County Veterans Service Officer Resigns

The task of naming a new director for the County Veterans' Service Agency this week faced Supervisors following the resignation last week of Robert W. Nicholson of Belmont, after two years service in the post.

Mr. Nicholson submitted his letter of resignation to Francis Wood, Chairman of the Board, at last Friday's meeting, asking that it be effective December 1st. The Board accepted it with regret.

Mr. Nicholson stated at that time that he was doing so to enter private industry. He has now announced that beginning with the new of the year, he will assume full-time duties as agent for the Mutual Benefit Life Insurance Company of Newark, New Jersey in Allegany and Cattaraugus counties.

Mr. Nicholson was appointed director of the Veterans' Service Agency in September 1946 to succeed Colonel C. C. Demmer, the first director. The Agency was first opened in October 1945, and at the time Mr. Nicholson assumed office, its files contained information on 624 of the county's war veterans. Its files now have cards on 3,630 county veterans. It is estimated that there are between five and six thousand war veterans in Allegany County.

Mr. Nicholson, a native of Belmont, had a position with the American Airways in New York prior to his accepting the directorship of the County Veterans' Agency.

He was a member of the Army Air Force during World War II and served two terms of overseas duty first in Headquarters, European Theater of Operations and then as a B-17 first pilot in the Eighth Air Force. He flew 25 combat missions as a pilot.

He plans to continue to make his home in Belmont.

The resignation was referred to the County Veterans's Service Committee of which Supervisor Leonard Hall of Belmont is the chairman, who states that no definite plans have been made as to Mr. Nicholson's successor. It is expected that action may be taken at the December meeting of the Board.

Jones, has offered to turn over to the Village of Wellsville her share of the estate, with the stipulation that any new hospital which might be constructed under a County Health Department program be located on the present property.

Mrs. Gridley not only offers her interest in the grounds and buildings but also recommends that the $30,000 endowment fund left by Mrs. Jones be liquidated and "such fund used in defraying the Village of Wellsville's share in the construction cost of a new hospital."

The bride, who was given in marriage by her father, looked lovely in a deep green velvet suit with white accessories. Her only jewelry was a diamond brouch of her mother's. The bride's corsage was of white orchids and she carried a white prayer book of the groom's mother.

Several Dogs Are Still Nuisance to Local Residents

Continued complaints to village officials by residents of Andover again brings to the attention of the owners of several dogs in this village which are permitted to run at large at night that drastic measures will be instituted either against the dogs or the owners of same. The owners of these dogs are referred to Article 7, Par. 115 of the Agriculture and Market Law which reads:

"The Commission may at any time, by order, require that all dogs in any town, city or county shall be securely confined between sunset and one hour after sunrise during the period of time designated in the order, or, if no time is so designated, until the order is revoked. Any peace officer shall kill on sight any dog at large in violation of such order. A dog shall not be deemed to be at large if accompanied by and under full control of the owner. Any town, city or county requesting the commissioner to make a night quarantine order shall, upon the making of such order, take adequate steps for the enforcement thereby."

If Andover village officials request this law be enforced it means that every dog running at large between these hours will be killed on sight.

There are a large number of children's pets and good hunting dogs that run the streets at night and day and it would seem too bad that these dogs should have to be killed to satisfy the damages caused by the few tramp dogs in Andover.

So again we call the attention of the owners of such dogs to keep them from annoying village residents in numerous ways so that this law will not have to be put into effect here.

Christmas Seal Sale Campaign Opens Nov. 22

The 1948 Christmas Seal Sale opens officially Monday, November 22 in Allegany County, with the delivery of Seals in the morning mail to county residents. Allegany County's Seal Sale is held in conjunction with the nationwide appeal for funds to support a battle against tuberculosis being waged throughout the country by the 3,000 associations affiliated with the National Tuberculosis Association.

The annual Seal Sale, which will continue until Christmas, represents the only appeal during the year for funds to carry on the year-round tuberculosis control work of the Allegany Health and Tuberculosis Association. Quota for Allegany County, the minimum needed to carry out the association's 1949 program, is set at $10,000.

"The nationwide fight against tuberculosis today is just as important as it was in 1907, the year of the first Seal Sale in the United States," Mrs. Wayne Stout, Chairman, said "Although tuberculosis has dropped from first to seventh place as the cause of deaths in America since 1907, the disease still kills nearly 50,000 Americans annually. While no age is safe from tuberculosis, the disease today is taking the lives of more Americans between 15 and 44 than any other disease.

"During the year 1947 in Allegany county three died from tuberculosis. We consider every one of these deaths unnecessary as well as tragic, because we know that tuberculosis can be prevented. We also know that our tuberculosis control program is as strong and no stronger than the interest, cooperation and support of every county resident."

Mrs. Stout explained that of the money raised in this county, 83% remains in the county to fight tuberculosis here and the remainder is forwarded to the State Committee on Tuberculosis and Public Health. The state sends five percent to the National Tuberculosis Association to finance its work on a national level. Of the total raised in the county's Seal Sale, therefore, 95 percent will be used within the state.

Seal Sale money finances such services in the county as: case-finding program; community, school and industrial x-ray, offering to every resident in the county, 15 years of age and over free x-rays in an effort to find unsuspected and early tuberculosis; health teaching service through talks, motion pictures, exhibits and literature; services to Mt. Morris Tuberculosis Hospital; Social Hygiene; and cooperation with health and other agencies in carrying on official programs of health service.

"It is an inspiring thought that the American people themselves, through their annual purchases of Christmas Seals have contributed materially toward the conquest of tuberculosis," said Mrs. Stout.

"But we cannot rest on our laurels while there is still a single case of tuberculosis in the county. We have a long road to travel before we eradicate tuberculosis and we must continue to fight the disease with every means at our disposal. The American people make use of a powerful weapon against tuberculosis every time they purchase Christmas Seals."

Richard Trezise Campaign Director for March of Dimes

William J. Gallman, chairman of the Allegany County Chapter of the National Foundation for Infantile Paralysis has announced the appointment of Richard E. Trezise of Wellsville as county campaign director for the 1949 March of Dimes.
