GRANGE NEWS

Edith M. Thorne, Lecturer

Our next regular session is October 12th, Columbus Day. As we think of the day in all its significance, let's remember, America still lies ahead; America still spells opportunity. The program that night will be very brief, perhaps a travelogue and some singing; but the next evening, October 13th at our fair, a special program will be rendered.

Each one will have the opportunity to hear a short non-partisan discussion of some of the proposed changes in New York State's Constitution by Allegany county's delegate, C. L. Lathrop. There will be special music, a short play, a monologue and tableaux to make the entertainment worthwhile.

October 26 the Grange will hold its regular session with Genesee Valley Grange at Scio. The Genesee Valley Grange will conduct a model Grange and Andover will furnish the program for the library hour.

The Grange's two dramatic clubs headed by Gertrude Schoonover and Margaret Northrup are preparing a dramatic contest to be held in the Grange some time next month. Plays for each side have been ordered and work will soon begin on them.

Gun Club Seeks Coon Dogs for Annual Event

Wellsville Rod & Gun Club Officials Want Entries for Chase There Sunday.

Wellsville Rod and Gun Club officials this week sent out a call for coon dogs. The call was issued by Barney Schmidt, chairman of the coon chase to be held as part of the club's annual field trials program next Sunday.

Mr. Schmidt urged all owners of these deep-voiced, long-eared hounds of the hills to send their names and addresses to him or Merle Simons, coon dog owner and enthusiast who is helping to arrange this part of the club's program.

The coon chase will start at 10 o'clock Sunday morning at the club's Gypsy Lane property and will be run under the same system used last year. This system appeals to the spectators and resulted last year in making the coon chase one of the most popular events on the program.

Lawrence Duke, chairman of the bird dog events, which will be run over the Crowner Flats on the Bolivar road, said today the entry lists for the amateur derby and amateur village stakes would be kept open Sunday morning until the first brace of dogs take to the field. All owners of setters and pointers are invited to join in one of these events.

Judges for the bird dog trials will be Gregg Tyler of Rixford, Pa., and P. J. Henshaw of Elmira.

Skeet and trap shooting over the Gypsy Lane courses will be under the direction of Charles Yost, who is planning several events for Sunday afternoon and evening.

Duane Wilson will have charge of the refreshment stand at the club house.

FIRE PREVENTION WEEK - OCT. 9 to 14

For the past 27 years, Fire Prevention Week has been widely publicized as a time to check up on homes, business places and public buildings.

Ask the average person what is the greatest cause of fire and he is apt to say "Children playing with matches." Yet, there are dozens of ways in which adults, thru ignorance or carelessness, start fires. Spontaneous combustion, faulty wiring, dirty chimneys, improper care and handling of heating and cooking appliances, are some of the frequent causes.

As our part in National Fire Prevention Week, may we suggest that you clean up rubbish heaps in yards, empty lots, basements, etc., especially if those heaps contain oily rags, papers and wood. Take special care to have clean chimneys, clean flues and properly insulated furnace pipes. Check your gas and electrical appliances for bare wires or leaks in hose or pipe connections. Have a flashlight and garden hose handy to help in fighting fire disasters in the home. Analyze possible fire hazards in your home and rectify the conditions.

HACK SAWS

A handy tool to have around, and we have a good one for 29c and one is worth more than that for just a few minutes work.

CRESCENT TOOLS

Surpass all others for real value. The steel itself is different—it's a special alloy developed by Crescent engineers to withstand hard usage. Crestoloy Pliers have already withstood punishment and abuse which would damage ordinary pliers beyond the point of usefulness.

Men who take their tools seriously demand "Crescent."

HEEL PLATES

Fit the shoes perfectly, hold securely, wear longest and come in a variety of sizes. Save the hard wear on your heels with heel plates.

EARLY SUNSETS

You will need to do chores by the light of a lantern these evenings. Have you a good one from which there is no danger of setting the buildings on fire? Look them over, and make sure they are safe.

DULL KNIVES

Are a menace only to the fingers of the user. They work hard and cut in the wrong place.

Sharpening Stones are cheap and there is no patent on a keen cutting knife. Let us show you a sharpener that will do the trick quickly and easily. Kitchen Hones, 10c and up.

CASCO GLUE

Is the sticker of no disappointments! It is water proof, and stays stuck!
