County Nurses Make 3,546 Calls in 1947

The annual report of the Allegany County Health Nursing Service made to the Board of Supervisors showed 3,546 calls made by the two nurses employed, Mrs. Carol Carpenter and Mrs. Madelin Harkenrider, both of Andover, on 249 families and 522 individual patients; 3,442 people vaccinated against smallpox and 2,362 children against diphtheria; 2,496 people examined with x-rays and in clinics for tuberculosis. The county has 97 known tuberculosis patients, ten hospitalized, smallest number in some years, and the county's death rate from the disease next to the lowest in the state. Patient care at Mt. Morris costs the county $2.50 daily, some cases running up bills as high as $5,000.

Because it has been impossible to find a third county nurse, the two have carried out a large amount of work, said greater than four in one neighboring county.

Fire Damages Genesee Chemical Plant

Fire believed to have started from a spark from a kiln or a boiler totally destroyed the building over the kilns about midnight Saturday night of the Genesee Chemical plant. The Genesee fire company assisted by two companies from Wellsville fought the blaze.

The building will be rebuilt immediately according to company officials.

She: "I've lost quite a lot of weight."
He: "I can't see it."
She: "Of course not, I've lost it."

Let's Call Fowl

Meat will be less plentiful in 1948 than it has been in 1947 and prices will be high, the experts warn. So you might as well start lining up protein alternates that are within your budget.

Again your attention is directed to fowl (stewing or roasting chickens, or hens). These birds, ideal for baking in a covered roaster; stewing, simmering, or fricasseeing, are plentiful and easy on the pocketbook.

Incidentally, more meat was produced during 1947 than 1946 but the demand was greater than ever. And toward the end of the year, farmers sold some animals that would have been kept if feed supplies had been adequate. Thus the supply of meat was artificially increased during December.

And fowl is plentiful at present for somewhat the same reason. Poultrymen are reducing their flocks to save grain for the hungry abroad. They're killing off the non-layers, which make just as good eating and offer just as much protein as do productive hens.

Canned Goods Okayed

Don't hesitate to use canned fruits and vegetables to supplement fresh ones during the winter. They are excellent sources of minerals and vitamins and much cheaper than the fresh food that must be transported long distances during the cold season.

Canned orange juice and grapefruit juice are the best sources of vitamin C among canned foods. Canned carrots, spinach, and apricots are the best sources of Vitamin A.

January Milk Price $5.31

New York, Feb. 13.—Dairy farmers will be paid a uniform price of $5.31 per hundredweight for their January deliveries to the New York pool-approved plants, it is announced by Dr. C. J. Blanford, market administrator of the New York metropolitan milk marketing area. The uniform price in January 1947, was $5.13 per hundredweight.

At the same time Dr. Blanford announced that the January producer butterfat differential would be 5.2 cents for each tenth of a pound of fat above or below the 3.5 per cent standard.

Total farm value of last month's milk production is $19,663,827.53, made up of $19,133,256.28 at the uniform price of $5.31 and $530,571.25 in butterfat and location premiums.

VETERANS NEWS LETTER

Many veterans have made frequent inquiries about overseas jobs. They will be interested in a list of current civilian positions available in areas now occupied by the U. S. Army.

The list, just released by The Office of the Secretary of the Army, Overseas Affairs Branch, includes 18 job titles in Germany, 19 in Japan, 30 in Korea, 3 in Alaska, 5 in the Azores, 1 in Manila, 14 in Guam and 8 in Okinawa.

Most of the positions carry civil service ratings which call for annual salaries ranging from $2710.35 to $8877.75 while ungraded jobs call for hourly wages from $1.35 to $1.78. Clerk-stenographers and clerk-typists are much in demand.

The duration of employment is generally for two years but will be contingent upon the military occupation situation in the area.

Further information regarding the vacancies as carried in a New York State Division of Veteran's Affairs bulletin may be had by calling at the Allegany County Veterans' Service Agency, Court House, Belmont, or at the New York State Employment Service office, 161½ North Main Street, Wellsville.

Still causing much confusion in the VA's Insurance office each month is the fact that many hundreds of vets, holders of NSLI policies, still send in their monthly premium payments without properly identifying them. VA officials ask that each payment be properly identified with full name, policy number, service number, address and period for which payment is submitted. If a check is sent, this information should appear on face of check, lower left corner; or on reverse side of postal money order. . . Nearly $1.5 billion-billions, that is-in Terminal Leave bonds have been paid to eligible vets. A total of 7,182,133 claims had been received as of December 31st, each claim averaging $203. Deadline for applying is September 1, 1948.

State Approves Limited Fair Labor Day Week

Albany, Feb. 16.—Decision to conduct a limited State fair at Syracuse this year has been made by State Agriculture Commissioner C. Chester DuMond.

The fair will be for exhibition purposes only and will include a cattle show, junior agricultural projects and possibly exhibits sponsored by the New York State Grange. Labor Day, September 6, will mark the opening day of the fair and it will be in progress for that week only.

Commissioner Du Mond said that he greatly regrets it will be impossible to hold a full-fledged State fair this year but that the dairy and breeding industry, the farm youth enterprises and the Grange interests require statewide competition as preliminaries to national contests.

Fred: "Give me an example of nothing."
Ed: "That's easy a bladeless knife with no handle."
