A PROGRESSIVE FAMILY NEWSPAPER FOR ALLEGANY COUNTY PEOPLE — IN POLITICS INDEPENDENT BUT NEVER NEUTRAL.

VOL. 65, NO. 29. For the Week Ending Thursday, July 20, 1950. $3.00 year; 7c copy

County Gets Draft Call for Twelve Men

The Allegany County Draft Board received a call Friday for 12 men as their first call under the new draft. No definite date has been set as yet for physical examinations at Buffalo, but arrangements are being made for examinations in the very near future.

As the draft becomes reactivated the local board wishes to remind all 18-year-olds to register. The board believes that there are a number of these boys throughout the county who have failed to register and urges them to do so immediately. There will be no trouble if they do so now. No one knows what the future holds and it is much better to be safe. The law requires that all young men register within five days after they reach their 18th birthday.

In this area eligible young men may register at the Andover News office, at the Alfred Loan Association in Alfred or the office of Orville Knox in Wellsville.

Another point is that no one under the draft age will be allowed to leave the country without a certificate of permission from their draft board. Immigration officials have been instructed to enforce this ruling, so if any one of draft age plans on going into Canada on his vacation, be sure and get a certificate from your draft board office which in Allegany county is located in the Court House at Belmont and which is now open full time Mondays through Fridays.

The board has started classifications and those who feel they are entitled to a deferment should submit their reasons in writing immediately. Farmers can secure the regular farm blanks at the Farm Bureau office in Belmont. Regardless whether you work your own farm or whether you work for someone else, if you are of draft age a regular farm deferment (pink sheet) must be filed before the board can consider your deferment. A few of these farm blanks are also available at the News office.

Classifications are now being made as follows:

1-A, available for service.
1-D, in active reserve.
1-C, in service.
2-A, essential industry.
2-C, farmers.
3-A, with dependents.
4-A, completed one year of active service.
4-D, minister.
4-F, physically unqualified.
5-A, 26 years of age or over.

An Open Letter To Andover Village Board

We read with great interest in last week's News the proposal to change over the electric service by removing all poles and wires from the streets and placing them in black of the houses.

With greater interest we noted that this improvement was to be confined to the east side of Main street.

This action would still leave the west side of town with the present set-up of radio interference and trees lopped off to make way for the wires along the streets.

After reading the proposal we set out to see how others felt about it. We contacted as many parties as possible and finally reached the following opinions:

Every person we talked with was in favor of removing the poles and wires from the streets.

Every person asked the same question: "What's the idea of considering only half of the village?"

All of the people feel that if the change is not made on the west side now, it never will be.

In summing it up, we feel that to change over just half of the system would be a job half done. We think it would be a big step in civic improvement to move all the wires off all the streets. Then we could plant new trees, have better service and a better looking village.

Respectfully,
WEST SIDE RESIDENTS

Their reactions and decisions makes a tense and gripping story.
