## Special Lenten Services at Methodist Church

Special Lenten services will be held at the Methodist church each Sunday evening at 7:30 p. m., from now until Palm Sunday.

On February 26, Rev. Glenn Bucher, pastor of the Park Methodist church of Hornell, will be the opening speaker. Mr. Bucher will speak on his trip to Germany last summer. He went to Germany as a member of a volunteer team to help rebuild a Methodist hospital that had been bombed-out during the war. Mr. Bucher will also show pictures that were taken in Germany that will show the work being done there. His tremendous spiritual experience gained in this Christian humanitarian project will be an appropriate starting point for these Lenten services.

On the following Sunday, Mar. 5 the Rev. Carl Maxson, pastor of the Independence and Andover Seventh Day Baptist churches and interim-pastor of the Andover Baptist church will be the speaker. The Rev. H. Wass of Greenwood will be the speaker on March 12 and Douglas Garwood, pastor of the Belmont Methodist church will be the guest speaker on March 19.

On March 26 the sound motion picture, "The King of Kings", telling the story of Christ from the conversion of Mary Magdalene to the Resurrection will be shown. This famous movie starring Joseph Schildkraut and H. B. Warner has a running time of 115 minutes. The series of Lenten services will conclude on April 2 with a candle-lighting service entitled "The Light of the World."

Special music will be a feature of each service. The Methodist church extends to all a cordial invitation to attend any or all of these services. Chester Whitt, pastor of the Methodist church, is in charge of these services.

## Proposed New Garbage and Rubbish Dump

For a number of years it has been evident that a larger area for a garbage and rubbish dump has been needed to replace the present site. Each time that the present location has been called to the attention of the New York State Health Department by reason of complaint, the Department has stressed the need for a larger area where there is enough earth available for covering and compacting after the material has been leveled.

We have finally found a site which seems to have the necessary qualifications. It is located on the William Burger farm along Route 17 between the State highway and the Erie railroad. This plot of ground, consisting of between three and four acres and having a 200-foot frontage can be acquired for $600.00 (six hundred dollars). Annual rental for present dumping ground is fifty dollars.

One of the desirable features is the accessibility of the site and the small amount of road it will be necessary to build to have access to the dumping area. It will also be possible to have the dumping area located about 300 feet from the highway where it will not be visible from the road except at a considerable distance.

The following suggestions were made by Richard C. Gormley, Jr., District Sanitary Engineer, at the time of his inspection of the site February 3, 1950:

"At the time of inspection, I made the following suggestion. If a dump is to be established at this site, arrangements should be made for some regular supervision. It would be desirable to try out a method of providing trenches into which the material would be dumped and at proper intervals the excavated soil could be used to cover the trenches. If such a procedure is not carried out, then some arrangements will need to be made for regular leveling and compacting of the material and the providing of some cover to minimize the propagation of insects and rodents.

"The dumping area should be controlled by means of a movable fence so as to facilitate the work in keeping the dump in a satisfactory condition. Dumping should be limited to those areas not subject to flooding. Inclosing the area with suitable trees would have several advantages, such as making the site less visible from the road and possibly for preventing the distribution of paper over a wide area."

BOARD OF TRUSTEES,
