The Jamestown *Press* tells of a couple living in that village who in twelve years of married life, have resided in eighteen different villages and in twenty-four different houses.—During the moving period the lady has had fourteen children, all living and doing well considering the short stay they make in a place. As we have been informed, they were to pay him (Tadner), $1,000, and if he should find oil in paying quantities, he was to pay back to them the $1,000 given him, and $1,000 more, as their share. Tempekance Convention—At the annual meeting of the Allegany county Temperance Society held at the Baptist church in the village of Cuba, on Thursday Nov. 16th Mr. A. H. Lewis of Alfred delivered a splendid lecture on "What to do," of which the following are the leading thoughts.

1. Base all efforts for temperance reform on religious and not merely moral grounds.

2. Reform physical habits which produce an appetite for strong drink. Unhygenic living—quality and quantity of food; thrown away: spices, highly seasoned condiments; worthless pickles, dispepsia breeding hot bread and late suppers, &c., &c. Must make war on tobacco before any real progress can be made in temperance reform; discussed the nature and effects of this poison showing how it created and kept burning a desire for other stimulants.

3. Must seek for total prohibition: argued that licence laws protect crime were unsound in moral ethics, and hurtful in practice. This was argued earnestly and at length.

4. Must reform social customs. Fashionable drinking and selling on the part of the rich and those who claim to stand in the first ranks of society: must measure men by manhood, not by money, and condemn drunkenness in gilded palaces as much as in cellars and gutters. Must lay aside false dignity and Pharasceism in dealing with the erring, —must go down to them and help them up, not stand above and call them up in self-righteousness as though we were better than they. Closed with an appeal to rally for new efforts.

Our district school commenced this week with Adrian Almy of Wirt, and Jennie Riley, of Birdsal, as teachers, where, it is hoped, our boys who loaf around our streets and hotels so much, to the disgust of the proprietors and their costomers, that they will be induced to attend school so the public will rid itself of their room and annoyance for a few hours each day, and the proprietors chairs and counters rest.

Unless some of our boys who do no work and I buf don't change their course soon, Allegany will not lack for candidates at Auburn, and they will go in different shape from what Jeff. Thomas went, but we hope the boys will see the evil of their ways.

One of our most prominent citizens was abused in a store a few nights ago by a couple of beardless roughs. It's thought by most of our citizens that these roughs are indebted to the state of New York, and they will be able to pay that debt. Rude by name and nature and Calf without the Med, will answer for their names. This is perhaps the first time their names ever appeared in print but unless they behave better it won't be the last time.

Valentine.
