Rules for Attending Church. 1 Don't stop to clean your boots, but stomp off the loose snow and mud in the entry, making as much noise as possible.

2 Stop in the aisle either by the stove or over a register, so as to be in the way of others who wish to come in. No matter whether it is a cold or hot air register, only so that you attract attention.

3 When you get seated and services commence, take out your watch to see if everything is on time, then snap it shut so that it can be heard all over the church. Repeat this every ten minutes during service.

4 Forget to wind your watch before leaving home, this will give you occasion for a grand display.

The above rules will be found very beneficial, others will be given in due season.
