Notice to Gas Consumers

By order of the Public Service Commission dated April 22, 1948, this Company has extended until June 30, 1948 the restriction on gas service for new or additional space heating in effect since July 17, 1947 and which is as follows:

Restriction of Gas For Space-Heating:

Gas service will not be supplied for new or additional space heating purposes to premises having facilities for the utilization of other types of fuel or to newly constructed premises except where the customer has purchased and has commenced the installation of heating equipment designed exclusively for gas fuel prior to July 17, 1947.

Whenever the facts establish with reasonable certainty that a customer hereafter has connected new or additional gas heating equipment, the Company will discontinue all service to such customer upon such notice as is or may be required by law until the new or additional gas heating equipment has been discontinued.

This restriction shall remain in effect until June 30, 1948 unless such date is changed prior thereto.

Please note that there has been no relaxation of restrictions and that ANY NEW SPACE HEATING by natural gas, whether for residential, commercial or industrial use, is not permissible.

VETERANS NEWS LETTER

Medals for overseas service in World War II will be available for general distribution by June 1st, the Department of the Army and Navy have announced.

The medals are counterparts of the three "Theatre Ribbons" which were issued during the war covering service in the American, Asiatic-Pacific and European-African-Middle Eastern Theatres.

The metal portion of each medal has its own distinctive design and the ribbon part is of the same color and pattern as the service ribbon—predominately blue for American, yellow for Asiatic and green and brown for European.

Except for the American Campaign medal, eligibility is determined solely on the basis of actual service in an overseas area during the war period. For a European-African-Middle Eastern Campaign medal, service must have been performed sometime between December 7, 1941 and November 8, 1945. For the Asiatic-Pacific and American Campaign medals, the dates are December 7, 1941 and March 2, 1946. The American Campaign medal may be awarded for Western Hemisphere service outside the United States or for one year's satisfactory service within the United States during this period.

Battle stars indicating combat participation and arrowheads indicating amphibious or airborne spearhead action will be issued with the medals on the basis of the individual actual eligibility. The information is contained on the discharge paper given the individual at the time of his separation from service.

Not only may veterans and eligible active servicemen receive medals, but next of kin of deceased former servicemen may apply for the awards in the names of the descendants. The Army, in announcing availability of medals, gave the following information on how to obtain them:

Next of kin: Apply to the Adjutant General's Office, Demobilized Personnel Records Branch Building 105, Records Administration Center, St. Louis 20, Mo., citing name, last rank and serial number of the deceased individual.

Veterans: Apply by mail or in person to distribution points to be announced later. If application is made in person, bring evidence of honorable separation from the service. If such evidence is lost or destroyed, apply to the Records Administration Center, AGO, St. Louis 20, Missouri for a certificate of lost discharge. If application is made by mail, include a photostatic or notarized copy of the separation paper.

Payment of National Service Life Insurance premiums with postal money orders rather than postal notes has been suggested to policy-holder veterans Administration.

Local post offices keep a record of all money orders issued and if a veteran has lost his numbered money order stub, a search of the post office files will produce all the information necessary to identify a premium payment, the VA officials pointed out.

No record, however, is kept of postal notes issued and if the veteran should lose his receipt, there is no way to trace the payment.

No matter how the premium payment is submitted, the payee's full name and address, his policy number, service number and the period the payment covers should be noted on the face of the check, money order, or postal note.

A new series of New York State War Scholarships for veterans has been established and a competitive examination is expected to be held early in August

Despite a report to the contrary, a change has not been made in the residence requirements at the time of applying for the New York State Bonus. Residence at this time of application is still mandatory. What did happen is that the 1948 Legislature passed a concurrent resolution to repeal the residency requirement at time of application. Before the change can be made, however, the amendment must be approved by the 1949 Legislature and then approved by the voters in the 1949 election. It can't take effect, therefore, until January 1, 1950. All other eligibility requirements as to service, six months residence in State prior to service, etc., remains unchanged.
