Ernest Howden, 72, of Wellsville, April 14. His wife, two sons, two brothers and two sisters survive

Youth for Christ Has Beginning

If you like good singing—if you enjoy band music—it's Youth for Christ, beginning for southern Allegany county in Andover at the Methodist Church Saturday, April 17th at 8 p. m.

The complete program for the evening will consist of a street meeting on Main street before the service at 7:30, at which members from the Houghton College band will play. At 7:45 Andover Boy Scouts and the band will lead a procession to the church. The main feature of the evening will be a gospel moving picture entitled, "The Man Who Forgot God," presented by Mr. and Mrs. Bedford. Bob Noble and his trumpet trio will play and all will take part in special singing.

Youth for Christ is international, interdenominational, by youth, for youth, and suited for all age groups. Youth groups and grown-ups from Belmont, Scio, Wellsville, Independence, Whitesville, Elm Valley and Andover will be present.

Youth for Christ is "Geared to the times but anchored to the Rock." Both old and young are urged to attend this opening meeting.

Cooking time for frozen meat is figured differently from that for thawed meat. For a leg of lamb, allow about 33 minutes a pound; for the same piece frozen, allow 42 minutes a pound.

Quick Work

A lady who had just received an interesting bit of news said to her little daughter: "Marjorie, dear auntie has a new baby, and now mother is the baby's aunt, father is the baby's uncle, and you are her little cousin."

"Well," said Marjorie wondering, "wasn't that arrangement quickly."

VETERANS NEWS LETTER

Occupational status of veterans [illegible] interest to veterans [illegible] to decide upon a career [illegible] based in the report [illegible] jointly by the President's Commission on Higher Education.

The information shown is of value in trying to make a decision of an occupational objective after the veteran has taken advantage of the testing and advisement service offered all eligible veterans by the Veterans Administration, as well as the vocational counseling services made available to veterans by the New York State Division of Veterans' Affairs through the local Veterans' Service Agencies.

In Allegany county, the veterans may make appointments for the VA aptitude tests through the County Veterans' Service Agency, Court House, Belmont, and then follow up the tests with full use of the vocational information file maintained at the Agency. The tests are given at the VA center, St. Bonaventure.

Anticipated shortage of trained workers was analyzed by the President's Commission as follows:

1. Growth in occupational groups: If there is full employment, the number of professional and semi-professional workers will jump from 3,300,000 in 1940 to 5,500,000 in 1960. Administrative workers are expected to go up from 3,700,000 in 1940 to approximately 5,800,000 in 1960. Clerical and sales to about 11,000,000 in 1960. All major occupational fields are expanded, except possibly agriculture and domestic service.

2. Teachers: One million teachers must be recruited and trained between 1950 and 1960—the greatest demand in elementary and high school teaching.

3. Physicians: 56,000 more doctors will be needed in 1960.

4. Dentists: More than 48,000 dentists should be graduated between 1950 and 1960.

5. Nurses: There was a national shortage of 41,700 nurses in 1947 and 236,400 more will be needed by 1960.

6. Pharmacists: From 1935-1945 there was an accumulated shortage of 7,500. Enrollments [illegible] shortage and [illegible] that all graduat[illegible] will find work up [illegible] By 1950 the [illegible] graduates may top [illegible] of jobs available. De[illegible] but recent [illegible] enrollments may result in [illegible] a change.

In the event that a veteran loses his New York State veterans bonus check, he should write or wire the facts to the Division of the Treasury, Veterans Bonus Bureau, Post Office Box 1677, Albany. The Bureau will stop payment on the check and advise the veteran of the steps to be taken to obtain a new one. — Nearly half a billion dollars in terminal leave pay is still unclaimed by eligible veterans. The deadline for application is September 1, 1948.—Dr. Nils B. Hersloff is now manager of the VA hospital at Canandaigua. He succeeded Dr. Hans Hansen on April 1, when Dr. Hansen retired. Dr. Hersloff had been chief of the VA New York Branch Office's neuropsychiatric division.

Browning of Evergreen Trees Explained

Albany, N. Y. April 8—The browning of needles on evergreen trees, a condition particularly prevalent in the Adirondack region and which has been causing concern among woodland owners, resulted from an excessive loss of moisture during the winter months when roots were unable to replace the water evaporated from the foliage, it was expected today by William G. Howard, Director of the Division of Lands and Forests of the Conservation Department. Undoubtedly, the extremely dry weather during the fall of 1947 resulted in the conditions which caused the wide-spread occurrence of this injury. It has been quite common in scattered localities previously.

Investigations by the Conservation Department indicate that the injury is largely confined to trees exposed to high winds or bright sunlight. It is expected that most affected trees will overcome the damage, but some of the severely injured small trees may not recover.
