Announce Upstate Potato Agreement Program

A referendum on a proposed marketing agreement and order program which would regulate the handling of Irish potatoes grown in upstate New York will be held from August 21 to August 25, Robert J. Howard, chairman of the New York State Production and Marketing Administration committee has announced.

Ballots, voting instructions and a copy of the proposed agreement have been mailed to all potato growers on PMA records. Any grower who may have failed to receive a ballot by mail may secure one by contacting his county PMA office.

At least two-thirds of the growers voting in the referendum, by number or volume of production, must approve before the marketing order can be issued. The order itself does not include specific size, grade or quality regulations. July Milk Price Is Announced At $3.57

New York, Aug. 14.—A uniform price of $3.57 per hundredweight will be paid to dairy farmers for their July deliveries to 435 pool-approved plants in the six-state New York milkshed, it was announced here today by Dr. C. J. Blanford, market administrator of the New York metropolitan milk marketing area. The uniform price in June was $3.21 per hundredweight, and in July a year ago $3.94.

The administrator also announced a producer butterfat differential for July of 5.8 cents for each tenth of a pound of fat above or below the 3.5 per cent standard.

July milk production of 626,100,071 pounds, up 8.43 per cent from a year ago, was the heaviest for the month since the federal-state marketing orders were established in late 1938. Production per day per dairy last month averaged 394 pounds, seven pounds above a year ago but six pounds under the record for the month reached in 1945.

A gain of 3.50 per cent in fluid milk consumption accompanied the rise in production last month, Dr. Blanford reported. Fluid sales last month totaled 310,395,250 pounds, compared with 299,893,945 pounds in July a year ago. The increase was 10,501,305 pounds.

Total farm value of last month's production is $22,947,420.27, made up of $22,351,772.53 at the uniform price and $595,647.74 in butterfat and location premiums.
