Farm Deferments Granted Under Certain Conditions

There are no blanket farm deferments in the present draft setup. However, deferments may be given individual cases under certain restrictions, mostly based on the quantity of agricultural products marketed yearly from the farm in question and only when the following conditions are met:

1.—The registrant is, or but for a seasonal interruption, engaged in such activity.

2.—The registrant cannot be replaced because of a shortage of persons with those particular qualification or skill in such activity.

3.—The removal of registrant would cause material loss of effectiveness in such activity.

H. Ira Blixt, county agricultural agent, has on hand a supply of Farm Reports that supply supplementary information which should be filled out by registrants seeking deferments for farm operations, and filed with the local draft board.

Mrs. Gordon Cartwright Seriously Injured In Train-Auto Crash

Mrs. Lillian Cartwright of Belmont, daughter of Mr. and Mrs. Frank Holmes of Andover is in the Olean General hospital in a serious condition the result of a train-automobile crash on the Pennsylvania railroad crossing at Hinsdale.

The accident occurred about 9:30 Friday evening as a company of four Belmont ladies were returning to Belmont following a dinner party held at Olean in honor of one of the passengers in the car, Mrs. Richard Rose, who was moving from Belmont.

Mrs. Claude E. Ackerman was killed in the crash.

Mrs. Cartwright suffered a compound fracture and lacerations of the right leg, lacerations of the left ankle, broken ribs, broken jaw and the loss of several teeth.

Mrs. William R. VanCampen, Jr., suffered a broken leg, broken ribs and numerous cuts and bruises and Mrs. Rose a bad scalp wound and numerous cuts and bruises about the face and body.

Officers who investigated the crash and members of the train crew who witnessed it stated that apparently the occupants of the car failed to see the approaching train until too late to avoid the crash. The car struck a crosshead on the locomotive, scraped a cylinder jacket and swung completely around.

The train crew estimated the speed of the train, which was a 20-car freight, to be from 15 to 25 miles an hour.

We're in the Same Boat!

In the "letters to the editor" of the Friendship Register recently, residents of that village complained that something should be done to improve sanitary conditions in that village, with reference to a sewer system.

Andover has the same problem facing the Village Fathers under the same conditions that the Friendship officials have, namely prohibitive costs.

Andover, like Friendship, is badly in need of a sewage system BUT costs have risen to such an extent that the system voted about three years ago at $200,000 of which the Federal Public Works Administration would stand half, has risen to $400,000 with no Federal aid available.

An expenditure of this amount by a village board in a village the size of either Andover or Friendship is far above the limit allowed by law for communities of our size to handle through a bond issue.

Either village would welcome a workable program under which this situation could be improved.

Andover Supervisor Seeks More Aid in Snow Removal

Belmont, Oct. 6.—Supervisor Reginald J. Sootheran of Andover yesterday suggested to the Board of Supervisors that efforts be made to secure more state aid for snow removal.

Mr. Sootheran said this work is costing his township about $4,000 per year. A large portion of this expense is involved in the early morning and afternoon opening of 26 miles of highways to facilitate the operation of school buses. Mr. Sootheran suggested that the Highway Department contact Assemblyman William H. MacKenzie and determine whether or not the State would be willing to accept a greater share of this cost.

The securing of additional state aid for snow removal was urged by Supervisor Sootheran in an explanation of the marked increase of town costs for that purpose in the past ten years.
