Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Colds, Coughs, Asthma, Bronchitis, Croup, Whooping Cough, Influenza, and even Consumption, when taken in its early stages.

Probably never before in the whole history of medicine has any remedy been so universally relied upon by the people as the CHERRY PECTORAL. For many years it has been in constant demand, and has performed more cures than any other medicine. Its reputation is not confined to any locality, but is known in every family, and almost in all parts of the civilized world. Many of the most eminent members of the medical profession have given it their sanction and support. Clergymen, Public Speakers and great professional singers have found it invaluable for clearing the throat and giving strength to the voice. Many of the most wonderful cures on record have been made by the CHERRY PECTORAL, and it is now regarded as the best remedy known to mankind for the cure of all Pulmonary Complaints.

All who have used this medicine know its virtues, and those who have not should make a trial of it at once. Public Speakers find great protection from it.

All are always relieved and often wholly cured by it.

Consumption is generally cured by taking the CHERRY PECTORAL in small and frequent doses.

If Ministers and Public Speakers will heed the advice of the afflicted, before it is too late, they will find relief. Many a minister has been saved to his church and to his family by timely use of this remedy.

Ayer's Ague Cure,

For Fever and Ague, Bilious Fever, Dumb Ague, Periodical or Bilious Fever, Chills and Fever, and indeed for the whole class of diseases originating from malarious, marsh, or miasmatic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it is second to no remedy in its power to expel the poison, and thoroughly purify the blood. Even those cases which have baffled the skill of the most eminent physicians, and resisted all other remedies, will be promptly relieved by taking the AGUE CURE daily.

In Neuralgic Complaints, arising from Torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.

PRICE, $1.00 PER BOTTLE.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this celebrated medicine enjoys, is derived from its cures, many of which are truly marvelous. Invetrate cases of Scrofulous disease, where the system seemed saturated with corruption, have been perfectly and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and infidel tenant of the organism undermines the constitution, and invites the attack of disease, without exciting a suspicion of its presence. Again, it seems to lurk in ambush throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be insidiously deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the accumulation of a bottle of this Sarsaparilla, is invisible even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, in time, cure, by the use of this SARSAPARILLA: Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Pile, Rheumatism, Neuralgia, and the various Ulcerous affections of the mucous and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for rubbing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Lowell have by Whites, Viscous Discharges, and Female Diseases, are commonly soon relieved and ultimately cured by its use. For the Rheumatism, Gout, Erysipelas, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Pile, Rheumatism, Neuralgia, and the various Ulcerous affections of the mucous and nervous systems.

Presbyterian Union.

The reunion of the Presbyterian Church, which has been under active negotiation since 1866, has at last been substancially accomplished. It will be remembered that in May last, the general Assemblies of the two Schools met in New York, and agreed upon a plan of union which was submitted to the Presbyteries for ratification. We learn that considerable more than two-thirds of them have formally ratified! The adjourned General Assemblies met in Pittsburgh last week to make the final arrangements of the details of union, which will formerly take place next May.

The Presbyterian Church, thus united will embrace 458 Presbyteries, 7,-235 churches, 6,053 ministers, and 722,-851 communicants. It is estimated that the congregations number 4,000,-000souls, thus placing the church in the third rank among the Protestent denominations in size. The Methodists are the most numerous, the Baptists next, and after the Presbyterians the following is the order of the leading sects:—Congregationalists, Lutherans, Episcopalians, Reformed Dutch, and Universalists.

About Marriage.

Marriage is the woman's one career, in women rebell against the edict as they may; and though there may be occasional exception here and there, women learn the truth early in their lives.—And women know it later in life when they think of their girls; and men know it too, when they have to deal with their daughters. Girls, too, now acknowledge aloud that they have learned the lesson, and Saturday Reviewers and others blame them for their lack of modesty in doing so,—most unreasonably, most uselessly, and as far as the influence of such censors may go, most pernitiously. Nature prompts the desire, the world acknowledges its ubiquity, circumstances show that it is reasonable, the whole theory of creation requires it; but it is required that the most concerned should falsely repudiate it, in order that a mock modesty may be maintained in which no human being can believe! Such is the theory of the censors who deal heavily with our English women of the present day. Our daughters should be educated to be wives, but forsooth! they should never wish to be wooed! The very idea is but a remnant of the tawdry sentimentality of an age in which the mawkish insipidity of the women was the reaction from the vice of that preceding it.—That our girls are in quest of husbands, and know well in what way their lines in life should be laid, is a fact which none can dispute. Let men be taught to recognize the same truth as regards themselves, and we shall cease to hear of the necessity of a new career for woman.

Warm Clothing.

In choosing a warm dress, get it as light as you can. Think how light animals which have to endure great cold are clothed. What is lighter than feathers and fur? A bear can teach us a lesson of civilized science, and a goose can impart wisdom. The pricipal of advice given us by the wise man, 'Go to the ant, thou sluggard,' might well be extended to the example of the way in which the Creator clothes the dumb animals he has made. They are not heavily laden, unless, indeed, it is necessary to protect them with armor; but even then the material used is remarkable for its combination of lightness with strength. The tortoise is shielded more by the arched shape of its shell than by its thickness. There are some animals which float in water, which are covered heavily, but the weight of their clothes facilitates their movements in the elements in which they are intended to live, inasmuch as it enables them to dive to the depth necessary to subsist in. But for warmth, weight is needless, and for equable warmth, it is an actual hindrance, since a heavy dress

MRS. WHEELER'S

WORM CONFECTIONS.

MOTHERS,

READ this over carefully, and make up your mind, if the victims worms are not slowly, but surely destroying your darling ones.

That infant, whose face you look down upon in love, "to see yourself reflected there," whose first lisped word is the endearing title of "Mother," is liable to the peculiar disease which claims the little of thousands of the promising buds of humanity just opening into life. You may not understand the symptoms of the relentless disease—so plain to experience. But mark the wasting form; the glassy, expressionless eye, the fitful, startling sleep, the causeless picking of the nose with the thin finger—these tell of the knowing vermin of the stomach, eating away the very life of the child—a life you would give your own to save. And yet the cause is plain, and the cure within reach, if taken in time. Delay is not only danger, but death. That babe is the victim of worms, the insidious, but sure exposers of th cent of strength and life. Mrs. Wheeler's Confections are the best, because they—

1. Are palatable, and self-administered to the child. 2. Drive out the worms thoroughly without pain. 3. Cleanse the stomach completely. 4. Are effectual curatives of bowel complaints. 5. Restore the health and vigor, lustre to the eye, color to the cheek, and cheerfulness to the spirits. Not only removing worms, but their cause; and in not bringing worms away entire, casting them up and decomposing them so that they are evacuated insensibly. 7. They are used by the best physicians in their daily practice.

☞ Mrs. Wheeler's Confections are a PURE WHITE. Never give colored ones—your doctor will tell you such must contain more or less poison, and that the bulk of them include calomel, croton oil, and other dangerous drugs in their composition.

☞ Mrs. Wheeler's Confections are tasteless of the medical ingredients, through a process of her own. Children eat them like ordinary candy, and they never chose names. This gets over the main difficulty of liquid Vermifuges, which are hard to give, and harder to keep down after taking.

MRS. WHEELER'S

CONFECTIONS

Are the ones for you to use, for three reasons. They contain over twice the number of doses in a box of any other worm medicine in the market, consequently are really worth as much again, but still costing the same price,—25 cents per box, while the same number of doses of any other would cost you twice that. They are warranted just as represented above. Try a box of them and they don't prove good and you don't feel perfectly satisfied, return them to the store where you bought them and they will refund you 25 cents for the box half used up. Full directions on each box, which must be strictly followed.

Tell your Friends how you like them.

For sale by all Druggists and Country Merchants everywhere. Price 25 cents.

With Forty Doses in a Box.

Ayer's Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is soon restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume.
