Two things, the pulpit the petticoats—the three ruling powers of the day. The first spreads knowledge, the second, spreads morals, and the third spreads considerably.

They are having quite a sensation in Chicago over a Chinese giant by the name of Chang—full name, we suppose, is Chang High. We shall say there is not significance in names?

Commissioner Delano is doing a good thing in overhauling the income returns of the nabobs who have splendid liveries, live in magnificent mansions, and count their possessions by millions, yet make no income returns to the Government. It is time this scoundrelly piece of business was looked into.

What with the Democracy having undisputed sway in New York city, and the building of Mormon and Chinese temples, the commercial metropolis bids fair to be a lively place. The Mormon temple is to cost $400,000. Thus Brigham makes a forward movement direct upon the greatest city of the Gentiles. The Chinese are also about to build a pagan temple in New York. The religion of New York will soon be of as doubtful a composition as its politics.

At the National encampment of the Grand Army of the Republic, which closed its last session on Saturday, Nov 6th. Among the matters acted upon, were the extension of time for the muster of old comrads beyond the 1st of September; the proposed insurance scheme, and also the adopting of a badge, commission, and certificate of membership, and several other subjects of importance The present membership of the Order is between 150,000 and 200 000.

Small-pox and whi-ky are taking off the noble Sioux at a pretty lively rate. Fire-water is bad medicine for the Indian. The Hon. Mr. Spotted Tail, having invested to freely, has disposed of Col. Big Mouth, of the Ogallalas, which causes Col. B. M., to be considerably down at the mouth. A military officer, we believe, is agent of these Indians It probably was a mistake in not turning the whole Indian outfit over to the Quakers. More peace and less whisky is what we want among our red friends.

We learn by the New York *Tribune*, that the first testimony in the draw-back fraud was taken on Saturday last, and so fare opens the case that the public can name the principal conspirators.—These frauds have been going on for five or six years, and the parties in the work must have robbed the Treasury of a vast amount of money. Samuel T. Blatchford was the leading spirit, his assistants being R. B. Cauldwell & Co., Custom House brokers, Romeyn Mulligan, and Francis A. Howard, a clerk in the Revenue Bureau at Washington.—The most important witness thus far is a clerk named Korn, who was familiar with all the transactions, and was an interested party to some extent. He was arrested last January, but, not acceing the justice of suffering alone while the leading offenders went free, he told the whole story to the District-Attorney. Several parties whose names are withheld are under arrest, and Judge Pierrepont is determined to sift the matter thoroughly. The examination is adjourned until next Friday.
