Harvest Home To Be Held Next Thursday

Two major changes have been made in the annual Harvest Home of the Andover Presbyterian church this year. The date has been changed to the third Thursday in July (next Thursday July 20), and the time of the chicken dinner has been changed to 5 o'clock in the afternoon instead of at noon. This latter change was made so as to accommodate a number who could not get away from their work in the middle of the day.

Rev. Albert N. Rogers, pastor of the church, announces that his cousin, Miss Dorothy Clawson, who has just returned from China where she has been serving as a Presbyterian missionary nurse, will be the principal speaker on the program, which will follow the dinner. A musical program is also being arranged.

Mrs. Wesley Grossman and Mrs. Hugh Barlow are co-chairmen of this year's festival.

The Harvest Home festival has for many years been a homecoming event for many former Andover people and as the program for this year is being developed those attending are assured of a most enjoyable event.

Village Board Contemplates New Electric Set-up

A new problem faced the village board at its regular meeting held Tuesday night in connection with the village electric and telephone set-up.

The picture, as we see it, is that in order to cooperate with the telephone company in giving Andover people a modern and efficient telephone plant, which we all agree is sorely needed and which the telephone company is making every effort to install, the village electric lines will have to be raised about six feet to give the proper clearance from the ground and distance between electric and telephone lines.

In discussing the problem it was brought out that with a little more investment the lines could be relocated out of the trees, thus avoiding the drastic trimming of our beautiful shade trees and also eliminate the maintenance cost of tree trimming each year, which with the lines six feet higher in the trees would be considerable more than it is at present.

It was also brought out that in the opinion of the board, the majority of Andover people would rather have one set of utility lines running on the back of their properties than to have their trees along the streets cut up six feet more or have two sets of poles in front of their properties.

If such a plan was adopted most of the changes would be made on the east side of Main street where the lines and the trees seem to conflict the most.

The proposed change would take all electric lines off Elm street, Center street, Pleasant avenue, Greenwood street and Dyke street. The primary line would run back of the residences on the north side of Elm street up to the school property, cross over to supply the silk mill and continue to the reservoir. Secondary lines would feed off from East avenue between Center street and Pleasant avenue, between Pleasant avenue and Greenwood streets and between Greenwood and Dyke streets, with a line following up the creek on the south side of Dyke street.

This program would also cut down to a considerable extent the radio interference caused by tree limbs rubbing against the lines.

Many of our present electric lines are inadequate for the increased load that has developed and with a number of village residents inquiring about service for electric stoves, it is evident that in the near future lines will have to be enlarged. With this thought in mind, and the engineer's estimated cost of raising the present lines six feet higher placed at $6,000, the board feels that the relocation and increasing of the lines to carry future anticipated loads is a step in the right direction to provide Andover with adequate electric and telephone service in the future. The cost of the proposed changes of course, will exceed the cost of raising of the lines, but if the latter is done the set-up would still not be of a permanent nature and changes would have to be made in the future.

Constructive suggestions as to this program will be welcomed by board members before action is taken on the project.

The board also discussed the extent of the curb and gutter project on East Greenwood street which, as set up at present, will extend from Main street to East avenue on the north side of Greenwood street and from Main to the O'Boyle property on the south side. The height of the center of the highway and the narrowness of the shoulders above these points presents a problem in the construction that is still unsolved.

Softball League Meeting Held; Swimming Trip Planned

The first meeting of the men's softball league was held Tuesday evening with 28 players present.

A softball game was organized and enjoyed by all until darkness called a halt to the battle between Karcanes' "Skippers" and Baker's "Moose." Saturday, July 15, a bus will go to Wellsville for swimming at the Wellsville pool. The bus will leave at 10:15 from in back of the school. People wishing to go will meet at the school at this time. The charge will be 10 cents which is paid to enter the pool, transportation being furnished by the school. Also a note of permission from the parents of any child wishing to go must be submitted to either Miss Dolan or Mr. Witzel before they will be allowed to board the bus for Wellsville on Saturday.

Gorsuch Car Wrecked In Stock Car Race

Miles "Whitey" Gorsuch of Andover escaped serious injury at Naples Sunday while participating in the stock car races at the Naples Speedway during the feature race.

Gorsuch received minor cuts and bruises when his car overturned end-over-end on the third lap of the 20-lap race. Spectators received a thrill when a second car whizzed beneath the Gorsuch auto as it twisted through the air. Later in the race Howard Williams of Wyoming swung wide to miss the wrecked Gorsuch racer and slammed into the rail fence. His car also crashed end-over-end along the track.
