HOW TO FIT A COLLAR TO A HORSE.—In purchasing a collar for your horse, it is important to get one that fits him, as both the animal and yourself will thus be saved much annoyance. The *Harness and Carriage Journal* says: "The plan adopted in the West, and which, we are assured by men who have been long in the collar business, does not injure the collar in the least, is to dip it in water until the leather is thoroughly wet, then put it on the horse, secure the hames firmly, keeping it there until it becomes dry. It is all the better if heavy loads are to be drawn as that causes the collar to be more evenly fitted to the neck and shoulder. If possible, the collar should be kept on from four to five hours, when it will be perfectly dry and retain the same shape ever afterward, and as it is exactly fitted to the form of the neck, will never produce chafes or sores on the horse's neck."

Look to the Implements.

IT is a lamentable fact that a large majority of our farmers lose as much from a want of proper care of tools as from the actual wear and tear of them. Repeated wetting and drying spoils, sooner or later, any kind of woodwork, the moisture getting into the cracks soon increases them. This may be prevented by a timely and occasional application of some cheap paint. Much has been said and written upon the value of tool-houses, and it is hardly necessary for us to add our mite to the general collection; but providing the tool-house is not all that should be done—the shovels, spades and forks are brought into the tool house with the dirt sticking to them, and in that condition they remain through the winter, or until they are again needed. All practical farmers know how much better a bright plow turns the furrow, how much easier it is on the team and driver, and yet they will bring their plows and harrows in every spring and fall with the dirt sticking to them, and allow them to remain in that condition until again wanted, much to their own loss and expense. There are various mixtures which might be applied to the iron to prevent rusting, the cheapest of which is common (unsalted) grease. A better article may be formed by melting together six pounds of fresh (not salted) lard and two of resin. An old iron pot is a good thing to keep and compound the mixture in. As soon as a tool is done being used for the season, clean it off and give it a coat of this mixture, and even if it remains undisturbed for years, it will come out as bright as when put away.—*Germantown Telegraph.*

MRS. WHEELER'S

WORM CONFECTIONS.

MOTHERS,

READ this over carefully, and make up your mind that the vicious worms are not slowly, but surely destroying your darling ones.

That infant, whose face you look down upon in love, "to see yourself reflected there," whose first lisped word is the endearing title of "Mother," is liable to the peculiar disease which blasts the lives of thousands of the relentless disease—no plain to experience.' But mark the wasting form; the glassy, expressionless eye, the fitful, startling sleep, the ceaseless picking of the nose with the thin fingers—those tell of the knawing vermin of the stomach, cutting away the very life of the child—a life you would give your own to save. And yet the cause is plain, and the cure within reach, if taken in time. Delay is not only danger, but death. That babe is the victim of worms, the insidious, but sure agents of its want of strength and life. Mrs. Wheeler's Confections are the best, because they—

1. Are palatable, and self administered to the child. 2. Drive out the worms thoroughly without pain. 3. Cleanse the stomach completely. 4. Are effectual curatives of bowel complaints. 5. Restore health and vigor, lustre to the eye, color to the cheek, and cheerfulness to the spirits. Not only removing worms, but their cause; and if not bring ing worms away entire, cutting them up and decomposing them so that they are evacuated insensibly. 7. They are used by the best physicians in their daily practice.

☞ Mrs. Wheeler's Confections are a PURE WHITE. Never give colored ones—your doctor will tell you such must contain more or less poison; and that the bulk of them include calomel, croton oil, and other dangerous drugs in their composition.

☞ Mrs. Wheeler's Confections are tasteless to the medical ingredients, through a process of her own. Children eat them like ordinary candy, and they never cause nausea. This gets over the natural difficulty of liquid Vermifuges, which are hard to give, and harder to keep down after taking.

MRS. WHEELER'S

CONFECTIONS

Are the ones for you to use, for these reasons: They contain over twice the number of doses in a box of any other worm medicine in the market, consequently are really worth as much again, but still costing the same price,—25 cents per box,—while the same number of doses of any other would cost you twice that. They are warranted just as represented above. Try a box of them and they don't prove good and you don't feel perfectly satisfied, return them to the store where you bought them, and they will refund you 25 cents for the box, half in cash. Full directions on each box, which must be strictly followed.

Tell your Friends how you like them.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears,* and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Bile, Epilepsy, Neuralgia,* and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations,* and *Female Diseases,* are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout,* when caused by accumulations of extraneous matter in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver,* and *Jaundice,* when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless,* and troubled with *Nervous Apprehensions* or *Fears,* or any of the affections, symptomatic of *Weakness,* will find immediate relief and convincing evidence of its restorative power upon trial.
