastery of the world, and age its contentment. For some, contentment is the highest goal of life. For them, the age which seems to offer least, may in reality turn out to be the best.

What are man's best years? All of them—if he learns to live each age as it comes along, and to forget the joys of the past in the understanding and appreciation of the present.

Too often they get married nowadays for better or worse—but not for good.

The three quickest means of spreading news—telephone, telegraph, tell-a-woman.

Mere Words

WITHOUT words or speech there would be no human culture or civilization and that which we call civilization is largely a matter of words. Possibly most of civilization's ills, moral weaknesses and disease have come about because talk is so cheap, that the poorest of us can fool ourselves into believing that we are enormously healthy, wealthy and wise.

Speech analyzes the situation: "They're not wearing them any more," is enough to make us take them off. "This is what they're wearing now" is enough to make us follow suit. All the good or bad that is accomplished in the world is done by words.

With words one can play a marvelous game of golf, break the bank at Monte Carlo, corner the world's supply of grain, wage a war to end wars and save the world for democracy.

Just how much would a man sweat to achieve success if he could not talk about it, or how much he would strive for "victory" if he could not boast about it? Conversation has been the favorite indoor sport of the human race.

Talk can be as cheap as air; it can also be as fetid as aimless, and as lifeless. The noise you make when you boast of progress may not sound like the croak of a frog, but it is made with the same kind of vocal organs. All the talent you had at birth was for making sounds. You could not have learned to talk unless you had used words to get you service.

If your world is the world you know with your senses, if you sometimes mistrust the label on the bottle and analyze its contents, if you look behind the party's platform to its deeds when in power, if you make certain that you and your country are right before you damn the "foreigners"—if you question your hates and prejudices and smile at your failings and fears, if, in a word, you value your most priceless social tools, you will not hurl your words about like a child, but use them as you use money. Put money in intelligence into your words. Every human being has a right to be judged as an individual.

Little Brother

WE CAN'T say we envy the prospects of the 13th Dionne who recently arrived in the world up at Callender, Ontario. As the youngest brother of the far-famed quint sisters, this newest Dionne may grow to feel he came into the world under a severe handicap. We can hear people saying to the little lad:

"So—you're a brother of the quintuplets! How does it feel to have such famous little sisters? You must study hard. When you grow up you must be a credit to them, you know." And if the youngster and littlest Dionne today cries fitfully in his crib, what he knows? Maybe his prescient eyes warn [illegible] he just "the little brother of the quintuplets."

Ice Patrol

TO MILLIONS of readers, newspapers carried a shocking, terrifying story 26 years ago this week. At 2:20 a. m. on April 15, 1912, the biggest ship then afloat went to the bottom of the Atlantic on her maiden voyage, rammed by an iceberg, and bringing horrible death to 1,517 of the "Titanic's" 2,207 passengers.

From that fateful hour to the present, no such tragedy has ever again occurred off Newfoundland's treacherous Grand Banks. For this week, as for the past 25 years, the United States Coast Guard ice patrol is scouting those cold, foggy seas with hawk's eyes, watching for the islands of crushing, death-dealing ice. Four times daily the patrol broadcasts information on the position of bergs in that danger zone. It keeps careful track of all ships between the 55th and 43rd meridians during the season from April to August when icebergs prowl thru fog-clouded waters. The patrol is determined these hungry seas will never again claim a "Titanic."

To have good neighbors you have to be one.

Car, Caress, Careless, Carless.

About the only difference between the old dime novel and one of today is $1.90.

He's not the kind who stays quiet when his friends are being criticized. Oh, no! He joins right in.

HOW, WHAT AND WHY?

Special to the Andover News

The Andover News has arranged with the Office of Information of the New York State Colleges of Agriculture and Home Economics to answer questions about problems of farm and home. If you enclose a self-addressed, stamped envelope and mention the name of this paper, you will receive a direct reply to your query from the colleges. Do not ask more than one question in one letter or on one postcard. Ask as many questions as you like, but make each one a separate communication.

Seem to be Hornets

H. R., writes: "I live in an old house infested with what I think are hornets. They are quite large and can give a severe sting.

"They seem to stay in the attic, but in the spring and fall somehow swarm into the lower rooms. They have no nests, seeming to live in the hemlock studdings of the house, and are impervious to freezing, thawing, starvation, drouth and fly-spray.

"What can be done? I tried to draw you a picture of one of them but did not succeed very well. This fellow has a kind face, the others have not."

Dr. O. A. Johannsen, head of the entomology department, replies "The specimen you sent is the yellow-legged social wasp. It has a nest, a single small comb of paper cells often found under the eaves of buildings, in garrets, sheds and in barns.

"I have made a rough sketch of the nests and you will have no more difficulty unless you have another invasion."

Best Soil for Alfalfa

F. W. asks: "What is the best soil for growing alfalfa and how much seed is required to plant an acre?"

Professor G. H. Serviss of the agronomy department answers: "The best soil for growing alfalfa is a sweet, deep, well drained loam. Never seed it on acid soil or soils that have a hardpan near the surface.

"Acid soils can be sweetened with lime, but it is not usually practical to tile poorly drained land. Occasionally some alfalfa may be seeded in mixture if the drainage is not too bad but never alone.

"Seeding rate is from 12 to 15 pounds to the acre. The seed should always be inoculated and at least 400 pounds of 20 per cent superphosphate applied to the acre. Ontario Variegated and Grimm are the two recommended varieties."

"It Can't Happen To Me . . . ."

Last year more than a half a million Americans suffered from tuberculosis. Seventy thousand died from it. So we know it can happen. Yet it need not. Tuberculosis can be prevented if the individual, the family and the community will do their share.

The individual can heed the symptoms of the disease. Fatigue, a cough that hangs on, loss of weight are some of the danger signs. The chest x-ray quickly will tell whether there is any cause for worry. A thoro physical examination by a competent doctor is one of the best ways of protecting yourself from tuberculosis or discovering the disease in its early stages.

The family can help by having the growing children tuberculin tested from time to time.

The community can protect its members by hospitalizing the spreaders of the disease and carrying on extensive health education programs.

Early diganosis of tuberculosis is possible. Early treatment makes complete recovery helpful. That's why the people of this community are asked to co-operate in the Early Diagnosis Campaign sponsored by the Allegany County Public Health and Welfare Association, Friendship, N. Y. Here you can get free pamphlets that tell you more. Tuberculosis can happen to you. But it need not.

Some of the earliest methods of cooking potatoes were to roast and steep them in wine, to bake them with beef-marrow and spice, and to preserve them with sirup.

Turning Back the Pages of Andover History

TAKEN FROM THE FILES OF THE ANDOVER NEWS

FORTY YEARS AGO

APRIL 20, 1898

Mosher & Greene, Editor & Publisher

Rev. G. M. Janes exchanges pulpits next Sunday with Rev. F. H. Bisbee of Almond. Mr. Bisbee will preach both morning and evening.

M. A. Crandall was in Olean on business Friday.

C. L. Earley and Henry Stephens were in Belfast Sunday.

Mrs. E. C. Martindale and Mrs. Helen V. Beebe were in Wellsville, Friday.

Mr. and Mrs. H. C. Coleman drove to Little Genesee, Monday, returning Tuesday.

Mr. and Mrs. John DeRemer and little son of Meadville, Pa., are visiting her mother, Mrs. L. A. Raplee.

Miss Lizzie Garvin left Wednesday night for New York City, where she has a position as bookkeeper in the store of P. C. Lynch & Co., produce commission markets.

J. L. Williams was in Wellsville on business, Monday.

THIRTY YEARS AGO

APRIL 24, 1908

J. Harvey Backus, Owner & Editor
W. J. Penny

William J. Penny, one of Andover's most respected business men, died very suddenly of a heart attack while vacationing in California last week. The body was brought to Cuba for burial.

Mr. Penny was president and principal owner of the Mutual Gas company of this place, a director in the Burrows National Bank and interested in all Andover activities.

Frank Raufenbarth is moving his family into their new home on Church street.

Mr. and Mrs. Fred Bettinger are receiving congratulations upon the arrival of a daughter at their home last Friday.

Miss Kate and Marie Joyce were Hornell visitors Saturday.

H. H. Williams was a business visitor in Wellsville, Wednesday.

Mrs. Fred Frank and daughters are visiting her parents at Great Valley.

W. D. Clarke, wife and son of Little Genesee, visited her parents, Mr. and Mrs. W. H. Fulmer over Sunday.

Mr. and Mrs. George Driscoll of Hornell spent Easter with his parents, Mr. and Mrs. Jerry Driscoll.

Robert Bullard of Friendship visited his father, Henry Bullard, last week.

Misses Rena Feely, Katie Dean, Nellie Lynch and Messrs. Robert and John Dean, Leo Raufenbarth, Ed. Horan and Robert Brundage attended the Lyceum dance at Wellsville, Monday night.

Births

April 8.—To Mr. and Mrs. Morris J. Ward, Alfred, a daughter.

April 8.—To Mr. and Mrs. Keesler, Farmersville, a son.

April 10.—To Mr. and Mrs. Edward Schofield, Friendship, a daughter.

April 13.—To Mr. and Mrs. Ernest Calhoun of Friendship, a son.

April 15.—To Mr. and Mrs. Clifford Mills, Wellsville, a daughter.

April 14.—To Mr. and Mrs. Wilbur Reynolds of Scio, a son.

April 17.—To Mr. and Mrs. Ivan Fendleton of Wellsville, a daughter.

April 18.—To Mr. and Mrs. Jess Margeson, Wellsville, a son.

April 17.—To Mr and Mrs. E. W. Hulbert, Bolivar, a son.

April 16.—To Mr. and Mrs. Lewis T. Tower, Bolivar, a son.

April 18.—To Mr. and Mrs. George White, Richburg, a daughter.

April 18.—To Mr. and Mrs. Robert Ransom, Wellsville, a son.

April 19.—To Mr. and Mrs. Ralph Conn, Wellsville, a daughter.

April 20.—To Mr. and Mrs. Dal hart Kintner, Scio, a son.

Marriages

April 10.—Miss Iva A. Baker of Portville, daughter of Mr. and Mrs. Roy Baker, to Frank W. Webster, son of Mrs. Russell Webster of East Aurora.

April 10.—Mrs. Lottie Burch of Oramel to Christian Swartz of Oramel.

April 18.—Miss Mary Catherine Ward, daughter of Mr. and Mrs. J. J. Ward of Bolivar to Clayton E. Benedict, also of Bolivar. The couple will make their home in Bolivar. Mr. Benedict is employed by Potter contractors.

DEATHS

Mrs. Walter Shaner, Portville, Apr. 8. Burial was in Chestnut Hill cemetery.

Mrs. Anna Collins, Canaseraga, Apr. 8, at the home of her daughter, Mrs. T. F. McCarthy, Hornell. She is survived by three daughters and three sons. Burial was in Canaseraga.

John Bray, 90, St. Catherines, Ont., April 11. The remains were brought to the home of Mrs. Thurza Austin, Rushford. Burial was in Rushford cemetery.

Mrs. Nellie H. Waterman, 68, Centerville, April 10, following a lingering illness. Besides her husband, Dr. J. R. Waterman, she is survived by a sister and two brothers. Interment was in Centerville cemetery.

Mrs. Cornelia A. Morris, 83, Hume, April 8. She is survived by a son, granddaughter, step-daughter and two step-sons. Interment in Pine Grove cemetery.

William Gallman, retired farmer, of Angelica, April 14, from a sudden heart attack. He is survived by his wife, five sons, three daughters, one sister and several grandchildren. Burial was in Allen church cemetery.

Hiram L. LaSuer, 71, of Belmont, April 14 at the Jones Memorial hospital, following a heart attack. Surviving are a sister and several nieces and nephews. Interment in Mt. Hope cemetery.

Eldon Metcalf, 27, Wellsville, April 13, by taking his own life. He leaves his wife, two sons, both at home, his parents, two sisters and three brothers. Burial at Knights Creek.

Howard Ward, Rushford, April 19, following a paralytic stroke. He is survived by his wife, a daughter and son. Burial arrangements incomplete.

Jacob J. Gallman, 66, Wellsville, April 14. He is survived by his wife, two daughters, a son and one sister. Burial in Woodlawn cemetery.

A family bulletin board, where notices, reminders and instructions can be posted may be a good idea for busy families in which the members come and go at different hours.

"For Colds -- Salicylate Alkaline Medication"
That's what modern doctors say. That's what Alka-Seltzer is. Instead of being administered in two disagreeable doses, Alka-Seltzer furnishes this medication in one pleasant drink.
If you ever used anything more effective than Alka-Seltzer for Acid Indigestion, Headache, Muscular Rheumatic and Sciatic Pains, we will refund the money you paid for your first package.
Your druggist sells Alka-Seltzer.

Author of "How to Win Friends and Influence People."

ALBERT EINSTEIN

The Wizard Einstein Was Once the School Dunce

I was walking down the streets of a little town in Southern Germany a few years ago when a friend who was with me suddenly stopped and pointed to a window over a grocery store and said: "See that little apartment up there? That is where Einstein was born."

Later that day, I met Einstein's uncle and talked to him. But he didn't impress me as being a man of any unusual ability. But that isn't strange, for when Albert Einstein himself was a child, no one thought he would amount to much either. He is now regarded as the outstanding intellectual giant of this generation, one of the most profound thinkers of all time; yet 50 years ago, he was a slow, shy, backward child. He found it extremely difficult to learn even to talk. He was so dull that his own teachers called him a bore, and even his parents feared that he was sub-normal.

Einstein was astonished to wake up a few years ago and find himself one of the most famous men on all the earth. It seemed absolutely incredible that a professor of mathematics had become front page news on five continents. He admits he can't understand it. No one can understand it. Such a thing has never happened in all the annals of mankind.

This may Einstein is almost as strange as his Theory of Relativity. He has nothing but contempt for the things most people set their hearts on—for fame and riches and luxury. For example, the captain of a transatlantic ship once offered Einstein the most expensive suite of rooms on the vessel; but Einstein didn't and said he would rather travel in the steerage than accept any special favors.

When he arrived in New York to become Professor of Mathematics in the Institute for Advanced Study at Princeton, he was anxious to avoid reporters and interviews and excitement; so his friends took him off the ship secretly before it docked and hurried him away by automobile.

Einstein says that there are only 12 people living who understand his Theory of Relativity, altho more than 900 books have been written attempting to explain it.

And speaking of girls, Einstein has been married twice. He has two boys by his first marriage, both brilliant chaps with the earmarks of genius.

Mrs. Einstein admits that even she doesn't understand the Theory of Relativity; but she understands something that is far more important for a wife; she understands her husband.

Frau Einstein says that her husband likes order in his thinking, but he doesn't like it in his living. He does whatever he wants to, whenever he wants to. And he has only two rules of conduct. The first one is: Don't have any rules whatever. And the second one is: Be independent of the opinions of others.

He leads a very simple sort of an existence, goes around in old clothes that need pressing, seldom wears a hat, and whistles and sings in the bathroom. He shaves while sitting in the bath tub and he doesn't use shaving soap. He shaves with the same soap that he uses for his bath. This man who is trying to solve the vexing riddles of the universe says that using two kinds of soap makes life entirely too complicated.

Einstein impresses me as being a very happy man. His philosophy of happiness means far more to me than does his Theory of Relativity. He says he is happy because he doesn't want anything from anybody. He doesn't want money or titles or praise. He makes his own happiness out of such simple things as his work and playing the violin and sailing his boat.

Conservation Committee Raises Rate for Potatoes

Rate for Group A Potato Farmers Raised 20 Per Cent. Must File Work Sheets by May 1st.

About one-third of the farmers in New York State who will take part in the 1938 Agricultural Conservation program have already filed work sheets, according to estimates by Earl A. Flansburgh, state executive officer. A total of 14,850 farmers had filed work sheets by noon of April 12.

The state executive officer has notified all counties that the recent congressional action raised the rate of payment on potato farms from three cents a bushel on the acreage grown not to exceed the allotment to three and six tenths cents a bushel. This is an increase of 20 per cent and will necessitate a refiguring of the potato farms already enrolled.

The New York State Agricultural Conservation Committee, which met in Ithaca has set May 1 as a goal for all farmers on Group A farms to file work sheets. Those who wish to participate in the 1938 program are urged to file their work sheets by May 1 so that acreage allotments may be established for these farms before planting time. Group A farms are those which raise tobacco, those which grow more than three acres of potatoes, and those which usually sell more than 100 bushels of wheat, or farms which are classed as commercial vegetable farms.

Roy A. Porter, of Elba, chairman of the state committee, says that those farmers who wish to take part and whose farms are in one of the foregoing classes, should sign at once.

Must Have Permit to Auction Baby Chicks

Persons conducting auctions of baby chicks must secure a permit from the Department of Agriculture & Markets and submit a fee of $10 for each auction, according to a bill signed by Gov. Lehman, April 12th. The law became effective on that date.

The application should include the date of the sale, number and breed of baby chicks and the name of the person by whom they were produced. Containers must be labeled to show the kind and number of chicks, whether the chicks are sexed or unsexed, the purity of the breed and other information.

Cornell bulletin E-373 tells how to make an outdoor poultry feeder that is easily filled and cleaned and keeps feed dry. For a single copy, write to the New York State College of Agriculture at Ithaca, N. Y.

MAKE YOUR TEETH shine like the stars!
CLEAN AND WHITEN TEETH with Calox, the Oxygen tooth powder which penetrates to the hidden crevices between the teeth. Pleasant, Refreshing. Protects the gums and is economical to use.

OUR CHURCHES

SEVENTH DAY BAPTIST

Walter L. Greene, Pastor

Sabbath services at 2:30 p. m. The pastor will speak on "Majorities and Minorities."

Bible School at 3:30. C. J. Burdick, superintendent.

Independence

Morning worship and sermon by the pastor at 10:30.

Sabbath School at 11:45. Mrs. F. C. Clark, superintendent.

"The universe points to the God of whom the Bible speaks."

BAPTIST

Rev. W. C. Gates, stated supply

Sunday, 10:30, morning worship. Sermon by Rev. W. C. Gates, followed by the ordinance of baptism.

Bible School at 11:45, to which all are invited.

6:30, Christian Endeavor.

Midweek prayer meeting at the home of Mrs. Mary Kemp.

The W. W. G. girls will meet this Friday evening with Miss Elaine Pope.

A social for the Sunday School will be held in the church Friday evening, April 29.

PRESBYTERIAN

Rev. Lucien H. Kerns, Pastor

Morning worship at 11:30. Sermon, "The Cloud of Witnesses."

Sunday School at 10:30. A new class is being organized for children of pre-school age, (three to five years) under the leadership of Mrs. Margaret Kemp and Miss Helen Folsing. Parents are invited to send their younger children to this group.

There will be a service of installation in this church Tuesday, April 26 at 8 p. m. At this time Rev. Lucien H. Kerns will be formally established as pastor of the church by a commission from the Presbytery of Steuben Elmira. The ministers officiating will be the Rev. Clayton L. Grieveld, Watkins Glen, Moderator of Presbytery; Rev. J. Gordon Kingsley, Canisteo; Rev. Carl J. Grabb, Painted Post; Rev. Alfred B. Waugman, Cohocton; Rev. William W. McCall, Hornell.

The Young People's Society will meet at the church on Saturday evening at 7:30 o'clock for a social. A full program of games and refreshments is planned. Come and bring your friends.

METHODIST EPISCOPAL

Edward J. Cory, Minister

10:30 a. m., Public Worship. Sermon by the pastor. Subject, "A Post Easter Experience."

11:45 a. m., Church School. Lesson subject, "The Place and Purpose of Vision."

Questions like the following are suggested by this study: "How were the disciples helped by their vision on the Mount of Transfiguration?" "In order to have visions, must a person entirely withdraw from his fellowmen?" "What are visions for?" "Can we see any harm in making a conscious effort to receive visions?" "What was the most ecstatic moment in your life?" "How did you seek to preserve its inspiration?"

7:00 p. m., Young People's meeting. All young people invited to share in this hour, who may not have connections elsewhere.

The Easter morning service at the church was well attended and of an especially impressive character. Nine persons were received into the membership of the church.

The program in the church school session was well rendered, closing with some very effective tableaus illustrating the Easter theme.

CHRISTIAN AND MISSIONARY ALLIANCE

Rev. H. E. Wilson, Pastor

Sunday school at 1:45 p. m. sharp. Lessons are getting more interesting than ever in our study in the Gospel According to Saint Mark. Topic "The Place and Purpose of Vision." Come and bring your classmate, chum or friend to Sunday School. Classes for young and old.

Divine Worship at 3 p. m. Message by the pastor. Theme: "Our Devotional Life." Text: "Kept by the power of God thru Faith." Don't forget your missionary money. Everyone given a cordial invitation to worship in His presence.

Evangelistic service, 7:30 p. m. Thrilling, rousing, heart-stirring and heart searching time of a rousing old fashioned Gospel service of song, testimonies, choruses and message for both young and old. Theme: "Satan." Come to this service, we cordially invite and welcome you to attend and worship with us.

Bible study and prayer meeting on Thursday evening, 7:30 p. m., at the home of Mrs. M. Walton, North Main street. This is the second in a series of studies in the "Epistle to the Romans." Theme: Part I., "The Doctrine of Sin." Come and bring your pencil and paper.

Friday evening, at the home of Miss Flossie Williams of Rochambeau avenue, 1:30 p. m., the young people will hold their service. Leader will be Miss Ernestine Nelson. Topic for the evening "The Love of God." Older folks, the young people extend a cordial invitation for you to come and share these studies with them, this includes all from the age of one to 99!

Watch Your Kidneys!
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery.
Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength.
Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been making new friends for more than forty years. They have a nationwide reputation. Are recommended by grateful people the country over. Ask your neighbor!
DOAN'S PILLS

Not Driving These Days

According to the last Motor Vehicle Bureau bulletin, the following Allegany county drivers are not driving:

Revocations:

Omer P. Clark, Scio, driving while intoxicated.

Vexie Ours, Wellsville and Harold Scott Sink, Centerville, for reckless driving.

Suspensions:

Eugene Chester, Friendship, reckless driving; Edward Willard, Wellsville, driving with operator's license where chauffeur's license is required.

I Pick 'em Up

TRUE STORIES OF HITCH HIKERS

by L. ELLIS EVONS

Needles And Pins

My work for the last 25 years has necessitated the use of an automobile and my mileage has been as high as 30,000 miles in one year mostly through open country. Naturally I have been thumbed numerous times and have given lifts to men and boys in all stations of life. The stories that some of them tell are true to life and many times prove that 'one half of the world does not know how the other half lives.'

So we hikers take a lift as a matter of course, just going to some other place for no reason at all or to the next town to see a girl or visit a relative or just for the ride. Such riders mean nothing to me. I like to give a lift to some wood-sawyer, a farmer some razor blades or his wife some needles for a bed and breakfast. Sometimes I had enough money to take a bus to the next town or I would be lucky enough to get a lift from a good hearted motorist. Down in Georgia, I met a man with a big Cadillac car. He was out of gas and had no money. I bought some gas and got a 25 mile lift. He was a stranger to me that part of the country and what he would have done for gas money I don't know. He was worse off than I was. I worked my way over to New Orleans and up the Mississippi to St Louis. As I sold my stock I got more from some wholesale house or would write back to New York or Philadelphia and have it mailed to me. I picked up some nice things in Cincinnati.

He proceeded to show me one of the cleverest collections of needles I had ever seen, all arranged in a cardboard folder.

I hope I could not resist the tendency to buy, although he did not urge me, and I took the assortment home. When we arrived in Philadelphia he had 6 or 8th and Vine, the haunt of homeless men. "Needles and Pins, Needles and Pins" he cried as we passed along. Finally he said, "Let me out here." I was puzzled but he explained that he was going around, and I see the country. Left Baltimore, Md., about nine months ago. Met a young fellow in a lodging house and tried to give him a start in the "business." I staked him to a stock of stuff and we would go out in the morning and compare notes at night. He didn't have what it takes. He would only have a few pennies to make my two or three dollars in sales, so I had to ditch him, as I could not afford to do the charity act. As the weather was beginning to get cold, I worked my way down through Virginia, the Carolinas, Georgia and Florida.

Some time I would make enough to stay in a lodging house, some time I slept in a barn or would give a farmer some razor blades or his wife some needles for a bed and breakfast. Sometimes I had enough money to take a bus to the next town or I would be lucky enough to get a lift from a good hearted motorist. Down in Georgia, I met a man with a big Cadillac car.
